

Antimicrobial Susceptibility of Salmonella Isolated from 2003

Journal of Food Protection

70, 1334-1338

DOI: 10.4315/0362-028x-70.6.1334

Citation Report

#	ARTICLE	IF	CITATIONS
1	<i>In vitro</i> inhibition activity of different bacteriocin-producing <i>Escherichia coli</i> against <i>Salmonella</i> strains isolated from clinical cases. Letters in Applied Microbiology, 2009, 49, 31-38.	2.2	27
2	<i>Salmonella enterica</i> serotypes and antibiotic susceptibility in New Zealand, 2002–2007. Epidemiology and Infection, 2010, 138, 322-329.	2.1	6
3	Antimicrobial Resistance in Food-Borne Pathogens. , 0, , 231-265.		2
4	Comparative characterization of nontyphoidal <i>Salmonella</i> isolated from humans and food animals in China, 2003–2011. Heliyon, 2018, 4, e00613.	3.2	14
5	Antimicrobial susceptibility of <i>Salmonella</i> serotypes isolated from human and animals in Sudan. Journal of Public Health and Epidemiology, 2012, 4, .	0.3	7
