

CITATION REPORT

List of articles citing

Heat transfer and flow behaviour of aqueous suspensions of TiO₂ nanoparticles (nanofluids) flowing upward through a vertical pipe

DOI: 10.1016/j.ijheatmasstransfer.2006.10.024

International Journal of Heat and Mass Transfer, 2007, 50, 2272-2281.

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
