

# CITATION REPORT

List of articles citing

Paired-end mapping reveals extensive structural variation in the human genome

DOI: 10.1126/science.1149504  
Science, 2007, 318, 420-6.

**Source:** <https://exaly.com/paper-pdf/43054519/citation-report.pdf>

**Version:** 2024-04-23

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
