# CITATION REPORT List of articles citing

### Lifting the crowncitation z-score

DOI: 10.1016/j.joi.2006.09.007 Journal of Informetrics, 2007, 1, 145-154.

Source: https://exaly.com/paper-pdf/43190368/citation-report.pdf

Version: 2024-04-20

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
190	Anaesthetic research in the United Kingdom: publishing or perishing?. 2008, 63, 225-7		18
189	Universality of citation distributions: toward an objective measure of scientific impact. <b>2008</b> , 105, 17268	3-72	498
188	Measuring the validity of early health technology assessment: bibliometrics as a tool to indicate its scientific basis. <b>2008</b> , 24, 70-5		4
187	Libcitations: A measure for comparative assessment of book publications in the humanities and social sciences. <b>2009</b> , 60, 1083-1096		73
186	Universality of citation distributions validation of Radicchi et al.'s relative indicator cf = $c/c0$ at the micro level using data from chemistry. <b>2009</b> , 60, 1664-1670		33
185	Scientometric analysis of national university research performance in analytical chemistry on the basis of academic publications: Italy as case study. <b>2010</b> , 398, 17-26		5
184	The iceberg hypothesis revisited. <i>Scientometrics</i> , <b>2010</b> , 85, 443-461	3	16
183	Scopus's source normalized impact per paper (SNIP) versus a journal impact factor based on fractional counting of citations. <b>2010</b> , 61, 2365-2369		100
182	Rivals for the crown: Reply to Opthof and Leydesdorff. <i>Journal of Informetrics</i> , <b>2010</b> , 4, 431-435	3.1	70
181	Normalization at the field level: Fractional counting of citations. <i>Journal of Informetrics</i> , <b>2010</b> , 4, 644-646	63.1	72
180	What lies behind the averages and significance of citation indicators in different disciplines?. <b>2010</b> , 36, 371-382		37
179	Bibliometric indicators: quality measurements of scientific publication. <b>2010</b> , 255, 342-51		275
178	A field-standardized application of DEA to national-scale research assessment of universities. Journal of Informetrics, <b>2011</b> , 5, 618-628	3.1	52
177	University Rankings. <b>2011</b> ,		103
176	A combined bibliometric indicator to predict article impact. <b>2011</b> , 47, 300-308		54
175	A made-to-measure indicator for cross-disciplinary bibliometric ranking of researchers performance. <i>Scientometrics</i> , <b>2011</b> , 86, 113-123	3	14
174	A national-scale cross-time analysis of university research performance. <i>Scientometrics</i> , <b>2011</b> , 87, 399-41	3	13

173	Towards a new crown indicator: an empirical analysis. Scientometrics, 2011, 87, 467-481	3	152
172	The dangers of performance-based research funding in non-competitive higher education systems. <i>Scientometrics</i> , <b>2011</b> , 87, 641-654	3	34
171	Price revisited: on the growth of dissertations in eight research fields. <i>Scientometrics</i> , <b>2011</b> , 88, 371-383	3 3	30
170	A recursive field-normalized bibliometric performance indicator: an application to the field of library and information science. <i>Scientometrics</i> , <b>2011</b> , 89, 301-314	3	44
169	National research assessment exercises: a comparison of peer review and bibliometrics rankings. <i>Scientometrics</i> , <b>2011</b> , 89, 929-941	3	52
168	Towards a new crown indicator: Some theoretical considerations. <i>Journal of Informetrics</i> , <b>2011</b> , 5, 37-47	3.1	249
167	The effects and their stability of field normalization baseline on relative performance with respect to citation impact: A case study of 20 natural science departments. <i>Journal of Informetrics</i> , <b>2011</b> , 5, 101-	-143	24
166	There are neither kinglhor Brownlin scientometrics: Comments on a supposed liternative method of normalization. <i>Journal of Informetrics</i> , <b>2011</b> , 5, 226-227	3.1	39
165	Averages of ratios vs. ratios of averages: An empirical analysis of four levels of aggregation. <i>Journal of Informetrics</i> , <b>2011</b> , 5, 392-399	3.1	32
164	Are female researchers less cited? A large-scale study of Norwegian scientists. <b>2011</b> , 62, 628-636		79
163	How to evaluate universities in terms of their relative citation impacts: Fractional counting of citations and the normalization of differences among disciplines. <b>2011</b> , 62, 1146-1155		54
162	Turning the tables on citation analysis one more time: Principles for comparing sets of documents. <b>2011</b> , 62, 1370-1381		121
161	The citation life cycle of articles published in 13 American Psychological Association journals: A 25-year longitudinal analysis. <b>2011</b> , 62, 1629-1636		16
160	Integrated impact indicators compared with impact factors: An alternative research design with policy implications. <b>2011</b> , 62, 2133-2146		102
159	Fractional counting of citations in research evaluation: A cross- and interdisciplinary assessment of the Tsinghua University in Beijing. <i>Journal of Informetrics</i> , <b>2011</b> , 5, 360-368	3.1	26
158	Chapter 5. Journal Citations. <b>2012</b> , 223-300		
157	Testing the fairness of citation indicators for comparison across scientific domains: The case of fractional citation counts. <i>Journal of Informetrics</i> , <b>2012</b> , 6, 121-130	3.1	63
156	Universality of performance indicators based on citation and reference counts. <i>Scientometrics</i> , <b>2012</b> , 93, 473-495	3	33

155	What is the appropriate length of the publication period over which to assess research performance?. <i>Scientometrics</i> , <b>2012</b> , 93, 1005-1017	3	46
154	The weakening relationship between the impact factor and papers' citations in the digital age. <b>2012</b> , 63, 2140-2145		142
153	How important is choice of the scaling factor in standardizing citations?. <i>Journal of Informetrics</i> , <b>2012</b> , 6, 645-654	3.1	13
152	The citation-based indicator and combined impact indicator New options for measuring impact. <i>Journal of Informetrics</i> , <b>2012</b> , 6, 631-638	3.1	7
151	An Integrated Impact Indicator: A new definition of 'Impact' with policy relevance. <b>2012</b> , 21, 183-188		14
150	Field normalized citation rates, field normalized journal impact and Norwegian weights for allocation of university research funds. <i>Scientometrics</i> , <b>2012</b> , 92, 767-780	3	27
149	A further step forward in measuring journals lacientific prestige: The SJR2 indicator. <i>Journal of Informetrics</i> , <b>2012</b> , 6, 674-688	3.1	177
148	Ranking national research systems by citation indicators. A comparative analysis using whole and fractionalised counting methods. <i>Journal of Informetrics</i> , <b>2012</b> , 6, 36-43	3.1	78
147	Partition-based Field Normalization: An approach to highly specialized publication records. <i>Journal of Informetrics</i> , <b>2012</b> , 6, 1-10	3.1	13
146	A sensitivity analysis of research institutions [productivity rankings to the time of citation observation. <i>Journal of Informetrics</i> , <b>2012</b> , 6, 298-306	3.1	7
145	The new Excellence Indicator in the World Report of the SCImago Institutions Rankings 2011. Journal of Informetrics, <b>2012</b> , 6, 333-335	3.1	107
144	The dispersion of research performance within and between universities as a potential indicator of the competitive intensity in higher education systems. <i>Journal of Informetrics</i> , <b>2012</b> , 6, 155-168	3.1	31
143	A sensitivity analysis of researchers productivity rankings to the time of citation observation. Journal of Informetrics, <b>2012</b> , 6, 192-201	3.1	15
142	The case of scientometricians with the absolute relative Impact indicator. <i>Journal of Informetrics</i> , <b>2012</b> , 6, 254-264	3.1	28
141	Sub-field normalization in the multiplicative case: Average-based citation indicators. <i>Journal of Informetrics</i> , <b>2012</b> , 6, 543-556	3.1	16
140	Revisiting the scaling of citations for research assessment. <i>Journal of Informetrics</i> , <b>2012</b> , 6, 470-479	3.1	51
139	The journal impact factor: angel, devil, or scapegoat? A comment on J.K. Vanclay® article 2011. <i>Scientometrics</i> , <b>2012</b> , 92, 485-503	3	45
138	Citation measures at the micro level: Influence of publication age, field, and uncitedness. <b>2012</b> , 63, 145	59-1465	5 4

#### (2013-2012)

137	Sub-field normalization in the multiplicative case: High- and low-impact citation indicators. <b>2012</b> , 21, 113-125		12
136	Revisiting size effects in higher education research productivity. <b>2012</b> , 63, 701-717		35
135	The quality-quantity-quasity and energy-exergy-entropy exegesis of expected value calculation of citation performance. <i>Scientometrics</i> , <b>2012</b> , 91, 269-275	3	7
134	Alternatives to the journal impact factor: I3 and the top-10% (or top-25%?) of the most-highly cited papers. <i>Scientometrics</i> , <b>2012</b> , 92, 355-365	3	57
133	Indicators for research performance evaluation: an overview. <b>2012</b> , 109, 321-4		18
132	Reflections on the activity index and related indicators. <i>Journal of Informetrics</i> , <b>2012</b> , 6, 413-421	3.1	22
131	An individual-level assessment of the relationship between spin-off activities and research performance in universities. <b>2012</b> , 42, 225-242		32
130	Universality of citation distributions revisited. <b>2012</b> , 63, 72-77		53
129	The inconsistency of the h-index. <b>2012</b> , 63, 406-415		182
128	Basic properties of both percentile rank scores and the I3 indicator. <b>2012</b> , 63, 416-420		39
128	Basic properties of both percentile rank scores and the I3 indicator. <b>2012</b> , 63, 416-420  Cross-field evaluation of publications of research institutes using their contributions to the fields MVPs determined by h-index. <i>Journal of Informetrics</i> , <b>2013</b> , 7, 455-468	3.1	39
	Cross-field evaluation of publications of research institutes using their contributions to the fields	3.1	
127	Cross-field evaluation of publications of research institutes using their contributions to the fields MVPs determined by h-index. <i>Journal of Informetrics</i> , <b>2013</b> , 7, 455-468  A systematic empirical comparison of different approaches for normalizing citation impact		3
127 126	Cross-field evaluation of publications of research institutes using their contributions to the fields MVPs determined by h-index. <i>Journal of Informetrics</i> , <b>2013</b> , 7, 455-468  A systematic empirical comparison of different approaches for normalizing citation impact indicators. <i>Journal of Informetrics</i> , <b>2013</b> , 7, 833-849  The suitability of h and g indexes for measuring the research performance of institutions.	3.1	3 83
127 126 125	Cross-field evaluation of publications of research institutes using their contributions to the fields MVPs determined by h-index. <i>Journal of Informetrics</i> , <b>2013</b> , 7, 455-468  A systematic empirical comparison of different approaches for normalizing citation impact indicators. <i>Journal of Informetrics</i> , <b>2013</b> , 7, 833-849  The suitability of h and g indexes for measuring the research performance of institutions. <i>Scientometrics</i> , <b>2013</b> , 97, 555-570	3.1	3 83 13
127 126 125	Cross-field evaluation of publications of research institutes using their contributions to the fields MVPs determined by h-index. <i>Journal of Informetrics</i> , <b>2013</b> , 7, 455-468  A systematic empirical comparison of different approaches for normalizing citation impact indicators. <i>Journal of Informetrics</i> , <b>2013</b> , 7, 833-849  The suitability of h and g indexes for measuring the research performance of institutions. <i>Scientometrics</i> , <b>2013</b> , 97, 555-570  Universality of scholarly impact metrics. <i>Journal of Informetrics</i> , <b>2013</b> , 7, 924-932  Are mobile researchers more productive and cited than non-mobile researchers? A large-scale	3.1	3 83 13 63
127 126 125 124	Cross-field evaluation of publications of research institutes using their contributions to the fields MVPs determined by h-index. <i>Journal of Informetrics</i> , <b>2013</b> , 7, 455-468  A systematic empirical comparison of different approaches for normalizing citation impact indicators. <i>Journal of Informetrics</i> , <b>2013</b> , 7, 833-849  The suitability of h and g indexes for measuring the research performance of institutions. <i>Scientometrics</i> , <b>2013</b> , 97, 555-570  Universality of scholarly impact metrics. <i>Journal of Informetrics</i> , <b>2013</b> , 7, 924-932  Are mobile researchers more productive and cited than non-mobile researchers? A large-scale study of Norwegian scientists. <b>2013</b> , 22, 215-223	3.1 3 3.1	3 83 13 63 34

119	The impact of unproductive and top researchers on overall university research performance. Journal of Informetrics, <b>2013</b> , 7, 166-175	3.1	31
118	An evaluation of impacts in "Nanoscience & nanotechnology": steps towards standards for citation analysis. <i>Scientometrics</i> , <b>2013</b> , 94, 35-55	3	12
117	Selecting competent referees to assess research projects proposals: A study of referees' registers. <b>2013</b> , 22, 41-51		2
116	Quantifying the benefits of international scientific collaboration. <b>2013</b> , 64, 392-404		60
115	Which percentile-based approach should be preferred for calculating normalized citation impact values? An empirical comparison of five approaches including a newly developed citation-rank approach (P100). <i>Journal of Informetrics</i> , <b>2013</b> , 7, 933-944	3.1	37
114	Caveats for using statistical significance tests in research assessments. <i>Journal of Informetrics</i> , <b>2013</b> , 7, 50-62	3.1	41
113	Evaluating a department research: Testing the Leiden methodology in business and management. <b>2013</b> , 49, 587-595		9
112	Assessing the accuracy of the h- and g-indexes for measuring researchers' productivity. <b>2013</b> , 64, 1224-	1234	13
111	Measuring institutional research productivity for the life sciences: the importance of accounting for the order of authors in the byline. <i>Scientometrics</i> , <b>2013</b> , 97, 779-795	3	22
110	Comparative rank assessment of journal articles. <i>Journal of Informetrics</i> , <b>2013</b> , 7, 712-717	3.1	8
109	Does the specification of uncertainty hurt the progress of scientometrics?. <i>Journal of Informetrics</i> , <b>2013</b> , 7, 292-293	3.1	2
108	Aggregating productivity indices for ranking researchers across multiple areas. 2013,		20
107	Variability of citation behavior between scientific fields and the normalization problem: The liting-sidelhormalization in context. <b>2013</b> , 7, 55-67		5
106	The Scientific Influence of Nations: Quantity, Focus and Impact in Nanotechnology Research. <i>SSRN Electronic Journal</i> , <b>2013</b> ,	1	
105	Coverage, field specialisation and the impact of scientific publishers indexed in the Book Citation Index. <b>2014</b> , 38, 24-42		38
104	Distributions of citations of papers of individual authors publishing in different scientific disciplines: Application of Langmuir-type function. <i>Journal of Informetrics</i> , <b>2014</b> , 8, 972-984	3.1	2
103	Investigating returns to scope of research fields in universities. <b>2014</b> , 68, 69-85		11
102	Relationship between downloads and citations at journal and paper levels, and the influence of language. <i>Scientometrics</i> , <b>2014</b> , 101, 1043-1065	3	30

#### (2015-2014)

International and domestic co-publishing and their citation impact in different disciplines. <i>Scientometrics</i> , <b>2014</b> , 98, 823-839	3	68
Measuring Scholarly Impact. <b>2014</b> ,		60
A review of the characteristics of 108 author-level bibliometric indicators. <i>Scientometrics</i> , <b>2014</b> , 101, 125-158	3	124
Comparing scientific performance among equals. <i>Scientometrics</i> , <b>2014</b> , 101, 1731-1745	3	10
The spin-off of elite universities in non-competitive, undifferentiated higher education systems: an empirical simulation in Italy. <i>Studies in Higher Education</i> , <b>2014</b> , 39, 1270-1289	2.6	6
Relatives in the same university faculty: nepotism or merit?. <i>Scientometrics</i> , <b>2014</b> , 101, 737-749	3	10
Comparison of the effect of mean-based method and z-score for field normalization of citations at the level of Web of Science subject categories. <i>Scientometrics</i> , <b>2014</b> , 101, 1679-1693	3	28
On the meaningful and non-meaningful use of reference sets in bibliometrics. <i>Journal of Informetrics</i> , <b>2014</b> , 8, 273-275	3.1	4
Sub-field normalization of the IEEE scientific journals based on their connection with Technical Societies. <i>Journal of Informetrics</i> , <b>2014</b> , 8, 508-533	3.1	12
Evaluating the performance of electromagnetic fields (EMF) research work (2003🛭 013). <i>Scientometrics</i> , <b>2015</b> , 105, 261-278	3	5
Is It a Home Run? Measuring Relative Citation Rates in Accounting Research. SSRN Electronic Journal, 2015,	1	
Les Dflives de l'Waluation de la Recherche: du bon usage de la bibliomfirie (The Excesses of Research Evaluation: The Proper Use of Bibliometrics) by Yves Gingras. Paris: Raisons d'Agir Editions, 2014. 122 pp. 8? (paper). (ISBN: 978-2-912107-75-6). <i>Journal of the Association for</i>	2.7	3
Completing h. <i>Journal of Informetrics</i> , <b>2015</b> , 9, 385-397	3.1	17
A novel approach to citation normalization: A similarity-based method for creating reference sets. Journal of the Association for Information Science and Technology, <b>2015</b> , 66, 489-500	2.7	13
Improving the normalization effect of mean-based method from the perspective of optimization: optimization-based linear methods and their performance. <i>Scientometrics</i> , <b>2015</b> , 102, 587-607	3	О
Geometric journal impact factors correcting for individual highly cited articles. <i>Journal of Informetrics</i> , <b>2015</b> , 9, 263-272	3.1	42
A review of theory and practice in scientometrics. <i>European Journal of Operational Research</i> , <b>2015</b> , 246, 1-19	5.6	313
Field-normalized citation impact indicators and the choice of an appropriate counting method. Journal of Informetrics, 2015, 9, 872-894	3.1	127
	Measuring Scholarly Impact. 2014.  A review of the characteristics of 108 author-level bibliometric indicators. <i>Scientometrics</i> , 2014, 101, 125-158  Comparing scientific performance among equals. <i>Scientometrics</i> , 2014, 101, 1731-1745  The spin-off of elite universities in non-competitive, undifferentiated higher education systems: an empirical simulation in Italy. <i>Studies in Higher Education</i> , 2014, 39, 1270-1289  Relatives in the same university faculty: nepotism or merit?. <i>Scientometrics</i> , 2014, 101, 737-749  Comparison of the effect of mean-based method and z-score for field normalization of citations at the level of Web of Science subject categories. <i>Scientometrics</i> , 2014, 101, 1679-1693  On the meaningful and non-meaningful use of reference sets in bibliometrics. <i>Journal of Informetrics</i> , 2014, 8, 273-275  Sub-field normalization of the IEEE scientific journals based on their connection with Technical Societies. <i>Journal of Informetrics</i> , 2014, 8, 508-533  Evaluating the performance of electromagnetic fields (EMF) research work (20032013). <i>Scientometrics</i> , 2015, 105, 261-278  Is It a Home Run? Measuring Relative Citation Rates in Accounting Research. <i>SSRN Electronic Journal</i> , 2015. 73	A review of the literature on citation impact indicators. <i>Journal of Informetrics</i> , <b>2016</b> , 10, 365-391	3.1	476
72	The precision of the arithmetic mean, geometric mean and percentiles for citation data: An experimental simulation modelling approach. <i>Journal of Informetrics</i> , <b>2016</b> , 10, 110-123	3.1	39
71	Ranking authors using fractional counting of citations: An axiomatic approach. <i>Journal of Informetrics</i> , <b>2016</b> , 10, 183-199	3.1	26
70	How does prolific professors influence on the citation impact of their university departments?. <i>Scientometrics</i> , <b>2016</b> , 107, 941-961	3	6
69	An overview of global research effort in fisheries science. <i>ICES Journal of Marine Science</i> , <b>2016</b> , 73, 1004	I- <u>1.9</u> 11	29
68	Gender inequality and research performance: moving beyond individual-meritocratic explanations of academic advancement. <i>Studies in Higher Education</i> , <b>2016</b> , 41, 2044-2060	2.6	58
67	Three practical field normalised alternative indicator formulae for research evaluation. <i>Journal of Informetrics</i> , <b>2017</b> , 11, 128-151	3.1	54
66	The role of guarantor in scientific collaboration: The neighbourhood matters. <i>Journal of Informetrics</i> , <b>2017</b> , 11, 103-116	3.1	4

## (2019-2017)

65	Quantifying and suppressing ranking bias in a large citation network. <i>Journal of Informetrics</i> , <b>2017</b> , 11, 766-782	3.1	30
64	Author Impact Metrics in Communication Sciences and Disorder Research. <i>Journal of Speech, Language, and Hearing Research</i> , <b>2017</b> , 60, 2704-2724	2.8	8
63	How to standardize (if you must). Scientometrics, 2017, 113, 825-843	3	1
62	Document type assignment accuracy in the journal citation index data of Web of Science. <i>Scientometrics</i> , <b>2017</b> , 113, 219-236	3	17
61	Avoiding obscure topics and generalising findings produces higher impact research. <i>Scientometrics</i> , <b>2017</b> , 110, 307-320	3	8
60	Research evaluation of author citation-based performance through the relative author superiority index. <i>Transinformacao</i> , <b>2017</b> , 29, 191-201	1.5	3
59	Mapping international impact of Danish neuroscience from 2004 to 2015 using tailored scientometric methodology. <i>European Journal of Neuroscience</i> , <b>2018</b> , 47, 193-200	3.5	
58	Professionalization of bibliometric research assessment. Insights from the history of the Leiden Centre for Science and Technology Studies (CWTS). <i>Science and Public Policy</i> , <b>2018</b> , 45, 565-578	1.8	13
57	TSCBAS: A Novel Correlation Based Attribute Selection Method and Application on Telecommunications Churn Analysis. <b>2018</b> ,		О
56	Do females create higher impact research? Scopus citations and Mendeley readers for articles from five countries. <i>Journal of Informetrics</i> , <b>2018</b> , 12, 1031-1041	3.1	29
55	Bibliography. <b>2018</b> , 341-375		
54	Research trends and collaborations by applied science researchers in South African universities of technology: 20072017. <i>Journal of Academic Librarianship</i> , <b>2018</b> , 44, 468-476	1.5	2
53	Creativity in science and the link to cited references: Is the creative potential of papers reflected in their cited references?. <i>Journal of Informetrics</i> , <b>2018</b> , 12, 906-930	3.1	21
52	Author-weighted impact factor and reference return ratio: can we attain more equality among	2	1
	fields?. <i>Scientometrics</i> , <b>2018</b> , 116, 2097-2111	3	
51	Fields?. <i>Scientometrics</i> , <b>2018</b> , 116, 2097-2111  How well does I3 perform for impact measurement compared to other bibliometric indicators? The convergent validity of several (field-normalized) indicators. <i>Scientometrics</i> , <b>2019</b> , 119, 1187-1205	3	4
51 50	How well does I3 perform for impact measurement compared to other bibliometric indicators? The		1
	How well does I3 perform for impact measurement compared to other bibliometric indicators? The convergent validity of several (field-normalized) indicators. <i>Scientometrics</i> , <b>2019</b> , 119, 1187-1205  Performance Analysis Of Fuzzy Rough Set-Based And Correlation-Based Attribute Selection		

47	Comparison of two article-level, field-independent citation metrics: Field-Weighted Citation Impact (FWCI) and Relative Citation Ratio (RCR). <i>Journal of Informetrics</i> , <b>2019</b> , 13, 635-642	3.1	29
46	Public-private collaboration and scientific impact: An analysis based on Danish publication data for 1995 <b>2</b> 013. <i>Journal of Informetrics</i> , <b>2019</b> , 13, 593-604	3.1	5
45	Globalised vs averaged: Bias and ranking performance on the author level. <i>Journal of Informetrics</i> , <b>2019</b> , 13, 299-313	3.1	2
44	Scholarly impact assessment: a survey of citation weighting solutions. <i>Scientometrics</i> , <b>2019</b> , 118, 453-4	1783	21
43	Comparing the impact of subfields in scientific journals. <i>Scientometrics</i> , <b>2020</b> , 125, 625-639	3	1
42	How can citation impact in bibliometrics be normalized? A new approach combining citing-side normalization and citation percentiles. <i>Quantitative Science Studies</i> , <b>2020</b> , 1, 1553-1569	3.8	О
41	Rapid Generation of Challenging Simulation Scenarios for Autonomous Vehicles Based on Adversarial Test. <b>2020</b> ,		
40	Should citations be field-normalized in evaluative bibliometrics? An empirical analysis based on propensity score matching. <i>Journal of Informetrics</i> , <b>2020</b> , 14, 101098	3.1	3
39	Improving the reliability of short-term citation impact indicators by taking into account the correlation between short- and long-term citation impact. <i>Journal of Informetrics</i> , <b>2020</b> , 14, 101019	3.1	2
38	Mean values of skewed distributions in the bibliometric assessment of research units. <i>Scientometrics</i> , <b>2020</b> , 125, 925-935	3	3
37	Unbiased evaluation of ranking metrics reveals consistent performance in science and technology citation data. <i>Journal of Informetrics</i> , <b>2020</b> , 14, 101005	3.1	11
36	Predicting Hot Spot Residues at Protein-DNA Binding Interfaces Based on Sequence Information. <i>Interdisciplinary Sciences, Computational Life Sciences</i> , <b>2021</b> , 13, 1-11	3.5	3
35	The lack of meaningful boundary differences between journal impact factor quartiles undermines their independent use in research evaluation. <i>Scientometrics</i> , <b>2021</b> , 126, 1495-1525	3	2
34	Development of a Scale to Measure Intrapersonal Psychological Empowerment to Participate in Local Tourism Development: Applying the Sociopolitical Control Scale Construct to Tourism (SPCS-T). Sustainability, 2021, 13, 4057	3.6	1
33	Bibliometric indicators to evaluate scientific activity. <i>Radiologia</i> , <b>2021</b> , 63, 228-235	0.1	1
32	Bibliometric indicators to evaluate scientific activity. <i>Radiologia</i> , <b>2021</b> , 63, 228-235	0.6	1
31	New Indicators of the Technological Impact of Scientific Production. <i>Journal of Data and Information Science</i> , <b>2021</b> ,	1.2	2
30	The effect of interdisciplinary components' citation intensity on scientific impact. <i>Library Hi Tech</i> , <b>2021</b> , ahead-of-print,	1.5	O

#### (2021-2021)

29	Convergent validity of several indicators measuring disruptiveness with milestone assignments to physics papers by experts. <i>Journal of Informetrics</i> , <b>2021</b> , 15, 101159	3.1	3
28	Weighted citation based on ranking-related contribution: a new index for evaluating article impact. <i>Scientometrics</i> , <b>2021</b> , 126, 8653-8672	3	1
27	Field Normalization of Scientometric Indicators. Springer Handbooks, 2019, 281-300	1.3	13
26	The Substantive and Practical Significance of Citation Impact Differences Between Institutions: Guidelines for the Analysis of Percentiles Using Effect Sizes and Confidence Intervals. <b>2014</b> , 259-281		2
25	Peer Review and Bibliometric: Potentials and Problems. <b>2011</b> , 145-164		6
24	The implicit preference of bibliometrics for basic research. <i>Scientometrics</i> , <b>2020</b> , 124, 1411-1419	3	3
23	Analysis of bibliometric indicators to determine citation bias. <i>Palgrave Communications</i> , <b>2015</b> , 1,	5.3	3
22	Relative Citation Ratio (RCR): A new metric that uses citation rates to measure influence at the article level.		9
21	A reverse engineering approach to the suppression of citation biases reveals universal properties of citation distributions. <i>PLoS ONE</i> , <b>2012</b> , 7, e33833	3.7	62
20	Is It a Home Run? Measuring Relative Citation Rates in Accounting Research. <i>Accounting Horizons</i> , <b>2020</b> , 34, 67-91	1.8	5
19	Scholar Plot: Design and Evaluation of an Information Interface for Faculty Research Performance. <i>Frontiers in Research Metrics and Analytics</i> , <b>2019</b> , 4, 6	1.3	2
18	¿Tiene sentido limitar la coautor cientfica? No existe inflaci de autores en Ciencias Sociales y Educaci en Espa Revista Espanola De Documentacion Cientifica, <b>2018</b> , 41, 201	0.7	5
17	[Citation analysis of research articles from Norwegian health enterprises, 2005-2011]. <i>Tidsskrift for Den Norske Laegeforening</i> , <b>2014</b> , 134, 1466-70	3.5	1
16	A Study on Informetric Analysis for Measuring the Qualitative Research Performance. <i>Journal of the Korean Society for Information Management</i> , <b>2009</b> , 26, 377-394		1
15	Comparabilit[entre domaines scientifiques. Revue Economique, 2015, 66, 289	0.2	
14	An Index for SSRN Downloads. SSRN Electronic Journal,	1	1
13	Fuzzy Logic and Correlation-Based Hybrid Classification on Hepatitis Disease Data Set. <i>Lecture Notes on Data Engineering and Communications Technologies</i> , <b>2020</b> , 787-800	0.4	1
12	Squeeze excitation densely connected residual convolutional networks for specific emitter identification based on measured signals. <i>Measurement Science and Technology</i> , <b>2021</b> , 32, 025110	2	1

11	Scores of a specific field-normalized indicator calculated with different approaches of field-categorization: Are the scores different or similar?. <i>Journal of Informetrics</i> , <b>2022</b> , 16, 101241	3.1	О
10	Cascaded layer-coalescing convolution network for brain tumor segmentation. <i>Journal of Intelligent and Fuzzy Systems</i> , <b>2022</b> , 1-16	1.6	
9	Wavelet convolutional neural network for robust and fast temperature measurements in Brillouin optical time domain reflectometry <i>Optics Express</i> , <b>2022</b> , 30, 13942-13958	3.3	2
8	Comparative study of scaling parameters and research output of selected highly- and moderately-cited individual authors. <i>Journal of Computer Sciences Institute</i> , 23, 152-164		O
7	Relevance of document types in the scorestalculation of a specific field-normalized indicator: Are the scores strongly dependent on or nearly independent of the document type handling?. <i>Scientometrics</i> ,	3	
6	Thermal fluid fields reconstruction for nanofluids convection based on physics-informed deep learning. <b>2022</b> , 12,		O
5	Scientific Production in Portuguese Public Universities. <b>2022</b> , 47-58		О
4	Citation bias in measuring knowledge flow: Evidence from the web of science at the discipline level. <b>2022</b> , 16, 101338		1
