

# CITATION REPORT

List of articles citing

Computational model of airflow in upper 17 generations of human respiratory tract

DOI: 10.1016/j.jbiomech.2007.12.019

Journal of Biomechanics, 2008, 41, 2047-54.

**Source:** <https://exaly.com/paper-pdf/43209213/citation-report.pdf>

**Version:** 2024-04-20

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
