

The concepts and development of a participatory region

Climatic Change

90, 5-30

DOI: [10.1007/s10584-008-9453-6](https://doi.org/10.1007/s10584-008-9453-6)

Citation Report

#	ARTICLE	IF	CITATIONS
1	Regional impact assessment of flooding under future climate and socio-economic scenarios for East Anglia and North West England. <i>Climatic Change</i> , 2008, 90, 31-55.	1.7	45
2	The impact of future socio-economic and climate changes on agricultural land use and the wider environment in East Anglia and North West England using a metamodel system. <i>Climatic Change</i> , 2008, 90, 57-88.	1.7	26
3	Regional assessment of climate change impacts on coastal and fluvial ecosystems and the scope for adaptation. <i>Climatic Change</i> , 2008, 90, 141-167.	1.7	29
4	Development and application of participatory integrated assessment software to support local/regional impact and adaptation assessment. <i>Climatic Change</i> , 2008, 90, 1-4.	1.7	15
5	Impacts of socio-economic and climate change scenarios on wetlands: linking water resource and biodiversity meta-models. <i>Climatic Change</i> , 2008, 90, 113-139.	1.7	25
6	Preliminary evaluation of the benefits of a participatory regional integrated assessment software. <i>Climatic Change</i> , 2008, 90, 169-187.	1.7	10
7	An interactive multi-scale integrated assessment of future regional water availability for agricultural irrigation in East Anglia and North West England. <i>Climatic Change</i> , 2008, 90, 89-111.	1.7	34
8	An agent-based approach to model future residential pressure on a regional landscape. <i>Landscape Ecology</i> , 2009, 24, 1237-1254.	1.9	99
9	Strategic coastal flood-risk management in practice: Actors' perspectives on the integration of flood risk management in London and the Thames Estuary. <i>Ocean and Coastal Management</i> , 2009, 52, 636-645.	2.0	28
10	Future cereal production in China: The interaction of climate change, water availability and socio-economic scenarios. <i>Global Environmental Change</i> , 2009, 19, 34-44.	3.6	116
11	Land use and climate change in the UK. <i>Land Use Policy</i> , 2009, 26, S160-S169.	2.5	101
12	Participatory methods of integrated assessment—a review. <i>Wiley Interdisciplinary Reviews: Climate Change</i> , 2010, 1, 697-717.	3.6	95
13	Potential Impacts of Climate Change on Flood-Induced Travel Disruptions: A Case Study of Portland, Oregon, USA. <i>Annals of the American Association of Geographers</i> , 2010, 100, 938-952.	3.0	93
14	Future visioning of local climate change: A framework for community engagement and planning with scenarios and visualisation. <i>Futures</i> , 2011, 43, 400-412.	1.4	267
15	A review of the impact of climate change on future nitrate concentrations in groundwater of the UK. <i>Science of the Total Environment</i> , 2011, 409, 2859-2873.	3.9	130
16	Coastal flood protection: What perspective in a changing climate? The THESEUS approach. <i>Environmental Science and Policy</i> , 2011, 14, 845-863.	2.4	45
17	Chapter 6 The Impacts of Climate Change on the National Freight Sector. <i>Transport and Sustainability</i> , 2012, , 137-173.	0.2	2
18	Six Steps to a Quick Hazards Assessment at Village Level: A Participatory Assessment Approach Applied in Nawalparasi District, Nepal. <i>Risk, Hazards and Crisis in Public Policy</i> , 2012, 3, 1-19.	1.4	2
