Generating Natural Language specifications from UML

Citation Report

#	ARTICLE	IF	CITATIONS
1	A cognitive semantics for the association construct. Requirements Engineering, 2008, 13, 167-186.	2.1	3
2	Verbalising R2ML Rules into SBVR. , 2008, , .		1
3	A semiotic analysis of unified modeling language graphical notations. Requirements Engineering, 2009, 14, 15-26.	2.1	17
4	On the generation of requirements specifications from software engineering models: A systematic literature review. Information and Software Technology, 2009, 51, 1291-1307.	3.0	90
5	4.5.1 Requirements Analysis and Modeling Process (RAMP) for the Development of Complex Systems. Incose International Symposium, 2010, 20, 557-579.	0.2	3
6	From UML/OCL to SBVR specifications: A challenging transformation. Information Systems, 2010, 35, 417-440.	2.4	62
7	Survey on System Behavior Specification for Extending ProjectIT-RSL. , 2010, , .		0
8	Summarizing software concerns. , 2010, , .		7
9	Managing Consistency between Textual Requirements, Abstract Interactions and Essential Use Cases. , 2010, , .		16
11	Inferring specifications for resources from natural language API documentation. Automated Software Engineering, 2011, 18, 227-261.	2.2	17
12	Natural language generation from class diagrams. , 2011, , .		35
13	Generating Natural Language Texts from Business Process Models. Notes on Numerical Fluid Mechanics and Multidisciplinary Design, 2012, , 64-79.	0.2	33
14	Synchronizing domain models with natural language specifications. , 2012, , .		3
15	Using machine learning to enhance automated requirements model transformation. , 2012, , .		5
16	Detection of naming convention violations in process models for different languages. Decision Support Systems, 2013, 56, 310-325.	3.5	42
17	A complete set of guidelines for naming UML conceptual schema elements. Data and Knowledge Engineering, 2013, 88, 60-74.	2.1	5
18	Consistent stakeholder modifications of formal models via a natural language representation. , 2013, , .		0
19	Software Requirements Elicitation -- A Controlled Experiment to Measure the Impact of a Native Natural Language. , 2013, , .		2
