

CITATION REPORT

List of articles citing

Role of endogenous sleep-wake and analgesic systems in anesthesia

DOI: 10.1002/cne.21685

Journal of Comparative Neurology, 2008, 508, 648-62.

Source: <https://exaly.com/paper-pdf/43410790/citation-report.pdf>

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
192	Noradrenaline triggers muscle tone by amplifying glutamate-driven excitation of somatic motoneurons in anaesthetized rats. 2008 , 586, 5787-802		30
191	GABAergic afferents activate both GABAA and GABAB receptors in mouse substantia nigra dopaminergic neurons in vivo. <i>Journal of Neuroscience</i> , 2008 , 28, 10386-98	6.6	59
190	Cerebral activity during the anesthesia-like state induced by mesopontine microinjection of pentobarbital. <i>Journal of Neuroscience</i> , 2009 , 29, 7053-64	6.6	35
189	Modulation of alpha2-adrenoceptor functions by heterotrimeric Galphai protein isoforms. 2009 , 331, 35-44		19
188	A novel system allowing long-term simultaneous video-electroencephalography recording, drug infusion and blood sampling in rats. 2009 , 179, 184-90		10
187	The distribution of gamma-hydroxybutyrate-induced Fos expression in rat brain: comparison with baclofen. 2009 , 158, 441-55		51
186	The involvement of hypothalamic sleep pathways in general anesthesia: testing the hypothesis using the GABAA receptor beta3N265M knock-in mouse. <i>Journal of Neuroscience</i> , 2009 , 29, 2177-87	6.6	100
185	Consciousness recovery induced by intrathecal baclofen administration after subarachnoid hemorrhage -two case reports-. 2010 , 50, 386-90		8
184	Effect of ethanol on sleep-awake state in sleep-disturbed rats. 2010 , 33, 849-53		0
183	Breakdown of within- and between-network resting state functional magnetic resonance imaging connectivity during propofol-induced loss of consciousness. <i>Anesthesiology</i> , 2010 , 113, 1038-53	4.3	462
182	The effect of sevoflurane inhalation on gabaergic neurons activation: observation on the GAD67-GFP knock-in mouse. 2010 , 293, 2114-22		4
181	Effects of isoflurane anesthesia on post-anesthetic sleep-wake architectures in rats. 2010 , 14, 291-7		10
180	Clinical physiology and mechanism of dizocilpine (MK-801): electron transfer, radicals, redox metabolites and bioactivity. 2010 , 3, 13-22		50
179	Relevance of sleep neurobiology for cognitive neuroscience and anesthesiology. 1-23		2
178	Locus ceruleus and anterior cingulate cortex sustain wakefulness in a novel environment. <i>Journal of Neuroscience</i> , 2010 , 30, 14543-51	6.6	110
177	Cortical and subcortical connectivity changes during decreasing levels of consciousness in humans: a functional magnetic resonance imaging study using propofol. <i>Journal of Neuroscience</i> , 2010 , 30, 9095-102	6.6	166
176	Suppressing the Mind. 2010 ,		10

175	Nitrous oxide and xenon increase noradrenaline release in the cerebral cortex in vivo and in vitro. <i>Neuroscience Letters</i> , 2010 , 469, 199-203	3-3	11
174	GABAergic actions on cholinergic laterodorsal tegmental neurons: implications for control of behavioral state. 2010 , 171, 812-29		17
173	Electroencephalographic spectral and coherence analysis of ketamine in rats: correlation with behavioral effects and pharmacokinetics. 2011 , 63, 202-18		60
