Version: 2024-04-24

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
2352	Bibliography. 456-500		
2351	Analyzing visual world eye-tracking data using multilevel logistic regression. <i>Journal of Memory and Language</i> , 2008 , 59, 457-474	3.8	370
2350	Pragmatic expectations and linguistic evidence: Listeners anticipate but do not integrate common ground. 2008 , 109, 18-40		93
2349	Learn locally, act globally: learning language from variation set cues. 2008 , 109, 423-30		197
2348	Effects of visible vs concealed alphabet cues on speech intelligibility in dysarthria. 2009 , 16, 272-279		1
2347	Unforgettable ultimatums? Expectation violations promote enhanced social memory following economic bargaining. 2009 , 3, 36		31
2346	Brood pheromone suppresses physiology of extreme longevity in honeybees (<i>Apis mellifera</i>). 2009 , 212, 3795-801		68
2345	The prosodic marking of topical referents in the German Vorfeld by children and adults. 2009 , 26,		7
2344	On the Non-Unified Nature of Scalar Implicature: An Empirical Investigation. 2009 , 1, 211-248		25
2343	Brain regions underlying word finding difficulties in temporal lobe epilepsy. 2009 , 132, 2772-84		72
2342	Getting off the GoldVarb Standard: Introducing Rbrul for Mixed-Effects Variable Rule Analysis. 2009 , 3, 359-383		386
2341	Structural and semantic constraints on the resolution of pronouns and reflexives. 2009 , 112, 55-80		53
2340	Perspective-shifting with appositives and expressives. 2009 , 32, 523-552		80
2339	On the interpretation of the number attraction effect: Response time evidence. <i>Journal of Memory and Language</i> , 2009 , 60, 308	3.8	81
2338	On the role of entailment patterns and scalar implicatures in the processing of numerals. <i>Journal of Memory and Language</i> , 2009 , 61, 503-518	3.8	28
2337	Nonlocal effects of prosodic boundaries. 2009 , 37, 1014-25		4
2336	The design and analysis of small-scale syntactic judgment experiments. 2009 , 119, 425-444		56

2335	Interpreting null pronouns (pro) in isolated sentences. 2009 , 119, 989-1008		11
2334	Constituent order and semantic parallelism in online comprehension: eye-tracking evidence from German. 2009 , 62, 2338-71		24
2333	The influence of memory on perception: it's not what things look like, it's what you call them. 2009 , 35, 1557-62		58
2332	Phonological typicality does not influence fixation durations in normal reading. 2009 , 35, 806-14		16
2331	Head position and the mental representation of nominal compounds. 2009 , 4, 430-454		25
2330	Investigating the Consequences of Focus on the Production and Comprehension of Referring Expressions. 2010 , 2, 266-297		19
2329	Context-conditioned generalization in adaptation to distorted speech. 2010 , 36, 704-28		26
2328	Effects of plausibility on structural priming. 2010 , 36, 538-44		47
2327	Tracking the time course of orthographic information in spoken-word recognition. 2010 , 36, 1108-17		45
2326	Phonological universals constrain the processing of nonspeech stimuli. 2010 , 139, 418-35		41
2325	Seeing a singer helps comprehension of the song's lyrics. 2010 , 17, 323-8		12
2324	Morphemic ambiguity resolution in Chinese: activation of the subordinate meaning with a prior dominant-biased context. 2010 , 17, 875-81		16
2323	Learning melodies from non-adjacent tones. 2010 , 135, 182-90		19
2322	Similarity and familiarity: Second language sentence recognition in first- and second-language multi-talker babble. 2010 , 52, 943-953		45
2321	Syntactic alignment and shared word order in code-switched sentence production: Evidence from bilingual monologue and dialogue. <i>Journal of Memory and Language</i> , 2010 , 63, 210-231	3.8	107
2320	Listening to the sound of silence: disfluent silent pauses in speech have consequences for listeners. 2010 , 48, 3982-92		39
2319	Improving language without words: first evidence from aphasia. 2010 , 48, 3824-33		66
2318	Effects of Grammatical Class and Morphological Structure in Chinese: A Mixed Logit Model Study on Picture and Word Naming. 2010 , 6, 139-140		

2317	Response time distributional evidence for distinct varieties of number attraction. 2010 , 114, 447-54		57
2316	Does verb bias modulate syntactic priming?. 2010 , 114, 455-61		117
2315	"Some," and possibly all, scalar inferences are not delayed: Evidence for immediate pragmatic enrichment. 2010 , 116, 42-55		196
2314	Eye movements and processing difficulty in object relative clauses. 2010 , 116, 71-86		125
2313	Shifting senses in lexical semantic development. 2010 , 117, 17-37		21
2312	Redundancy and reduction: speakers manage syntactic information density. 2010 , 61, 23-62		418
2311	Spatial language, visual attention, and perceptual simulation. 2010 , 112, 202-13		33
2310	Word accents and morphology--ERPs of Swedish word processing. 2010 , 1330, 114-23		30
2309	Syntactic priming in comprehension: Parallelism effects with and without coordination. <i>Journal of Memory and Language</i> , 2010 , 62, 333-351	3.8	33
2308	Recognition memory reveals just how CONTRASTIVE contrastive accenting really is. <i>Journal of Memory and Language</i> , 2010 , 63, 367-386	3.8	88
2307	Lexical and phonological effects on syntactic processing: Evidence from syntactic priming. <i>Journal of Memory and Language</i> , 2010 , 63, 347-366	3.8	19
2306	Effects of event knowledge in processing verbal arguments. <i>Journal of Memory and Language</i> , 2010 , 63, 489-505	3.8	79
2305	Children's Production of Unfamiliar Word Sequences Is Predicted by Positional Variability and Latent Classes in a Large Sample of Child-Directed Speech. 2010 , 34, 465-88		44
2304	Gesturing saves cognitive resources when talking about nonpresent objects. 2010 , 34, 602-19		119
2303	Teaching Statistics: Announcing a new section of Model Assisted Statistics and Applications. 2010 , 5, 69-71		
2302	Perceptual compensation is correlated with individuals' "autistic" traits: implications for models of sound change. 2010 , 5, e11950		46
2301	Rethinking child difficulty: the effect of NP type on children's processing of relative clauses in Hebrew. 2010 , 37, 27-57		55
2300	Perceptual distinctness and long-distance laryngeal restrictions*. 2010 , 27, 435-480		31

2299	How do people construct logical form during language comprehension?. 2010 , 21, 1090-7	58
2298	Capturing correlational structure in Russian paradigms: A case study in logistic mixed-effects modeling. 2010 , 6,	12
2297	The role of contrastive intonation contours in the retrieval of contextual alternatives. 2010 , 25, 1024-1043	57
2296	Learn locally, think globally. Exemplar variability supports higher-order generalization and word learning. 2010 , 21, 1894-902	148
2295	Review of Baayen (2008): Analyzing linguistic data: a practical introduction to statistics using R.. 2010 , 17, 134-143	
2294	Is a FAN always FUN? Phonological and orthographic effects in bilingual visual word recognition. 2010 , 53, 383-403	14
2293	Making predictions from speech with repairs: Evidence from eye movements. 2010 , 25, 706-727	13
2292	Morphophonological and conceptual effects on Dutch subject-verb agreement. 2010 , 25, 728-748	13
2291	Processing psych verbs: Behavioural and MEG measures of two different types of semantic complexity. 2010 , 25, 777-807	36
2290	Processing coordination ambiguity. 2010 , 53, 494-509	6
2289	Factors affecting accuracy of past tense production in children with specific language impairment and their typically developing peers: the influence of verb transitivity, clause location, and sentence type. 2010 , 53, 993-1014	17
2288	Effect of subject types on the production of auxiliary is in young English-speaking children. 2010 , 53, 1720-41	5
2287	Identification of everyday objects on the basis of Gaborized outline versions. 2010 , 1, 121-42	23
2286	Predicting syntax: Processing dative constructions in American and Australian varieties of English. 2010 , 86, 168-213	146
2285	Acoustic correlates of information structure. 2010 , 25, 1044-1098	149
2284	Priming of Abstract Logical Representations in 4-Year-Olds. 2010 , 17, 26-50	54
2283	Verb production and word order in Russian agrammatic speakers. 2010 , 24, 28-55	31
2282	Case series investigations in cognitive neuropsychology. 2010 , 27, 477-94	66

2281	Children's (in)ability to recover from garden paths in a verb-final language: evidence for developing control in sentence processing. 2010 , 106, 41-61	92
2280	The Role of Phonology in Children's Acquisition of the Plural. 2011 , 18, 294-313	14
2279	Context Strengthens Initial Misinterpretations of Text. 2011 , 15, 136-166	46
2278	Chinese children's concept of word. 2011 , 3, 41-57	12
2277	The influence of sentential position on noun phrase structure priming. 2011 , 64, 2211-35	32
2276	Focusing on pronouns: Consequences of subjecthood, pronominalisation, and contrastive focus. 2011 , 26, 1625-1666	37
2275	Discourse marking and the subtle art of mind-reading: The case of Dutch eigenlijk. 2011 , 43, 3877-3892	13
2274	QUANTIFIERS UNDONE: REVERSING PREDICTABLE SPEECH ERRORS IN COMPREHENSION. 2011 , 87, 158-171	15
2273	Productivity is the Key: Morphophonology and the Riddle of Alternating Diphthongs in Spanish. 2011 , 87, 510-538	2
2272	Attentional inhibition in bilingual naming performance: evidence from delta-plot analyses. 2011 , 2, 184	19
2271	Sub- and supralexical information in early phases of lexical access. 2011 , 2, 282	11
2270	The shape of the vocabulary predicts the shape of the bias. 2011 , 2, 345	73
2269	On the Informativity of Different Measures of Linguistic Acceptability. 2011 , 87, 249-273	57
2268	Features of the selectivity for contrast polarity in contour integration revealed by a novel tilt illusion. 2011 , 40, 1357-75	10
2267	Global Englishes and the sociolinguistics of spelling. 2011 , 32, 46-73	38
2266	Allomorphic responses in Serbian pseudo-nouns as a result of analogical learning. 2011 , 58, 65-84	2
2265	Preschoolers joke with jokers, but correct foreigners. 2011 , 14, 848-58	31
2264	Phonological abstraction in processing lexical-tone variation: evidence from a learning paradigm. 2011 , 35, 184-97	28

2263	Impulse processing: a dynamical systems model of incremental eye movements in the visual world paradigm. 2011 , 35, 1009-51		20
2262	Reading compounds in neglect dyslexia: the headedness effect. 2011 , 49, 3116-20		16
2261	Conceptual influences on word order and voice in sentence production: Evidence from Japanese. <i>Journal of Memory and Language</i> , 2011 , 65, 318-330	3.8	62
2260	Scalar reference, contrast and discourse: Separating effects of linguistic discourse from availability of the referent. <i>Journal of Memory and Language</i> , 2011 , 65, 299-317	3.8	21
2259	Lexical and syntactic representations in closely related languages: Evidence from Cantonese-Mandarin bilinguals. <i>Journal of Memory and Language</i> , 2011 , 65, 431-445	3.8	124
2258	Grouping by Regularity and the perception of illumination. 2011 , 51, 1360-71		10
2257	Exploring the role of exposure frequency in recognizing pronunciation variants. 2011 , 39, 304-311		30
2256	On the timing of the final rise in Dutch falling-rising intonation contours. 2011 , 39, 225-236		22
2255	Anticipating explanations in relative clause processing. 2011 , 118, 339-58		80
2254	Are children with Specific Language Impairment competent with the pragmatics and logic of quantification?. 2011 , 119, 43-57		63
2253	Investigating joint attention mechanisms through spoken human-robot interaction. 2011 , 120, 268-91		110
2252	Interaction and representational integration: evidence from speech errors. 2011 , 121, 58-72		58
2251	Evidence for (shared) abstract structure underlying children's short and full passives. 2011 , 121, 268-74		88
2250	Co-activation of syntax in bilingual language production. 2011 , 62, 123-50		59
2249	How vision is shaped by language comprehension--top-down feedback based on low-spatial frequencies. 2011 , 1377, 78-83		10
2248	Between- and within-language priming is the same: evidence for shared bilingual syntactic representations. 2011 , 39, 276-90		102
2247	Long-term cumulative structural priming persists for (at least) one week. 2011 , 39, 381-8		93
2246	Semantic context effects in the comprehension of reduced pronunciation variants. 2011 , 39, 1301-16		21

2245	The effect of lexical predictability on distributions of eye fixation durations. 2011 , 18, 371-6		50
2244	Why are names of people associated with so many phonological retrieval failures?. 2011 , 18, 612-7		13
2243	Transliteration and transcription effects in biscriptal readers: the case of Greeklish. 2011 , 18, 729-35		10
2242	Effect of syllabic neighbourhood as a function of syllabic neighbour length. 2011 , 18, 951-7		6
2241	Effects of concurrent arithmetical and syntactic complexity on self-paced reaction times and eye fixations. 2011 , 18, 1203-11		3
2240	Aspects of Japanese loanword devoicing. 2011 , 20, 169-194		26
2239	A Joint Modeling Approach for Reaction Time and Accuracy in Psycholinguistic Experiments. 2011 , 76, 487-503		25
2238	Analysis of self-regulated learning processing using statistical models for count data. 2011 , 6, 275-301		21
2237	The Box-Cox power transformation on nursing sensitive indicators: does it matter if structural effects are omitted during the estimation of the transformation parameter?. 2011 , 11, 118		5
2236	Stress Matters: Effects of Anticipated Lexical Stress on Silent Reading. <i>Journal of Memory and Language</i> , 2011 , 64, 153-170	3.8	71
2235	Semantic interference in immediate and delayed naming and reading: Attention and task decisions. <i>Journal of Memory and Language</i> , 2011 , 64, 404-423	3.8	52
2234	Deciding where to stop speaking. <i>Journal of Memory and Language</i> , 2011 , 64, 359-380	3.8	18
2233	Effects of individual differences in verbal skills on eye-movement patterns during sentence reading. <i>Journal of Memory and Language</i> , 2011 , 65, 42-73	3.8	122
2232	Inferential processing and meta-knowledge as the bases for property inclusion in combined concepts. <i>Journal of Memory and Language</i> , 2011 , 65, 176-192	3.8	16
2231	Learning What NOT to Say: The Role of Statistical Preemption and Categorization in A-Adjective Production. 2011 , 87, 55-83		89
2230	Single-trial regression elucidates the role of prefrontal theta oscillations in response conflict. 2011 , 2, 30		192
2229	Rethinking the acquisition of relative clauses in Italian: towards a grammatically based account. 2011 , 38, 141-65		59
2228	Cross-linguistic activation in bilingual sentence processing: The role of word class meaning*. 2011 , 14, 351-359		17

2227	Cross-linguistic variation and the acquisition of pronominal reference in L2 Spanish. 2011 , 27, 481-507	30
2226	Mixed effect models for genetic and areal dependencies in linguistic typology. 2011 , 15,	38
2225	Gradient syllable weight and weight universals in quantitative metrics*. 2011 , 28, 413-454	18
2224	Grammar without speech production: The case of Labrador Inuttitut heritage receptive bilinguals*. 2011 , 14, 301-317	25
2223	Structural priming across cognitive domains: from simple arithmetic to relative-clause attachment. 2011 , 22, 1319-26	68
2222	Spelling of Deaf Children Who Use Cochlear Implants. 2011 , 15, 522-540	22
2221	The acquisition of morphological knowledge investigated through artificial language learning. 2011 , 64, 1200-20	35
2220	Effects of pitch accents in attachment ambiguity resolution. 2011 , 26, 262-297	19
2219	Tracking sentence planning and production. 2011 , 66, 160-8	2
2218	Effects of cross-language voice training on speech perception: whose familiar voices are more intelligible?. 2011 , 130, 4053-62	27
2217	Production of contrast between sibilant fricatives by children with cochlear implants. 2011 , 130, 3969-79	22
2216	Event-based plausibility immediately influences on-line language comprehension. 2011 , 37, 913-34	75
2215	Long-term repetition priming in spoken and written word production: evidence for a contribution of phonology to handwriting. 2011 , 37, 813-26	21
2214	Intonational phrasing is constrained by meaning, not balance. 2011 , 26, 1532-1562	16
2213	The effects of age on the strategic use of pitch accents in memory for discourse: a processing-resource account. 2012 , 27, 88-98	16
2212	Implicit training of nonnative speech stimuli. 2012 , 141, 363-81	39
2211	The effects of print exposure on sentence processing and memory in older adults: Evidence for efficiency and reserve. 2012 , 19, 122-49	54
2210	Moderators of the feature-positive effect in abstract hypothesis-evaluation tasks. 2012 , 66, 181-92	3

2209	Rational phonological lengthening in spoken Dutch. 2012 , 132, 3935-40	18
2208	Linguistically guided anticipatory eye movements in scene viewing. 2012 , 20, 922-946	16
2207	Aging, parafoveal preview, and semantic integration in sentence processing: testing the cognitive workload of wrap-up. 2012 , 27, 638-49	36
2206	Evidence for language transfer leading to a perceptual advantage for non-native listeners. 2012 , 132, 2700-10	22
2205	Phonological overlap affects lexical selection during sentence production. 2012 , 38, 1439-49	16
2204	Young children fail to fully generalize a novel argument structure construction when exposed to the same input as older learners. 2012 , 39, 457-81	24

- 73 Effects of markedness in gender processing in Italian as a heritage language: A speed accuracy tradeoff. 13, ○
- 72 Men use more complex language than women, but the difference has decreased over time: a study on 120 years of written Dutch. **2022**, ○
- 71 Second Language Learning via Syntactic Priming: Investigating the Role of Modality, Attention, and Motivation. ○
- 70 Unstressed versus stressed German additive auch 'what determines a speaker's choice?'. **2022**, ○
- 69 Psychopathic personality traits are linked to reduced false memories for negative events. ○
- 68 Working memory modulates the effect of music on word learning. 1-17 ○

- 67 Moving visual world experiments online? A web-based replication of Dijkgraaf, Hartsuiker, and Duyck (2017) using PCIbex and WebGazer.js.
- 66 Some neighbors are more interfering: Asymmetric priming by stroke neighbors in Chinese character recognition.
- 65 Even Simultaneous Bilinguals Do Not Reach Monolingual Levels of Proficiency in Syntax. **2022**, 7, 293
- 64 Effects of consonant-vowel status on transposed-phoneme priming.
- 63 Testing the impact of overt and covert ordering interventions on sustainable consumption choices: A randomised controlled trial. **2022**, 106368
- 62 Learning to introduce referents in narration is resilient to the effects of late sign language exposure.
- 61 Predicting speech-in-speech recognition: Short-term audibility, talker sex, and listener factors. **2022**, 152, 3010-3024
- 60 How Do Looming and Receding Emotional Faces Modulate Duration Perception?. 003151252211383
- 59 Analysing data from the psycholinguistic visual-world paradigm: Comparison of different analysis methods.
- 58 Chapter 12. Reading. **2022**, 281-304
- 57 The role of conscious perception in semantic processing: Testing the action trigger hypothesis. **2023**, 107, 103438
- 56 Multi-LEX: A database of multi-word frequencies for French and English.
- 55 How children tell a (prosocial) lie from an (ironic) joke: The role of shared knowledge.
- 54 Luminance effects on pupil dilation in speech-in-noise recognition. **2022**, 17, e0278506
- 53 Reproducibility in Small- N Treatment Research: A Tutorial Using Examples From Aphasiology. 1-20
- 52 Rhythmic modulation of visual discrimination is linked to individuals' spontaneous motor tempo.
- 51 Individual differences modulate sensitivity to implicit causality bias in both native and nonnative processing. 1-29
- 50 Age Differences in Gaze Following: Older Adults Follow Gaze More than Younger Adults When free-viewing Scenes. 1-18

- 49 An event-related potential study of cross-modal translation recognition in Chinese-English bilinguals: the role of cross-linguistic orthography and phonology. 1-22 ○
- 48 Linguistic factors modulating gender assignment in Spanish-English bilingual speech. 1-12 ○
- 47 Native and non-native language contexts differently modulate mood-driven electrodermal activity. **2022**, 12, ○
- 46 Transposed-word effects in speeded grammatical decisions to sequences of spoken words. **2022**, 12, ○
- 45 Anticipatory Processing in a Verb-Initial Mayan Language: Eye-Tracking Evidence During Sentence Comprehension in Tzeltal. **2023**, 47, ○
- 44 Neural correlates of retrieval practice on the learning and memory retention of L3 French vocabulary. 1-17 ○
- 43 Sustainable energy transition and circular economy: The heterogeneity of potential investors in rural community renewable energy projects. 1
- 42 Anisotropic distortion in the perceived direction of motion on the arm. **2023**, 13, ○
- 41 Association between Circadian Dissonance and MAFLD in employed adults: a longitudinal study in Southwestern China. ○
- 40 The day after the disaster: Risk-taking following large- and small-scale disasters in a microworld. **2022**, 17, 513-546 ○
- 39 A Stacked Generalization Ensemble Model for Help Desk Ticket Assignment. **2022**, ○
- 38 Locality Bias Effect and Interpretation of Thai Reflexive Anaphors. **2022**, 25, 1-23 ○
- 37 Features matter: the role of number and gender features during the online processing of subject- and object- relative clauses in Italian. 1-19 ○
- 36 Best-Worst Scaling Survey of Inpatients' Preferences in Medical Decision-Making Participation in China. **2023**, 11, 323 ○
- 35 EXPRESS: Mental representation of equivalence and order. 174702182311539 ○
- 34 Why do young readers vary in reading fluency? The impact of word length and frequency in French 6th graders. ○
- 33 Inhibitory control of the dominant language: Reversed language dominance is the tip of the iceberg. **2023**, 130, 104410 ○
- 32 Speaking in the presence of noise: Consistency of acoustic properties in clear-Lombard speech over time. **2023**, 153, 2165-2177 ○

- 31 The effects of input mode in learning declarative and nondeclarative knowledge of L2 collocations. **2023**, 113, 103006 ○
- 30 Multicompartmental monitoring of legacy and currently used pesticides in a subtropical lake used as a drinking water source (Laguna del Cisne, Uruguay). **2023**, 874, 162310 ○
- 29 Evidence for top-down suppression of negative features in the target feature dimension. **2023**, 235, 105415 ○
- 28 Priming creativity: On how a divergent thinking task modulates lexico-semantic processing. **2023**, 67, 101135 ○
- 27 Odor identification errors reveal cognitive aspects of age-associated smell loss. **2023**, 236, 105445 ○
- 26 Semantic Adaptation to the Interpretation of Gradable Adjectives via Active Linguistic Interaction. **2023**, 47, ○
- 25 The production of referring expressions is influenced by the likelihood of next mention. 174702182311572 ○
- 24 Food word processing in Chinese reading: A study of restrained eaters. **2023**, 114, 476-494 ○
- 23 Predictability and decomposability separately contribute to compositional processing of idiomatic language. ○
- 22 When and where did it happen? Systematic differences in recall of core and optional sentence information. 174702182311591 ○
- 21 Contributions of processes using semantic information and character-to-sound correspondences to kanji word-reading performance in Japanese primary school children. **2023**, 46, 163-186 ○
- 20 Effectiveness of invention tasks and explicit instruction in preparing intellectually gifted adolescents for learning. ○
- 19 Good Scientific Practice and Ethics in Sports and Exercise Science: A Brief and Comprehensive Hands-on Appraisal for Sports Research. **2023**, 11, 47 ○
- 18 Shared vs separate structural representations: Evidence from cumulative cross-language structural priming. 174702182311609 ○
- 17 Elucidating medial temporal and frontal lobe contributions to approach-avoidance conflict decision-making using functional MRI and the hierarchical drift diffusion model. ○
- 16 Lexico-Semantic Influence on Syntactic Processing: An Eye-Tracking Study with Spanish Relative Clauses. **2023**, 13, 409 ○
- 15 Priming Center-Embedded Object and Extraposed Subject Relative Clauses in Persian Language Production: Searching for Persistence of Hierarchical Configuration. ○
- 14 Mental Rotation in Sports. **2022**, 29, 141-153 ○

- 13 High-definition transcranial direct current stimulation over right dorsolateral prefrontal cortex differentially modulates inhibitory mechanisms for speech vs. limb movement. ○
- 12 Does accentual variation in the pronunciation of French words influence their recognition? It depends on the ear of presentation. **2023**, 3, 035204 ○
- 11 Noise in the brain: Transcranial random noise stimulation and perceptual noise act on a stochastic resonance-like mechanism. ○
- 10 Individual differences moderate effects in an Unusual Disease paradigm: A psychophysical data collection lab approach and an online experiment. 14, ○
- 9 Incorporating Functional Response Time Effects into a Signal Detection Theory Model. ○
- 8 Asymmetrical effects of cross-linguistic structural priming on cross-linguistic influence in L2 learners. **2023**, 44, 205-236 ○
- 7 Retrieval practice is costly and is beneficial only when working memory capacity is abundant. **2023**, 8, ○
- 6 Working memory load affects intelligence test performance by reducing the strength of relational item bindings and impairing the filtering of irrelevant information. **2023**, 236, 105438 ○
- 5 Inhibitory mechanisms are affected by stimulus-response congruency. **2023**, 100108 ○
- 4 Sentence superiority in the reading brain. ○
- 3 The Relationship Between Personality Traits and the Processing of Emotion Words: Evidence from Eye-Movements in Sentence Reading. ○
- 2 Visual perception of travel distance for self-motion through crowds. **2023**, 23, 7 ○
- 1 Quality of service and digital engagement on Facebook pages. 8-15 ○
