

CITATION REPORT

List of articles citing

Theory and experimental investigation of a weir-type inclined solar still

DOI: 10.1016/j.energy.2007.08.003
Energy, 2008, 33, 71-80.

Source: <https://exaly.com/paper-pdf/43499998/citation-report.pdf>

Version: 2024-04-20

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
107	Active single basin solar still with a sensible storage medium. 2009 , 249, 699-706		80
106	Thermal performance of a single basin solar still with PCM as a storage medium. 2009 , 86, 1187-1195		254
105	Review of study on solid particle solar receivers. 2010 , 14, 265-276		92
104	Effect of water flow rate on internal heat and mass transfer and daily productivity of a weir-type cascade solar still. 2010 , 260, 239-247		88
103	Cost analysis of different solar still configurations. <i>Energy</i> , 2010 , 35, 2901-2908	7.9	180
102	A mathematical model of single basin solar still with an external reflector. 2011 , 26, 250-259		11
101	Drinking Water Treatment. 2011 ,		9
100	Enhancement of solar still performance using a reciprocating spray feeding system—An experimental approach. 2011 , 267, 209-216		24
99	Utilization of thermoelectric cooling in a portable active solar still —An experimental study on winter days. 2011 , 269, 198-205		183
98	Review of researches and developments on solar stills. 2011 , 276, 1-12		240
97	Effects of the simple/double glass cover use and the orientation of a simple solar still on operating parameters. 2011 , 36, 383-391		2
96	Developments in Solar Still Desalination Systems: A Critical Review. 2012 , 42, 2078-2112		57
95	Utilization of solar water heater in a single basin solar still—An experimental study. 2012 , 297, 8-19		86
94	Experimental study of a novel portable solar still by utilizing the heatpipe and thermoelectric module. 2012 , 284, 55-61		167
93	Exergy and economic analysis of a pyramid-shaped solar water purification system: Active and passive cases. <i>Energy</i> , 2012 , 38, 31-36	7.9	132
92	An investigation of some of the parameters involved in inclined solar distillation systems. 2013 , 32, 350-354		21
91	Carbon credit earned by some designs of solar stills. 2013 , 51, 4699-4708		3

90	Energy, exergy and thermo-economic analysis of solar distillation systems: A review. 2013 , 27, 709-723	89
89	Performance of an inclined solar still with rectangular grooves and ridges. 2013 , 49, 22-26	23
88	Comparison between energy and exergy efficiencies in a weir type cascade solar still. 2013 , 325, 113-121	76
87	Progresses in inclined type solar stills. 2013 , 20, 364-377	55
86	Productivity estimation of a single-slope solar still: Theoretical and numerical analysis. <i>Energy</i> , 2013 , 49, 289-297	7.9 79
85	A review on solar stills for brine desalination. 2013 , 103, 642-652	175
84	The Performance of Trapezoidal Glass Cover Solar still during Monsoon Period of Tropical Environment. 2014 , 567, 161-166	2
83	Economic feasibility of a solar still desalination system with enhanced productivity. 2014 , 335, 27-32	49
82	Validation of experimental simple solar still mass flow rate using a Lewis number correlation. 2015 ,	
81	A solar desalination system: Exergetic performance assessment. 2015 , 101, 379-392	31
80	Solar stills system design: A review. 2015 , 51, 153-181	111
79	Parameters influencing the productivity of solar stills [A review. 2015 , 49, 585-609	95
78	Different domestic designs of solar stills: A review. 2015 , 47, 718-731	69
77	Thermal models of solar stills a comprehensive review. 2015 , 47, 856-911	74
76	A modified basin type solar still: Experimental performance and economic study. <i>Energy</i> , 2015 , 93, 335-342	30
75	Experimental Analysis of a Solar still with Reflectors and Sensible Heat Storage Mediums. 2015 , 787, 107-111	1
74	Performance analysis on inclined solar still with different new wick materials and wire mesh. 2015 , 358, 1-8	119
73	Comparison of ANN, MVR, and SWR models for computing thermal efficiency of a solar still. 2016 , 13, 1016-1025	13

72	Solar stills: A comprehensive review of designs, performance and material advances. 2016 , 63, 464-496	125
71	Neural network approach for predicting solar still production using agricultural drainage as a feedwater source. 2016 , 57, 28646-28660	15
70	Experimental study of a cascade solar still coupled with a humidification-dehumidification system. 2016 , 115, 80-88	48
69	Inclined solar still designs: A review. 2016 , 54, 429-451	76
68	Humidification-dehumidification desalination process driven by photovoltaic thermal energy recovery (PV-HDH) for small-scale sustainable water and power production. 2016 , 377, 163-171	68
67	Correlation for Lewis number for evaluation of mass flow rate for simple/hybrid solar still. 2016 , 57, 6209-6216	16
66	Solar still with latent heat energy storage: A review. 2017 , 41, 34-46	54
65	Experimental performance investigation of tilted solar still with basin and wick for distillate quality and enviro-economic aspects. 2017 , 410, 30-54	70
64	Experimental study of the distillation process in a tilted cavity. 2017 , 64, 012091	
63	Heat transfer coefficients and yield analysis of a double-slope solar still hybrid with rubber scrapers: An experimental and theoretical study. 2017 , 407, 61-74	22
62	Comparative study of two weir type cascade solar stills with and without PCM storage using energy and exergy analysis. 2017 , 133, 97-109	107
61	Enhancement of integrated solar still using different new absorber configurations: An experimental approach. 2017 , 422, 59-67	57
60	Design and development of solar desalination plant. 2017 , 131, 02004	2
59	Experimental analysis of a multi-sponge liner basins techniques of solar distillation. 2017 ,	
58	Experimental performance assessment of a photovoltaic/thermal stepped solar still. 2018 , 29, 392-409	5
57	Experimental study on productivity enhancement of an improvised inclined solar still. 2018 , 39, 165-175	4
56	Pyramid solar still: A comprehensive review. 2018 , 81, 136-148	109
55	Techno-economic analysis of solar stills using integrated fuzzy analytical hierarchy process and data envelopment analysis. 2018 , 159, 820-833	32

54	Passive solar still: recent advancements in design and related performance. 2018 , 7, 235-261	26
53	Efficiency of a photovoltaic thermal stepped solar still: Experimental and numerical analysis. 2018 , 441, 87-95	42
52	Performance, water quality and enviro-economic investigations on solar distillation treatment of reverse osmosis reject and sewage water. 2018 , 173, 160-172	28
51	Exergy analysis of a weir-type cascade solar still connected to PV/T collectors. 2018 , 12, 1336-1344	10
50	Experimental investigation on Peltier based hybrid PV/T active solar still for enhancing the overall performance. 2018 , 168, 371-381	95
49	Performance study on a photovoltaic thermal (PV/T) stepped solar still with a bottom channel. 2019 , 471, 114129	25
48	Thermo-economic assessment of a novel design of a solar distillation-cum-drying unit. 2019 , 30, 1456-1476	10
47	Investigating the effect of pumice stones sensible heat storage on the performance of a solar still. 2019 , 9, 100228	35
46	Performance analysis of specially designed single basin passive solar distillers incorporated with novel solar desalting stills: A review. 2019 , 185, 146-164	37
45	An Experimental and Statistical Analysis of Double Slope Single Basin Solar Still in Active and Passive Mode with Different Water Depth.. 2019 , 691, 012090	2
44	Parameters Affecting the Performance of Single Basin Solar Distillation with Parabolic Reflector: A Detailed Review. 2019 , 691, 012086	
43	A review of efficient high productivity solar stills. 2019 , 101, 197-220	74
42	Performance improvement of a single slope solar still by employing thermoelectric cooling channel and copper oxide nanofluid: An experimental study. 2019 , 208, 1041-1052	108
41	A Review on Different Design Modifications Employed in Inclined Solar Still for Enhancing the Productivity. 2019 , 141,	46
40	Performance investigation of a solar water distiller integrated with a parabolic collector using fuzzy technique. 2020 , 49, 120-134	1
39	Phase change materials (PCMs) for improving solar still productivity: a review. 2020 , 139, 1585-1617	38
38	A comprehensive review of tubular solar still designs, performance, and economic analysis. 2020 , 246, 119030	43
37	Influence of water mass on the performance of spherical basin solar still integrated with parabolic reflector. 2020 , 10, 100299	39

36	Evaluation of transparent acrylic stepped solar still equipped with internal and external reflectors and copper fins. 2020 , 18, 100518	15
35	Efficacy of forced condensation and forced evaporation with thermal energy storage material on square pyramid solar still. 2020 , 153, 1307-1319	34
34	Use of solar photovoltaic with active solar still to improve distillate output: A review. 2020 , 10, 100341	31
33	Effect of cost-free energy storage material and saline water depth on the performance of square pyramid solar still: a mathematical and experimental study. 2021 , 144, 1351-1368	11
32	Simulation and experimental study of novel cascade solar still. 2021 , 297, 01002	
31	An inclusive study on new conceptual designs of passive solar desalting systems. 2021 , 7, e05793	13
30	Recent advancements, technologies, and developments in inclined solar still-a comprehensive review. 2021 , 28, 35346-35375	11
29	Progress on suspended nanostructured engineering materials powered solar distillation- a review. 2021 , 143, 110848	18
28	Influence of Various Basin Types on Performance of Passive Solar Still: A Review. 2021 , 10, 789-802	6
27	Enhancement of Solar Water Desalination Using Copper and Aluminum Oxide Nanoparticles. 2021 , 13, 1914	1
26	The energy efficiency of interfacial solar desalination. 2021 , 302, 117581	9
25	Experimental and theoretical optimization of an inclined type solar still using PV sustainable recirculation technique. 2021 , 45, 7063-7071	5
24	Effect of Shape of the Absorber Surface on the Performance of Stepped Type Solar Still. 2013 , 05, 489-497	14
23	A Review Study on Solar Still: A Novel Approach of Solar Distillation. 2021 , 531-537	0
22	Historic review and recent progress in internal design modification in solar stills.. 2022 ,	1
21	Thermal performance analysis of a solar still with different absorber plates and external copper condenser. 2022 , 100763	1
20	Improved air gap distillation desalination through induced film condensation. 2022 , 258, 115545	0
19	Performance improvement of tubular solar still using nano-coated hanging wick thin film, ultrasonic atomizers, and cover cooling. 2022 , 52, 102127	0

18	Performance analysis of solar energy based passive water purification system. 2021,	
17	Utilization of PCM in inclined and single basin solar stills to improve the daily productivity. 2022,	1
16	Combination of a v-grooved solar collector with a single slope solar still: Performance evaluation, mathematical modeling, and economic analysis. 095440622210812	
15	Phase change materials integrated solar desalination system: An innovative approach for sustainable and clean water production and storage. 2022, 165, 112611	3
14	An experimental evaluation of desalination unit with thermal energy storage basin bed using thermal insulation condition and without thermal insulation condition and analyzing the optimization of thermal parameters. 2022,	
13	Experimental Investigation on the Effectiveness of Solar Still and Its Effect on Adsorption with Various Dyes. 2022, 2022, 1-10	0
12	Mathematical modeling and analysis of thermodynamic performance parameters of tubular solar still. 2022, 44, 6129-6152	
11	Experimental investigation of a stepped solar still employing a phase change material, a conical tank, and a solar dish.	0
10	Comprehensive Review on Solar Stills Latest Developments and Overview. 2022, 14, 10136	1
9	Performance Prediction of solar still using Artificial neural network. 2022,	1
8	Study of Evaporative Heat and Mass Transfer in Solar Distillation. 2022, 2307, 012007	0
7	A mini review on recent advancements in inclined solar still. 2022, 8, 641-645	0
6	Energy efficient tubular solar still for augmented yield using electrical heater. 2022, 8, 959-964	0
5	Performance Evaluation of a Photovoltaic-Thermal Collector Coupled Stepped Solar Still for Indian Climatic Conditions. 2022, 2022, 1-16	0
4	Productivity augmentation of a solar distiller utilizing a wire mesh absorber with a pulsed flow regime. 2023, 548, 116276	0
3	Energy, exergy and cost analysis of different hemispherical solar distillers: A comparative study. 2023, 252, 112187	0
2	Nano materials employed in solar distillation device: A mini review. 2023,	0
1	Productivity, thermal, and exergy efficiency analyses of tubular solar still integrated with solar water heater. 2023, 45, 3584-3601	0
