Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
217	Water and energy exchange in East Siberian forest: A synthesis. 2008 , 148, 2013-2018		17
216	Estimation of permafrost thawing rates in a sub-arctic catchment using recession flow analysis. 2009 , 13, 595-604		88
215	The influence of regional surface soil moisture anomalies on forest fires in Siberia observed from satellites. 2009 , 4, 045021		52
214	Variation of hydrological regime with permafrost coverage over Lena Basin in Siberia. 2009 , 114,		97
213	Hydrological Aspects in a Siberian Larch Forest. 2010 , 245-269		7
212	Climate driven release of carbon and mercury from permafrost mires increases mercury loading to sub-arctic lakes. 2010 , 408, 4778-83		92
211	Ecohydrology and Climate Change in the Mountains of the Western USA [A Review of Research and Opportunities. 2010 , 4, 1648-1663		21
210	Controls on snowmelt water mean transit times in northern boreal catchments. 2010 , 24, 1672-1684		52
209	Changes in Catchment-Scale Recession Flow Properties in Response to Permafrost Thawing in the Yukon River Basin. 2010 , 30, 2138-2145		80
208	The relationship between subsurface hydrology and dissolved carbon fluxes for a sub-arctic catchment. 2010 , 14, 941-950		49
207	Transient Modeling of Permafrost Dynamics in Changing Climate Scenarios. 2011 ,		
206	Snow Cover and Spring Flood Flow in the Northern Part of Western Siberia (the Poluy, Nadym, Pur, and Taz Rivers). 2011 , 12, 1498-1511		17
205	Hydrological modelling in a changing world. 2011 , 35, 249-261		135
204	Nonlinear controls on evapotranspiration in arctic coastal wetlands. 2011 , 8, 3375-3389		77
203	Non-isothermal, three-phase simulations of near-surface flows in a model permafrost system under seasonal variability and climate change. 2011 , 403, 352-359		70
202	The concept of cryo-conditioning in landscape evolution. 2011 , 75, 378-384		40
201	Effect of permafrost degradation on hydrological processes in typical basins with various permafrost coverage in Western China. 2011 , 54, 615-624		46

200	Relationships between Arctic shrub dynamics and topographically derived hydrologic characteristics. 2011 , 6, 045506	60
199	Environmental heterogeneity and community structure of the Kobuk River, Alaska, in response to climate change. 2011 , 2, art44	5
198	Derivation and analysis of a high-resolution estimate of global permafrost zonation. 2012 , 6, 221-233	312
197	Degradation of permafrost beneath a road embankment enhanced by heat advected in groundwater1 This article is one of a series of papers published in this CJES Special Issue on the theme of Fundamental and applied research on permafrost in Canada.. 2012 , 49, 953-962	58
196	Hydrogeochemical characteristics at Cape Lamb, Vega Island, Antarctic Peninsula. 2012 , 24, 591-607	18
195	Subpermafrost groundwater systems: Dealing with virtual reality while having virtually no data. 2012 , 475, 42-52	9
194	Models of ice-sheet hydrogeologic interactions: a review. 2012 , 12, 58-78	35
193	Drainage Network Structure and Hydrologic Behavior of Three Lake-Rich Watersheds on the Arctic Coastal Plain, Alaska. 2012 , 44, 385-398	31
192	Permafrost degradation as a control on hydrogeological regime shifts in a warming climate. 2012 , 117, n/a-n/a	92
191	Differences in karst processes between northern and southern China. 2012 , 27, 331-342	8
190	Tracing groundwater discharge in a High Arctic lake using radon-222. 2012 , 66, 1385-1392	11
189	Review: Groundwater in Alaska (USA). 2013 , 21, 25-39	14
188	Potential controls on cold-season river flow behavior in subarctic river basins of Siberia. 2013 , 489, 214-226	14
187	8.21 Thermokarst Lakes, Drainage, and Drained Basins. 2013 , 325-353	142
186	Recent Progress (2007-2012) in Permafrost Isotope Geochemistry. <i>Permafrost and Periglacial Processes</i> , 2013 , 24, 138-145	4.2 14
185	Spatial and seasonal variability of polygonal tundra water balance: Lena River Delta, northern Siberia (Russia). 2013 , 21, 133-147	53
184	Simulation of subsurface heat and water dynamics, and runoff generation in mountainous permafrost conditions, in the Upper Kolyma River basin, Russia. 2013 , 21, 107-119	31
183	Permafrost degradation and subsurface-flow changes caused by surface warming trends. 2013 , 21, 271-280	59

182	Permafrost and groundwater on the Qinghai-Tibet Plateau and in northeast China. 2013 , 21, 5-23		197
181	Coupling of a simultaneous heat and water model with a distributed hydrological model and evaluation of the combined model in a cold region watershed. 2013 , 27, 3762-3776		48
180	Edaphic and microclimatic controls over permafrost response to fire in interior Alaska. 2013 , 8, 035013		57
179	The active layer: A conceptual review of monitoring, modelling techniques and changes in a warming climate. 2013 , 37, 352-376		50
178	Thermal Perturbation and Rainfall Runoff have Greater Impact on Seasonal Solute Loads than Physical Disturbance of the Active Layer. <i>Permafrost and Periglacial Processes</i> , 2013 , 24, 241-251	4.2	35
177	Contrasting changes in surface waters and barrens over the past 60 years for a subarctic forest-tundra site in northern Manitoba based on remote sensing imagery. 2013 , 50, 967-977		5
176	Baseline characteristics of climate, permafrost and land cover from a new permafrost observatory in the Lena River Delta, Siberia (1998-2011). 2013 , 10, 2105-2128		124
175	Impacts of mean annual air temperature change on a regional permafrost probability model for the southern Yukon and northern British Columbia, Canada. 2013 , 7, 935-946		12
174	Preliminary estimation of Lake El'gygytgyn water balance and sediment income. 2013 , 9, 1455-1465		17
173	Assessing Seasonal Backscatter Variations with Respect to Uncertainties in Soil Moisture Retrieval in Siberian Tundra Regions. 2014 , 6, 8718-8738		19
172	Catchment-scale dissolved carbon concentrations and export estimates across six subarctic streams in northern Sweden. 2014 , 11, 525-537		41
171	Simulation of Active Layer Dynamics, Upper Kolyma, Russia, using the Hydrograph Hydrological Model. <i>Permafrost and Periglacial Processes</i> , 2014 , 25, 270-280	4.2	11
170	An Assessment of the Erosion Potential of the Fluvial Thermal Process during Ice Breakups of the Lena River (Siberia). <i>Permafrost and Periglacial Processes</i> , 2014 , 25, 162-171	4.2	27
169	Effects of thermo-erosion gullying on hydrologic flow networks, discharge and soil loss. 2014 , 9, 105010		41
168	Perspectives in Modelling Climate-Hydrology Interactions. 2014 , 35, 739-764		8
167	Climate change impacts on groundwater and soil temperatures in cold and temperate regions: Implications, mathematical theory, and emerging simulation tools. 2014 , 138, 313-334		152
166	Simulating cold regions hydrological processes using a modular model in the west of China. 2014 , 509, 13-24		51
165	Deep groundwater circulation through the High Arctic cryosphere forms Mars-like gullies. 2014 , 42, 651-654		17

164	Driving forces for the weathering and alteration of silica in the regolith: Implications for studies of prehistoric flint tools. 2014 , 136, 141-154		27
163	Simulation of Soil Profile Heat Dynamics and their Integration into Hydrologic Modelling in a Permafrost Zone. <i>Permafrost and Periglacial Processes</i> , 2014 , 25, 257-269	4.2	13
162	Analysis of groundwater flow in mountainous, headwater catchments with permafrost. 2015 , 51, 9564-9576		39
161	Frozen soil degradation and its effects on surface hydrology in the northern Tibetan Plateau. 2015 , 120, 8276-8298		93
160	Impact of degrading permafrost on subsurface solute transport pathways and travel times. 2015 , 51, 7680-7701		38
159	Pathways and transformations of dissolved methane and dissolved inorganic carbon in Arctic tundra watersheds: Evidence from analysis of stable isotopes. 2015 , 29, 1893-1910		21
158	Tracing variability of run-off generation in mountainous permafrost of semi-arid north-eastern Mongolia. 2015 , 29, 1046-1055		12
157	Lena Delta hydrology and geochemistry: long-term hydrological data and recent field observations. 2015 , 12, 345-363		54
156	Data evaluation and numerical modeling of hydrological interactions between active layer, lake and talik in a permafrost catchment, Western Greenland. 2015 , 527, 688-703		36
155	Seasonal dynamics of suprapermafrost groundwater and its response to the freeing-thawing processes of soil in the permafrost region of Qinghai-Tibet Plateau. 2015 , 58, 727-738		25
154	Periglacial Processes and Landforms in the Critical Zone. 2015 , 397-447		6
153	Historical trends and extremes in boreal Alaska river basins. 2015 , 527, 590-607		33
152	Numerical analysis of the combined rainfall-runoff process and snowmelt for the Alun River Basin, Heilongjiang, China. 2015 , 74, 6929-6941		5
151	Simulation and prediction of suprapermafrost groundwater level variation in response to climate change using a neural network model. 2015 , 529, 1211-1220		67
150	A refined mapping of Arctic lakes using Landsat imagery. 2015 , 36, 5970-5982		29
149	Thermo-erosion gullies boost the transition from wet to mesic tundra vegetation. 2016 , 13, 1237-1253		11
148	Landscape Effects of Wildfire on Permafrost Distribution in Interior Alaska Derived from Remote Sensing. 2016 , 8, 654		24
147	Influence of vertical and lateral heat transfer on permafrost thaw, peatland landscape transition, and groundwater flow. 2016 , 52, 1286-1305		79

146	Deciduous trees are a large and overlooked sink for snowmelt water in the boreal forest. 2016 , 6, 29504	18
145	Response of hydrological processes to permafrost degradation from 1980 to 2009 in the Upper Yellow River Basin, China. 2016 , 47, 1014-1024	16
144	Estimating thawing depths and mean annual ground temperatures in the Khuvsgul region of Mongolia. 2016 , 75, 1	4
143	Modeling the Arctic freshwater system and its integration in the global system: Lessons learned and future challenges. 2016 , 121, 540-566	59
142	Reduced winter runoff in a mountainous permafrost region in the northern Tibetan Plateau. 2016 , 126, 36-43	28
141	Active layer hydrology in an arctic tundra ecosystem: quantifying water sources and cycling using water stable isotopes. 2016 , 30, 4972-4986	46
140	Impacts of Climatic Change on Hydrological Regime in the Three-River Headwaters Region, China, 1960-2009. 2016 , 30, 115-131	29
139	Flood processes in Canada: Regional and special aspects. 2016 , 41, 7-30	73
138	Influence of microtopography on active layer thaw depths in Qilian Mountain, northeastern Tibetan Plateau. 2016 , 75, 1	12
137	Application of refraction seismics in alpine permafrost studies: A review. 2016 , 155, 136-152	18
136	Effects of wildfire on runoff generating processes in northern Mongolia. 2017 , 17, 1951-1963	17
135	Processes of runoff generation operating during the spring and autumn seasons in a permafrost catchment on semi-arid plateaus. 2017 , 550, 307-317	30
134	Hydro-climatic drivers of mid-winter break-up of river ice in western Canada and Alaska. 2017 , 48, 945-956	12
133	Evaluating the hydrological and hydrochemical responses of a High Arctic catchment during an exceptionally warm summer. 2017 , 31, 2296-2313	27
132	Hydrologic refugia, plants, and climate change. 2017 , 23, 2941-2961	183
131	Hydro-thermal processes and thermal offsets of peat soils in the active layer in an alpine permafrost region, NE Qinghai-Tibet plateau. 2017 , 156, 1-12	15
130	Diagnosis of the hydrology of a small Arctic basin at the tundra-taiga transition using a physically based hydrological model. 2017 , 550, 685-703	37
