Version: 2024-04-29

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
1414	Decomposition of leaf litter from a native tree and an actinorhizal invasive across riparian habitats. 2009 , 19, 1135-46		44
1413	Low levels of nitrogen addition stimulate decomposition by boreal forest fungi. 2009 , 41, 293-302		150
1412	Soil carbon and nitrogen mineralization: Theory and models across scales. 2009 , 41, 1355-1379		504
1411	Interactions between N fertilization, grass clipping addition and pH in turf ecosystems: Implications for soil enzyme activities and organic matter decomposition. 2009 , 41, 1425-1432		61
1410	Photoacceleration of plant litter decomposition in an arid environment. 2009 , 41, 1433-1441		108
1409	Searching for unifying principles in soil ecology. 2009 , 41, 2249-2256		112
1408	Net fluxes of CO ₂ , but not N ₂ O or CH ₄ , are affected following agronomic-scale additions of urea to prairie and arable soils. 2009 , 41, 2011-2013		19
1407	Effects of Long-Term Nitrogen Addition on Microbial Enzyme Activity in Eight Forested and Grassland Sites: Implications for Litter and Soil Organic Matter Decomposition. 2009 , 12, 1-15		255
1406	Landscape Distribution of Microbial Activity in the McMurdo Dry Valleys: Linked Biotic Processes, Hydrology, and Geochemistry in a Cold Desert Ecosystem. 2009 , 12, 562-573		58
1405	Urbanization Alters Soil Microbial Functioning in the Sonoran Desert. 2009 , 12, 654-671		40
1404	Seasonal variation in enzyme activities and temperature sensitivities in Arctic tundra soils. 2009 , 15, 1631-1639	253	
1403	Turnover of labile and recalcitrant soil carbon differ in response to nitrate and ammonium deposition in an ombrotrophic peatland. 2009 , 16, 2307-2321		75
1402	Eoenzymatic stoichiometry of microbial organic nutrient acquisition in soil and sediment. 2009 , 462, 795-8		624
1401	Laccases: toward disentangling their diversity and functions in relation to soil organic matter cycling. 2010 , 46, 215-225		75
1400	The Role of Photodegradation in Surface Litter Decomposition Across a Grassland Ecosystem Precipitation Gradient. 2010 , 13, 765-781		130
1399	Impacts of long-term inorganic and organic fertilization on lignin in a Mollisol. 2010 , 10, 1466-1474		10
1398	The phosphorus status of northern hardwoods differs by species but is unaffected by nitrogen fertilization. 2010 , 97, 159-181		51

1397	Sediment microbial enzyme activity as an indicator of nutrient limitation in the great rivers of the Upper Mississippi River basin. 2010 , 97, 195-209	53
1396	Determination of gross rates of amino acid production and immobilization in decomposing leaf litter by a novel ¹⁵ N isotope pool dilution technique. 2010 , 42, 1293-1302	89
1395	Microbial performance under increasing nitrogen availability in a Mediterranean forest soil. 2010 , 42, 1596-1606	24
1394	Tree species-mediated spatial patchiness of the composition of microbial community and physicochemical properties in the topsoils of a tropical montane forest. 2010 , 42, 1588-1595	75
1393	Response of soil microbial communities and the production of plant-available nitrogen to a two-year rainfall manipulation in the New Jersey Pinelands. 2010 , 42, 1751-1758	84
1392	Multiple effects of reindeer grazing on the soil processes in nutrient-poor northern boreal forests. 2010 , 42, 2068-2077	17
1391	Proteome analysis of fungal and bacterial involvement in leaf litter decomposition. 2010 , 10, 1819-30	70
1390	Moving from pattern to process in fungal symbioses: linking functional traits, community ecology and phylogenetics. 2010 , 185, 882-6	33
1389	Functional complementarity of Douglas-fir ectomycorrhizas for extracellular enzyme activity after wildfire or clearcut logging. 2010 , 24, 1139-1151	67
1388	Shrub expansion stimulates soil C and N storage along a coastal soil chronosequence. 2010 , 16, 2052-2061	28
1387	The response of heterotrophic activity and carbon cycling to nitrogen additions and warming in two tropical soils. 2010 , 16, 2555	80
1386	Invasion of <i>Solidago gigantea</i> in contrasting experimental plant communities: effects on soil microbes, nutrients and plant-soil feedbacks. 2010 , 98, 1379-1388	49
1385	The influence of vegetation type, soil properties and precipitation on the composition of soil mite and microbial communities at the landscape scale. 2010 , 37, 1317-1328	162
1384	Agricultural and Ecological Significance of Soil Enzymes: Soil Carbon Sequestration and Nutrient Cycling. 2010 , 43-60	6
1383	Landscape Heterogeneity of Differently Aged Soil Organic Matter Constituents at the Forest-Alpine Tundra Ecotone, Niwot Ridge, Colorado, U.S.A. 2010 , 42, 179-187	4
1382	Variation in pH optima of hydrolytic enzyme activities in tropical rain forest soils. 2010 , 76, 6485-93	160
1381	Molecular approaches promise a deeper and broader understanding of the evolutionary ecology of aquatic hyphomycetes. 2010 , 29, 1027-1041	29
1380	Lignocellulose-Degrading Enzymes in Soils. 2010 , 167-186	5

1379	Effect of management and climate on biochemical properties of grassland soils from Galicia (NW Spain). 2010 , 46, 136-143	27
1378	Chemical composition of dissolved organic matter in agroecosystems: Correlations with soil enzyme activity and carbon and nitrogen mineralization. 2010 , 46, 426-435	104
1377	Stoichiometric controls on carbon, nitrogen, and phosphorus dynamics in decomposing litter. 2010 , 80, 89-106	481
1376	Soil nitrogen status as a regulator of carbon substrate flows through microbial communities with elevated CO ₂ . 2011 , 116,	21
1375	Microbial substrate preference and community dynamics during decomposition of <i>Acer saccharum</i> . 2011 , 4, 396-407	51
1374	Microbial community and activity shifts after soil transplantation in a glacier forefield. 2011 , 26, S326-S329	17
1373	Soil nitrogen mineralization and enzymatic activities in fire and fire surrogate treatments in California. 2011 , 91, 935-946	11
1372	Introduction to coupled biogeochemical cycles. 2011 , 9, 5-8	92
1371	Consequences of More Intensive Forestry for the Sustainable Management of Forest Soils and Waters. 2011 , 2, 243-260	59
1370	A Belowground Perspective on Dutch Agroecosystems: How Soil Organisms Interact to Support Ecosystem Services. 2011 , 277-357	72
1369	The Effect of Trails on Soil in the Oak Openings of Northwest Ohio. 2011 , 31, 391-399	1
1368	Soil biota drive expression of genetic variation and development of population-specific feedbacks in an invasive plant. 2011 , 92, 1208-14	35
1367	Nitrogen addition stimulates forest litter decomposition and disrupts species interactions in Patagonia, Argentina. 2011 , 17, 1963-1974	74
1366	Contribution of subsurface peat to CO ₂ and CH ₄ fluxes in a neotropical peatland. 2011 , 17, 2867-2881	56
1365	Fungal communities in bulk soil and stone compartments of different forest and soil types as revealed by a barcoding ITS rDNA and a functional laccase encoding gene marker. 2011 , 43, 1292-1299	18
1364	Optimization of hydrolytic and oxidative enzyme methods for ecosystem studies. 2011 , 43, 1387-1397	505
1363	Effects of land use on the level, variation and spatial structure of soil enzyme activities and bacterial communities. 2011 , 43, 1464-1473	96
1362	Earthworm and microbe response to litter and soils of tropical forest plantations with contrasting C:N:P stoichiometric ratios. 2011 , 43, 1528-1535	34

1361	Invertebrate grazing determines enzyme production by basidiomycete fungi. 2011 , 43, 2060-2068	54
1360	Phosphate additions have no effect on microbial biomass and activity in a northern hardwood forest. 2011 , 43, 2441-2449	37
1359	Effects of ammonium and nitrate additions on carbon mineralization in wetland soils. 2011 , 43, 2461-2469	69
1358	Measurements and modeling of pesticide persistence in soil at the catchment scale. 2011 , 409, 1900-8	36
1357	Response of biofilm extracellular enzymes along a stream nutrient enrichment gradient in an agricultural region of north central Pennsylvania, USA. 2011 , 669, 119-131	11
1356	Biodegradation of 4-chlorophenol by <i>Arthrobacter chlorophenolicus</i> A6: effect of culture conditions and degradation kinetics. 2011 , 22, 275-86	44
1355	Ecoenzymatic stoichiometry of recalcitrant organic matter decomposition: the growth rate hypothesis in reverse. 2011 , 102, 31-43	155
1354	Effects of soil properties and management on the activity of soil organic matter transforming enzymes and the quantification of soil-bound and free activity. 2011 , 338, 99-110	132
1353	Production of extracellular enzymes and degradation of biopolymers by saprotrophic microfungi from the upper layers of forest soil. 2011 , 338, 111-125	120
1352	Legacy effects overwhelm the short-term effects of exotic plant invasion and restoration on soil microbial community structure, enzyme activities, and nitrogen cycling. 2011 , 167, 733-45	97
1351	Regulation and spatiotemporal patterns of extracellular enzyme activities in a coastal, sandy aquifer system (Doñana, SW Spain). 2011 , 62, 162-76	13
1350	Enzyme activities and compositional shifts in the community structure of bacterial groups in English wetland soils associated with preservation of organic remains in archaeological sites. 2011 , 65, 435-443	5
1349	Biological Phosphorus Cycling in Dryland Regions. 2011 , 371-406	31
