

# CITATION REPORT

List of articles citing

Mechanism of the antioxidant action of silybin and 2,3-dehydrosilybin flavonolignans: a joint experimental and theoretical study

DOI: 10.1021/jp075814h

Journal of Physical Chemistry A, 2008, 112, 1054-63.

**Source:** <https://exaly.com/paper-pdf/43841972/citation-report.pdf>

**Version:** 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
