Citation Report
List of articles citing

# Does it matter where patent citations come from? Inventor vs. examiner citations in European patents

DOI: 10.1016/j.respol.2008.07.011
Research Policy, 2008, 37, 1892-1908.

**Source:** https://exaly.com/paper-pdf/44018380/citation-report.pdf
**Version:** 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

| # | Paper | IF | Citations |
|---|---|---|---|
| 215 | Literature listing. **2009**, 31, 166-171 | | |
| 214 | Location, collocation and R&D alliances in the European ICT industry. *Research Policy*, **2009**, 38, 393-403 | 7.5 | 89 |
| 213 | Inter-firm reverse technology transfer: the home country effect of R&D internationalization. **2009**, 18, 869-899 | | 44 |
| 212 | Measuring technological diversification: identifying the effects of patent scale and patent scope. **2010**, 84, 265-275 | | 20 |
| 211 | Network structure of innovation: can brokerage or closure predict patent quality?. **2010**, 84, 735-748 | | 38 |
| 210 | International Knowledge Diffusion and Home-bias Effect: Do USPTO and EPO Patent Citations Tell the Same Story?*. **2010**, 112, no-no | | 10 |
| 209 | Patent Application Databases. **2010**, 43, 77-87 | | 2 |
| 208 | Measuring science: Spatial investigation of academic opportunities in Belgium. **2010**, 89, 373-387 | | 6 |
| 207 | Internal Basic Research, External Basic Research and the Technological Performance of Pharmaceutical Firms. *SSRN Electronic Journal*, **2010**, | 1 | 5 |
