

CITATION REPORT

List of articles citing

Serotonin and depression: pathophysiological mechanism or marketing myth?

DOI: 10.1016/j.tips.2008.05.004

Trends in Pharmacological Sciences, 2008, 29, 433-6.

Source: <https://exaly.com/paper-pdf/44039554/citation-report.pdf>

Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
145	Parkinson's disease, DBS and suicide: a role for serotonin?. 2009 , 132, e126; author reply e127		14
144	Pathways of sexual desire. 2009 , 6, 1506-1533		418
143	A review on the effects of aromatherapy for patients with depressive symptoms. 2009 , 15, 187-95		46
142	Investigating serotonergic function using positron emission tomography: overview and recent findings. 2010 , 16, 1979-89		11
141	Hatha yoga for depression: critical review of the evidence for efficacy, plausible mechanisms of action, and directions for future research. 2010 , 16, 22-33		177
140	Comorbiditeit tussen autisme en depressie nader bekeken. 2010 , 14, 93-103		
139	Targeting polyamines and biogenic amines by green tea epigallocatechin-3-gallate. 2010 , 38, 519-23		27
138	Anterior cingulate pyramidal neurons display altered dendritic branching in depressed suicides. 2010 , 44, 286-93		43
137	Inter-individual differences in neurobiology as vulnerability factors for affective disorders: implications for psychopharmacology. 2010 , 125, 402-22		44
136	Sweet preferences and analgesia during childhood: effects of family history of alcoholism and depression. 2010 , 105, 666-75		57
135	Management of musculoskeletal pain. 286-306		5
134	Not fade away: the HPA axis and depression. 2010 , 40, 1-4		146
133	Wireless Instantaneous Neurotransmitter Concentration System: electrochemical monitoring of serotonin using fast-scan cyclic voltammetry--a proof-of-principle study. 2010 , 113, 656-65		49
132	The tricyclic antidepressant desipramine inhibits T3 import into primary neurons. 2010 , 478, 5-8		17
131	Increased serum free tryptophan in patients with diarrhea-predominant irritable bowel syndrome. 2010 , 30, 678-88		27
130	Urocortin 2 increases c-Fos expression in serotonergic neurons projecting to the ventricular/periventricular system. 2010 , 224, 271-81		32
129	Serotonergic Feedback Control. 2010 , 21, 233-247		4

128	The genetics of mood disorders. 2010 , 6, 313-37		52
127	5-HT and depression: is the glass half-full?. 2011 , 11, 45-51		69
126	Altered expression of neuronal tryptophan hydroxylase-2 mRNA in the dorsal and median raphe nuclei of three genetically modified mouse models relevant to depression and anxiety. 2011 , 41, 227-33		10
125	Serotonin-dependent depression in Parkinson's disease: a role for the subthalamic nucleus?. 2011 , 61, 387-99		59
124	High-frequency stimulation of the subthalamic nucleus inhibits the firing of juxtacellular labelled 5-HT-containing neurones. 2011 , 186, 135-45		24
123	The importance of norepinephrine in depression. 2011 , 7, 9-13		155
122	Advances pertaining to the pharmacology and interactions of irreversible nonselective monoamine oxidase inhibitors. 2011 , 31, 66-74		39
121	Droplets of black bile? Development of vulnerability and resilience to depression in young age. 2011 , 36, 380-92		15
120	The effect of psychotropic drugs on cytochrome P450 2D (CYP2D) in rat brain. 2011 , 651, 51-8		20
119	5-HT modulation by acute tryptophan depletion of human instrumental contingency judgements. <i>Psychopharmacology</i> , 2011 , 213, 615-23	4-7	16
118	Antidepressants and adolescent brain development. 2011 , 6, 783-808		11
117	Corticotropin-releasing hormone, glutamate, and G-aminobutyric acid in depression. 2011 , 17, 124-44		50
116	Presynaptic 5-HT _{1A} is related to 5-HTT receptor density in the human brain. 2011 , 36, 2258-65		34
115	Receptors and other signaling proteins required for serotonin control of locomotion in <i>Caenorhabditis elegans</i> . 2012 , 192, 1359-71		50
114	Neurotransmitters and neuropeptides in depression. 2012 , 106, 107-36		20
113	Role of brain serotonin dysfunction in the pathophysiology of congestive heart failure. 2012 , 53, 760-7		7
112	The role of serotonergic genes and environmental stress on the development of depressive symptoms and neuroticism. 2012 , 142, 82-9		27
