

CITATION REPORT

List of articles citing

Morphological Integration and Developmental Modularity

DOI: 10.1146/annurev.ecolsys.37.091305.110054
Annual Review of Ecology, Evolution, and Systematics,
2008, 39, 115-132.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
578	The Developmental Basis of Variational Modularity: Insights from Quantitative Genetics, Morphometrics, and Developmental Biology. <i>Evolutionary Biology</i> , 2009 , 36, 377-385	3	56
577	Deciphering the Palimpsest: Studying the Relationship Between Morphological Integration and Phenotypic Covariation. <i>Evolutionary Biology</i> , 2009 , 36, 355-376	3	289
576	Morphological integration of the skull in craniofacial anomalies. 2009 , 12, 149-58		28
575	The ontogenetic trajectory of the phenotypic covariance matrix, with examples from craniofacial shape in rats and humans. <i>Evolution; International Journal of Organic Evolution</i> , 2009 , 63, 727-37	3.8	91
574	Evolution of ontogenetic allometry shaping giant species: a case study from the damselfish genus <i>Dascyllus</i> (Pomacentridae). 2009 , 99, 99-117		16
573	Morphological modularity and assessment of developmental processes within the vole dental row (<i>Microtus arvalis</i> , Arvicolinae, Rodentia). 2009 , 11, 302-11		43
572	Morphometric integration and modularity in configurations of landmarks: tools for evaluating a priori hypotheses. 2009 , 11, 405-21		331
571	The pattern of endocranial ontogenetic shape changes in humans. 2009 , 215, 240-55		143
570	Modularity, comparative embryology and evo-devo: developmental dissection of evolving body plans. 2009 , 332, 61-9		45
569	Skull modularity in neotropical marsupials and monkeys: size variation and evolutionary constraint and flexibility. <i>Journal of Experimental Zoology Part B: Molecular and Developmental Evolution</i> , 2010 , 314, 663-83	1.8	68
568	Geometric morphometrics: recent applications to the study of evolution and development. 2010 , 280, 1-7		115
567	Adaptive radiations, ecological specialization, and the evolutionary integration of complex morphological structures. <i>Evolution; International Journal of Organic Evolution</i> , 2010 , 64, 724-44	3.8	105
566	Evolutionary constraint and ecological consequences. <i>Evolution; International Journal of Organic Evolution</i> , 2010 , 64, 1865-84	3.8	268
565	Evolvability of individual traits in a multivariate context: partitioning the additive genetic variance into common and specific components. <i>Evolution; International Journal of Organic Evolution</i> , 2010 , 64, 1899-911	3.8	23
564	Discovering exceptional diversifications at continental scales: the case of the endemic families of neotropical suboscine passerines. <i>Evolution; International Journal of Organic Evolution</i> , 2010 , 64, 2004-19 ^{3.8}		40
563	Quantitative genetics of shape in cricket wings: developmental integration in a functional structure. <i>Evolution; International Journal of Organic Evolution</i> , 2010 , 64, 2935-51	3.8	51
562	Evolution and development of shape: integrating quantitative approaches. 2010 , 11, 623-35		419

561	Sexual dimorphism in traits related to locomotion: ontogenetic patterns of variation in Podarcis wall lizards. 2010 , 99, 530-543		17
560	Methods for Studying Morphological Integration and Modularity. 2010 , 16, 213-243		49
559	Testing and quantifying phylogenetic signals and homoplasy in morphometric data. <i>Systematic Biology</i> , 2010 , 59, 245-61	8.4	265
558	Floral genetic architecture: an examination of QTL architecture underlying floral (co)variation across environments. 2010 , 186, 1451-65		22
557	Fluctuating Asymmetry: Methods, Theory, and Applications. <i>Symmetry</i> , 2010 , 2, 466-540	2.7	237
556	Developmental palaeontology in synapsids: the fossil record of ontogeny in mammals and their closest relatives. <i>Proceedings of the Royal Society B: Biological Sciences</i> , 2010 , 277, 1139-47	4.4	34
555	3D geometric morphometrics and missing-data. Can extant taxa give clues for the analysis of fossil primates?. 2010 , 9, 423-433		19
554	Large-scale diversification of skull shape in domestic dogs: disparity and modularity. 2010 , 175, 289-301		259
553	B chromosomes and cranial variability in yellow-necked field mice (<i>Apodemus flavicollis</i>). <i>Journal of Mammalogy</i> , 2011 , 92, 396-406	1.8	24
552	Sexual shape dimorphism in Serbian roe deer (<i>Capreolus capreolus</i> L.). 2011 , 76, 735-740		8
551	MorphoJ: an integrated software package for geometric morphometrics. 2011 , 11, 353-7		2159
550	Modularity and scaling in fast movements: power amplification in mantis shrimp. <i>Evolution; International Journal of Organic Evolution</i> , 2011 , 65, 443-61	3.8	55
549	Integration of spectral reflectance across the plumage: implications for mating patterns. 2011 , 6, e23201		15
548	Evolutionary modularity of the mouse mandible: dissecting the effect of chromosomal reorganizations and isolation by distance in a Robertsonian system of <i>Mus musculus domesticus</i> . 2011 , 24, 1763-76		21
547	Integration and dissociation of limb elements in flying vertebrates: a comparison of pterosaurs, birds and bats. 2011 , 24, 2586-99		41
546	Inference in morphological taxonomy using collinear data and small sample sizes: Monogenean sclerites (<i>Platyhelminthes</i>) as a case study. 2011 , 40, 306-316		8
545	Experimental evidence for the Berg hypothesis: vegetative traits are more sensitive than pollination traits to environmental variation. 2011 , 25, 247-257		44
544	Balancing the spatial demands of the developing dentition with the mechanical demands of the catarrhine mandibular symphysis. 2011 , 218, 96-111		11

543	Mosaic heterochrony and evolutionary modularity: the trilobite genus <i>Zacanthopsis</i> as a case study. <i>Evolution; International Journal of Organic Evolution</i> , 2011 , 65, 3241-52	3.8	41
542	Modularity in attachment organs of African Cichlidogyrus (Platyhelminthes: Monogenea: Ancyrocephalidae) reflects phylogeny rather than host specificity or geographic distribution. 2011 , 102, 694-706		45
