

CITATION REPORT

List of articles citing

Determination of alkali and halide monovalent ion parameters for use in explicitly solvated biomolecular simulation

DOI: 10.1021/jp8001614

Journal of Physical Chemistry B, 2008, 112, 9020-41.

Source: <https://exaly.com/paper-pdf/44130756/citation-report.pdf>

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
