

CITATION REPORT

List of articles citing

Modelling vague places with knowledge from the Web

DOI: 10.1080/13658810701850547

International Journal of Geographical Information
Science, 2008, 22, 1045-1065.

Source: <https://exaly.com/paper-pdf/44514454/citation-report.pdf>

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
