Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

525 Overview. 1-3

524	Bone morphogenetic protein 15 in the pro-mature complex form enhances bovine oocyte developmental competence. 2014 , 9, e103563	28
523	Ovarian aging and premature ovarian failure. 2014 , 15, 190-6	47
522	Embryotropic actions of follistatin: paracrine and autocrine mediators of oocyte competence and embryo developmental progression. 2013 , 26, 37-47	16
521	In vitro maturation of immature human oocytes. 155-171	
520	Differential expression of pluripotent and germ cell markers in ovarian surface epithelium according to age in female mice. 2014 , 12, 113	5
519	Gonadal transcriptomic analysis of yellow catfish (<i>Pelteobagrus fulvidraco</i>): identification of sex-related genes and genetic markers. 2014 , 46, 798-807	35
518	A role of lipid metabolism during cumulus-oocyte complex maturation: impact of lipid modulators to improve embryo production. 2014 , 2014, 692067	71
517	Cumulus cell gene expression associated with pre-ovulatory acquisition of developmental competence in bovine oocytes. 2014 , 26, 855-65	28
516	Female aging alters expression of human cumulus cells genes that are essential for oocyte quality. 2014 , 2014, 964614	59
515	Insulin-like 3-induced rat preantral follicular growth is mediated by growth differentiation factor 9. 2014 , 155, 156-67	15
514	Mitochondrial fission factor Drp1 maintains oocyte quality via dynamic rearrangement of multiple organelles. 2014 , 24, 2451-8	74
513	Viability of cumulus cells is associated with basal AMH levels in assisted reproduction. 2014 , 183, 59-63	4
512	The importance of having zinc during in vitro maturation of cattle cumulus-oocyte complex: role of cumulus cells. 2014 , 49, 865-74	14
511	Reduced and delayed expression of GDF9 and BMP15 in ovarian tissues from women with polycystic ovary syndrome. 2014 , 31, 1483-90	38
510	The fundamental role of bone morphogenetic protein 15 in ovarian function and its involvement in female fertility disorders. <i>Human Reproduction Update</i> , 2014 , 20, 869-83	15.8 146
509	Reduced uterine receptivity for mouse embryos developed from in-vitro matured oocytes. 2014 , 31, 1713-8	4
508	Protein kinase C isoforms $\text{PKC}\alpha$ and $\text{PKC}\beta$ are differentially expressed in mouse ovaries at different stages of postnatal development. 2014 , 7, 117	3

507	Follicular dynamics and gene expression in granulosa cells, corpora lutea and oocytes from gilts of breeds with low and high ovulation rates. 2014 , 26, 316-27	8
506	Effects of differing oocyte-secreted factors during mouse in vitro maturation on subsequent embryo and fetal development. 2014 , 31, 295-306	37
505	The transcriptome of follicular cells: biological insights and clinical implications for the treatment of infertility. <i>Human Reproduction Update</i> , 2014 , 20, 1-11	15.8 66
504	Role of anti-Müllerian hormone and bone morphogenetic proteins in the regulation of FSH sensitivity. 2014 , 382, 460-465	49
503	Expression of TGF-beta superfamily growth factors, their receptors, the associated SMADs and antagonists in five isolated size-matched populations of pre-antral follicles from normal human ovaries. 2014 , 20, 293-308	65
502	Oocyte-secreted factors in oocyte maturation media enhance subsequent development of bovine cloned embryos. 2014 , 81, 341-9	6
501	Amphiregulin co-operates with bone morphogenetic protein 15 to increase bovine oocyte developmental competence: effects on gap junction-mediated metabolite supply. 2014 , 20, 499-513	48
500	In vitro production of small ruminant embryos: late improvements and further research. 2014 , 81, 1149-62	36
499	Expression of fibroblast growth factor 10 and cognate receptors in the developing bovine ovary. 2014 , 81, 1268-74	11
498	Free Radical Biology and Reproductive Health in Diabetes. 2014 , 2789-2813	3
497	Are zona pellucida genes involved in recurrent oocyte lysis observed during in vitro fertilization?. 2014 , 31, 221-7	6
496	The regulation and assessment of follicular growth. 2014 , 244, 13-7; discussion 17	16
495	Recombinant human growth differentiation factor-9 improves oocyte reprogramming competence and subsequent development of bovine cloned embryos. 2014 , 16, 281-9	10
494	The gametic synapse: RNA transfer to the bovine oocyte. 2014 , 91, 90	103
493	Follicle-stimulating hormone regulates expression and activity of epidermal growth factor receptor in the murine ovarian follicle. 2014 , 111, 16778-83	59
492	Unconditioned commercial embryo culture media contain a large variety of non-declared proteins: a comprehensive proteomics analysis. 2014 , 29, 2421-30	55
491	Prematuration with cyclic adenosine monophosphate modulators alters cumulus cell and oocyte metabolism and enhances developmental competence of in vitro-matured mouse oocytes. 2014 , 91, 47	52
490	Increased GDF9 and BMP15 mRNA levels in cumulus granulosa cells correlate with oocyte maturation, fertilization, and embryo quality in humans. 2014 , 12, 81	80

489	Measurement of ATP in single oocytes: impact of maturation and cumulus cells on levels and consumption. 2014 , 229, 353-61	82
488	Effect of meiotic status, cumulus cells and cytoskeleton stabilizer on the developmental competence of ovine oocytes following vitrification. 2014 , 117, 151-157	8
487	Effects of growth differentiation factor 9 and bone morphogenetic protein 15 on the in vitro maturation of porcine oocytes. 2014 , 49, 219-27	42
486	Cell-free nucleic acids as non-invasive biomarkers of gynecological cancers, ovarian, endometrial and obstetric disorders and fetal aneuploidy. <i>Human Reproduction Update</i> , 2014 , 20, 905-23	15.8 43
485	Dynamics of morphofunctional changes in aging bovine ova during prolonged culture in vitro. 2014 , 8, 258-266	3
484	Dicarbonyl stress and glyoxalases in ovarian function. 2014 , 42, 433-8	26
483	In vitro development of ovine oocytes cultured in the presence of GDF9 at chemically defined or undefined maturation medium. 2014 , 120, 78-83	1
482	The impact of vitrification on immature oocyte cell cycle and cytoskeletal integrity in a rat model. 2014 , 31, 739-47	7
481	Mitochondrial SIRT3 and its target glutamate dehydrogenase are altered in follicular cells of women with reduced ovarian reserve or advanced maternal age. 2014 , 29, 1490-9	57
480	The microenvironment of the ovarian follicle in the postpartum dairy cow: effects on reagent transfer from cumulus cells to oocytes in vitro. 2014 , 82, 563-73	5
