

# CITATION REPORT

List of articles citing

Health behaviours as explanations for educational level differences in cardiovascular and all-cause mortality: a follow-up of 60 000 men and women over 23 years

DOI: 10.1093/eurpub/ckm051

European Journal of Public Health, 2008, 18, 38-43.

**Source:** <https://exaly.com/paper-pdf/44712054/citation-report.pdf>

**Version:** 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
