

CITATION REPORT

List of articles citing

Hyperinsulinaemic hypoglycaemia

DOI: 10.1136/adc.2008.148171

Archives of Disease in Childhood, 2009, 94, 450-7.

Source: <https://exaly.com/paper-pdf/45832905/citation-report.pdf>

Version: 2024-04-10

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
116	Investigation and management of congenital hyperinsulinism. 2009 , 18, 1306-10		
115	Bibliography. Endoscopy. Current world literature. 2010 , 26, 519-29		
114	Role of 18F-DOPA PET/CT imaging in congenital hyperinsulinism. 2010 , 11, 165-9		23
113	Congenital hyperinsulinism due to mutations in HNF4A and HADH. 2010 , 11, 185-91		19
112	Rapid genetic analysis, imaging with 18F-DOPA-PET/CT scan and laparoscopic surgery in congenital hyperinsulinism. 2010 , 23, 171-7		6
111	Diazoxide-responsive hyperinsulinemic hypoglycemia caused by HNF4A gene mutations. 2010 , 162, 987-92		98
110	Hyperinsulinemia precedes insulin resistance in mice lacking pancreatic beta-cell leptin signaling. 2010 , 151, 4178-86		67
109	The predictive value of preoperative fluorine-18-L-3,4-dihydroxyphenylalanine positron emission tomography-computed tomography scans in children with congenital hyperinsulinism of infancy. 2011 , 46, 204-8		42
108	The surgical management of atypical forms of congenital hyperinsulinism. 2011 , 20, 54-5		10
107	Surgical management of congenital hyperinsulinism of infancy. 2011 , 20, 50-3		49
106	[Hypoglycemia hypersinsulinemic of infancy]. 2011 , 55, 177-83		1
105	Hypoglycaemia in Infants and Children. 2011 , 273-293		1
104	The management of hypertensive emergencies in children after stem cell transplantation. 2011 , 33, 165-76		7
103	Dysmyelination of the cerebral white matter with microdeletion at 6p25. <i>Indian Pediatrics</i> , 2011 , 48, 727-92		10
102	Investigations for neonatal hypoglycaemia. 2011 , 44, 465-466		11
101	Current understanding of K ATP channels in neonatal diseases: focus on insulin secretion disorders. 2011 , 32, 765-80		19
100	Genome-wide homozygosity analysis reveals HADH mutations as a common cause of diazoxide-responsive hyperinsulinemic-hypoglycemia in consanguineous pedigrees. 2011 , 96, E498-502		44

99	The contribution of rapid KATP channel gene mutation analysis to the clinical management of children with congenital hyperinsulinism. 2011 , 164, 733-40	60
98	Biochemical evaluation of an infant with hypoglycemia resulting from a novel de novo mutation of the GLUD1 gene and hyperinsulinism-hyperammonemia syndrome. 2011 , 24, 573-7	3
97	Update on investigating hypoglycaemia in childhood. 2011 , 48, 200-11	13
96	The association of cardiac ventricular hypertrophy with congenital hyperinsulinism. 2012 , 167, 619-24	6
95	Successful treatment of congenital hyperinsulinism with long-acting release octreotide. 2012 , 166, 333-9	65
94	Histological examination in sudden unexpected death in infancy: evidence base for histological sampling. 2012 , 65, 58-63	16
93	Long-term lanreotide treatment in six patients with congenital hyperinsulinism. 2012 , 78, 106-12	33
92	Influence of Maternal Glycemic Status (HbA1c) at Delivery and Risk of Hypoglycemia in Infants of Diabetic Mothers. 2012 , 2, 84-88	
91	[Hyperinsulinemic hypoglycemia of the infancy: analysis of clinical data from a Brazilian sample]. 2012 , 56, 666-71	2
90	Heterozygous ABCC8 mutations are a cause of MODY. 2012 , 55, 123-7	105
89	Hypoglycaemia following diabetes remission in patients with 6q24 methylation defects: expanding the clinical phenotype. 2013 , 56, 218-21	19
88	An Egyptian case of congenital hyperinsulinism of infancy due to a novel mutation in KCNJ11 encoding Kir6.2 and response to octreotide. 2013 , 50, 801-5	2
87	Maturity onset diabetes of the young: identification and diagnosis. 2013 , 50, 403-15	96
86	Hypoglycaemia in adults: when should it be raised? How can hypoglycaemia be confirmed in non-diabetic adults?. 2013 , 74, 168-73	5
85	Multidomain integration in the structure of the HNF-4 α nuclear receptor complex. 2013 , 495, 394-8	133
84	Hepatoblastoma in a child with a paternally-inherited ABCC8 mutation and mosaic paternal uniparental disomy 11p causing focal congenital hyperinsulinism. 2013 , 56, 114-7	16
83	Hypoglycaemia. 2013 , 285-293	
82	Clinical and molecular characterisation of hyperinsulinaemic hypoglycaemia in infants born small-for-gestational age. 2013 , 98, F356-8	30

81	Clinical and molecular characterisation of 300 patients with congenital hyperinsulinism. 2013 , 168, 557-64	147
80	A novel mutation in ABCC8 gene in a newborn with congenital hyperinsulinism -a case report. 2013 , 32, 412-7	2
79	Genetic analysis of Italian patients with congenital hyperinsulinism of infancy. 2013 , 79, 236-42	14
78	Glycemic variability in preterm infants receiving intermittent gastric tube feeding: report of three cases. 2013 , 55, e25-8	1
77	Successful subcutaneous glucagon use for persistent hypoglycaemia in congenital hyperinsulinism. 2013 , 26, 1157-61	24
76	Congenital hyperinsulinism: Role of fluorine-18L-3, 4 hydroxyphenylalanine positron emission tomography scanning. 2014 , 6, 252-60	11
75	. 2014 ,	9
74	Drug monographs. 2014 , 57-553	
73	Pediatric hypoglycemia. 2014 , 63, 211-45	4
72	Clinical and histological heterogeneity of congenital hyperinsulinism due to paternally inherited heterozygous ABCC8/KCNJ11 mutations. 2014 , 171, 685-95	27
71	A combination of nifedipine and octreotide treatment in an hyperinsulinemic hypoglycemic infant. 2014 , 6, 119-21	14
70	Hyperinsulinaemic hypoglycaemia. 2014 , 46, 157-70	33
69	The evolving course of HNF4A hyperinsulinaemic hypoglycaemia--a case series. 2014 , 31, e1-5	15
68	Occurrence of giant focal forms of congenital hyperinsulinism with incorrect visualization by (18) F DOPA-PET/CT scanning. 2014 , 81, 847-54	12
67	Neonatal hypoglycemia. 2014 , 81, 58-65	14
66	High prevalence of severe circulatory complications with diazoxide in premature infants. 2014 , 105, 166-71	21
65	Persistent hyperinsulinaemic hypoglycaemia in infancy. 2014 , 23, 76-82	28
