|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | A comparison of three measures of upper limb function in Friedreich ataxia. <i>Journal of Neurology</i> , 2010, 257, 518-523.                                                                                                      | 1.8 | 29        |
| 2  | Charting the progression of disability in parkinson disease: study protocol for a prospective longitudinal cohort study. <i>BMC Neurology</i> , 2010, 10, 110.                                                                     | 0.8 | 42        |
| 3  | Change in Dexterity with Sensory Awareness Training: A Randomised Controlled Trial. <i>Perceptual and Motor Skills</i> , 2011, 112, 783-798.                                                                                       | 0.6 | 10        |
| 4  | Which measures of physical function and motor impairment best predict quality of life in Parkinson's disease?. <i>Parkinsonism and Related Disorders</i> , 2011, 17, 693-697.                                                      | 1.1 | 120       |
| 5  | Discriminative validity and test-retest reliability of the Dellon-modified Moberg pick-up test in carpal tunnel syndrome patients. <i>Journal of the Peripheral Nervous System</i> , 2011, 16, 51-58.                              | 1.4 | 21        |
| 6  | The "peg test": A novel technique for dexterity evaluation in hand immobilized with a splint. <i>Chirurgie De La Main</i> , 2011, 30, 385-392.                                                                                     | 0.7 | 4         |
| 7  | Validity and reliability of the purdue pegboard test in carpal tunnel syndrome. <i>Muscle and Nerve</i> , 2011, 43, 171-177.                                                                                                       | 1.0 | 61        |
| 8  | Efficacy of Handwriting for Heroes, a novel hand dominance transfer intervention. <i>Hand Therapy</i> , 2012, 17, 15-24.                                                                                                           | 0.5 | 3         |
| 9  | Prediction of hand strength by hand injury severity scoring system in hand injured patients. <i>Disability and Rehabilitation</i> , 2012, 34, 423-428.                                                                             | 0.9 | 9         |
| 10 | Clinical application of computerized evaluation and re-education biofeedback prototype for sensorimotor control of the hand in stroke patients. <i>Journal of NeuroEngineering and Rehabilitation</i> , 2012, 9, 26.               | 2.4 | 20        |
| 11 | A pilot study of sensory feedback by transcutaneous electrical nerve stimulation to improve manipulation deficit caused by severe sensory loss after stroke. <i>Journal of NeuroEngineering and Rehabilitation</i> , 2013, 10, 55. | 2.4 | 25        |
| 12 | Bilateral deficits in fine motor control ability and manual dexterity in women with fibromyalgia syndrome. <i>Experimental Brain Research</i> , 2013, 226, 137-143.                                                                | 0.7 | 10        |
| 13 | Designing inclusive products for everyday environments: the effects of everyday cold temperatures on older adults' dexterity. <i>Universal Access in the Information Society</i> , 2013, 12, 247-261.                              | 2.1 | 3         |
| 14 | Kinect Xbox 360 as a therapeutic modality for children with cerebral palsy in a school environment: A preliminary study. <i>NeuroRehabilitation</i> , 2013, 33, 513-521.                                                           | 0.5 | 129       |
| 15 | The Digital Box and Block Test Automating traditional post-stroke rehabilitation assessment. , 2013, , .                                                                                                                           |     | 10        |
| 16 | The Functional Dexterity Test: Test-retest reliability analysis and up-to date reference norms. <i>Journal of Hand Therapy</i> , 2013, 26, 62-68.                                                                                  | 0.7 | 35        |
| 17 | The test-retest reliability and the minimal detectable change of the Purdue pegboard test in schizophrenia. <i>Journal of the Formosan Medical Association</i> , 2013, 112, 332-337.                                               | 0.8 | 45        |
| 18 | A Hand-Centric Classification of Human and Robot Dexterous Manipulation. <i>IEEE Transactions on Haptics</i> , 2013, 6, 129-144.                                                                                                   | 1.8 | 139       |
