Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
129	Childhood obesity: update on predisposing factors and prevention strategies. 2010 , 12, 280-7		42
128	Television and video game exposure and the development of attention problems. <i>Pediatrics</i> , 2010 , 126, 214-21	7.4	274
127	Effect of school-based interventions on physical activity and fitness in children and adolescents: a review of reviews and systematic update. 2011 , 45, 923-30		465
126	Interventions for preventing obesity in children. <i>The Cochrane Library</i> , 2011 , CD001871	5.2	809
125	Influence of body mass index, gender, and Hispanic ethnicity on physical activity in urban children. 2011 , 16, 90-104		14
124	The public health impacts of a fat tax. 2011 , 65, 427-33		53
123	Economic incentives and nutritional behavior of children in the school setting: a systematic review. 2011 , 69, 660-74		25
122	For whom and under what circumstances do school-based energy balance behavior interventions work? Systematic review on moderators. 2011 , 6, e46-57		68
121	A systematic review of behavioral interventions to promote intake of fruit and vegetables. 2011 , 111, 1523-35		136
120	What do parents think about parental participation in school-based interventions on energy balance-related behaviours? a qualitative study in 4 countries. <i>BMC Public Health</i> , 2011 , 11, 881	4.1	22
119	Changes in adolescents' intake of sugar-sweetened beverages and sedentary behaviour: results at 8 month mid-way assessment of the HEIA study--a comprehensive, multi-component school-based randomized trial. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2011 , 8, 63	8.4	40
118	Systematic review of sedentary behaviour and health indicators in school-aged children and youth. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2011 , 8, 98	8.4	1107
117	Changing overweight Latino preadolescent body mass index: the effect of the parent-child dyad. 2011 , 50, 29-36		12
116	Systematic review of effective strategies for reducing screen time among young children. 2012 , 20, 1338-54		124
115	Interventions for increasing fruit and vegetable consumption in children aged 5 years and under. 2012 , 11, CD008552		58
114	Universal childhood and adolescent obesity prevention programs: review and critical analysis. 2012 , 32, 383-99		54
113	Community-based interventions for enhancing access to or consumption of fruit and vegetables among five to 18-year olds: a scoping review. <i>BMC Public Health</i> , 2012 , 12, 711	4.1	22

112	Primary prevention of overweight in children and adolescents: a meta-analysis of the effectiveness of interventions aiming to decrease sedentary behaviour. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2012 , 9, 61	8.4	76
111	The impact of an intervention taught by trained teachers on childhood fruit and vegetable intake: a randomized trial. 2012 , 2012, 342138		16
110	A review of different behavior modification strategies designed to reduce sedentary screen behaviors in children. 2012 , 2012, 379215		27
109	Effect of interventions on the body mass index of school-age students. 2012 , 46, 551-60		33
108	Results of a multi-level intervention to prevent and control childhood obesity among Latino children: the Aventuras Para Niños Study. 2012 , 43, 84-100		106
