Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
460	The influence of snow cover on the ground thermal regime. 1982 , 19, 421-432		374
459	Two decades of responses (1986–2006) to climate by the Laurichard rock glacier, French Alps. 2009 , 20, 331-344		58
458	Probability distribution of permafrost along a transportation corridor in the northeastern Qinghai province of China. 2009 , 59, 12-18		20
457	Recent hydrologic change in a Colorado alpine basin: an indicator of permafrost thaw?. 2010 , 51, 130-134		56
456	Practical recommendations for planning, constructing and maintaining infrastructure in mountain permafrost. 2010 , 21, 97-104		53
455	The thermal state of permafrost in the nordic area during the international polar year 2007–2009. 2010 , 21, 156-181		210
454	Thermal state of permafrost and active layer in Central Asia during the international polar year. 2010 , 21, 198-207		223
453	Effects of scale and data source in periglacial distribution modelling in a high arctic environment, western Svalbard. 2010 , 21, 345-354		10
452	Assessment of periglacial slope stability for the 1988 Tschierwa rock avalanche (Piz Morteratsch, Switzerland). 2010 , 116, 32-43		84
451	Time-lapse refraction seismic tomography for the detection of ground ice degradation. 2010 , 4, 243-259		44
450	NORPERM, the Norwegian Permafrost Database – TSP NORWAY IPY legacy. 2010 , 2, 235-246		14
449	Potential for a hazardous geospheric response to projected future climate changes. 2010 , 368, 2317-45		23
448	Climate change and geomorphological hazards in the eastern European Alps. 2010 , 368, 2461-79		129
447	Mountain permafrost: development and challenges of a young research field. 2010 , 56, 1043-1058		113
446	Influence of atmospheric forcing parameters on modelled mountain permafrost evolution. 2010 , 19, 491-500		19
445	Analysis of ground temperature trends in Alpine permafrost using generalized least squares. 2010 , 115,		21
444	Magnitude–frequency relationships of debris flows – A case study based on field surveys and tree-ring records. 2010 , 116, 67-76		115

443	Rock-glacier dynamics and magnitude-frequency relations of debris flows in a high-elevation watershed: Ritigraben, Swiss Alps. 2010 , 73, 202-210		79
442	Recent and future warm extreme events and high-mountain slope stability. 2010 , 368, 2435-59		109
441	Characteristics and mechanisms of embankment deformation along the Qinghai-Tibet Railway in permafrost regions. 2011 , 67, 178-186		81
440	References. 358-457		
439	Present and LGM permafrost from climate simulations: contribution of statistical downscaling. <i>Climate of the Past</i> , 2011 , 7, 1225-1246	3.9	31
