Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

- 24 Impact of low-grade intraventricular hemorrhage on neurodevelopmental outcome in very preterm infants at two years of age. **2023**, 177-178, 105721
- 23 Speech-Encoding Deficits in Neonates Born Large-for-Gestational Age as Revealed With the Envelope Frequency-Following Response. Publish Ahead of Print,

- 22 Association of newer definitions of bronchopulmonary dysplasia with pulmonary hypertension and long-term outcomes. 11, ○
- 21 Stem cell-based interventions for the prevention and treatment of intraventricular haemorrhage and encephalopathy of prematurity in preterm infants. **2023**, 2023, ○
- 20 Assisted reproductive technology and neurodevelopmental outcomes in offspring: a prospective birth cohort study in East China. **2023**, ○
- 19 Umbilical Cord Blood-Derived Cell Therapy for Perinatal Brain Injury: A Systematic Review & Meta-Analysis of Preclinical Studies. **2023**, 24, 4351 ○
- 18 Intellectual functioning in survivors of extremely low birthweight: Cognitive outcomes in childhood and adolescence. **2023**, 67, 186-204 ○
- 17 Emotional and behavioural outcomes at 8 years of age in preterm-born children: A longitudinal study. **2023**, 112, 993-1000 ○
- 16 Assessment of Alcohol Exposure From Alcohol-Based Disinfectants Among Premature Infants in Neonatal Incubators in Japan. **2023**, 6, e230691 ○
- 15 Patologías neurológicas del prematuro. **2023**, 58, 1-14 ○
- 14 Associations between neurological examination at term-equivalent age and cerebral hemodynamics and oxygen metabolism in infants born preterm. 17, ○
- 13 Association of Brain Microstructure and Functional Connectivity With Cognitive Outcomes and Postnatal Growth Among Early School-Aged Children Born With Extremely Low Birth Weight. **2023**, 6, e230198 ○
- 12 Estimating cortical thickness trajectories in children across different scanners using transfer learning from normative models. ○
- 11 Three-dimensional cranial ultrasound and functional near-infrared spectroscopy for bedside monitoring of intraventricular hemorrhage in preterm neonates. **2023**, 13, ○
- 10 Near infrared spectroscopy of the central nervous system: monitoring oxygenation in the neonatal brain and in the spinal cord following traumatic injury. **2023**, ○
- 9 Fear conditioning is preserved in very preterm-born young adults despite increased anxiety levels. ○
- 8 Predicting the Neurodevelopmental Outcome in Extremely Preterm Newborns Using a Multimodal Prognostic Model Including Brain Function Information. **2023**, 6, e231590 ○
- 7 Endothelin-1 Endothelin receptor B complex contributes to oligodendrocyte differentiation and myelin deficits during preterm white matter injury. 11, ○
- 6 Localized microglia dysregulation impairs central nervous system myelination in development. **2023**, 11, ○
- 5 Little brain, little minds: The big role of the cerebellum in social development. **2023**, 60, 101238 ○

- 4 Influence of isolated low-grade intracranial haemorrhages on the neurodevelopmental outcome of infants born very low birthweight. ○
- 3 Meta-Analysis of Hippocampal Volume and Episodic Memory in Preterm and Term Born Individuals. ○
- 2 Long-term impact of serious neonatal bacterial infections on neurodevelopment. **2023**, ○
- 1 Long-term analysis of adrenocorticotrophic hormone monotherapy for infantile epileptic spasms syndrome with periventricular leukomalacia. **2023**, 109, 40-44 ○
