

CITATION REPORT

List of articles citing

CHARMM general force field: A force field for drug-like molecules compatible with the CHARMM all-atom additive biological force fields

DOI: 10.1002/jcc.21367

Journal of Computational Chemistry, 2010, 31, 671-90.

Source: <https://exaly.com/paper-pdf/46078509/citation-report.pdf>

Version: 2024-04-23

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
