CITATION REPORT List of articles citing

The effects of sildenafil and acetazolamide on breathing efficiency and ventilatory control during hypoxic exercise

DOI: 10.1007/s00421-009-1042-5 European Journal of Applied Physiology, 2009, 106, 509-15.

Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
