List of articles citing

Resveratrol induces mitochondrial biogenesis in endothelial cells

DOI: 10.1152/ajpheart.00368.2009

American Journal of Physiology - Heart and Circulatory Physiology, 2009, 297, H13-20.

Source: <https://exaly.com/paper-pdf/47155948/citation-report.pdf>

Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

8	Potential Natural Product Derived Compounds for Lung Cancer Therapy. 2022 , 209-252		0

- 7 Engineering Extracellular Vesicles to Modulate Their Innate Mitochondrial Load. ○
- 6 Peanut Shell Extract and Luteolin Regulate Lipid Metabolism and Induce Browning in 3T3-L1 Adipocytes. **2022**, 11, 2696 ○
- 5 Mechanisms involved in prevention of dementia and promotion of healthy aging by resveratrol. **2023**, 197-214 ○
- 4 New insights into vascular aging: Emerging role of mitochondria function. **2022**, 156, 113954 ○
- 3 Multiple myeloma, a quintessential malignant disease of aging: a geroscience perspective on pathogenesis and treatment. ○
- 2 Antioxidant Phytochemicals as Potential Therapy for Diabetic Complications. **2023**, 12, 123 2
- 1 Mitochondria as novel mediators linking gut microbiota to atherosclerosis that is ameliorated by herbal medicine: A review. 14, ○
