

CITATION REPORT

List of articles citing

Chemical neuroanatomy of the dorsal raphe nucleus and adjacent structures of the mouse brain

DOI: 10.1002/cne.22407

Journal of Comparative Neurology, 2010, 518, 3464-94.

Source: <https://exaly.com/paper-pdf/48103383/citation-report.pdf>

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
137	Regulation of dorsal raphe nucleus function by serotonin autoreceptors: a behavioral perspective. <i>Journal of Chemical Neuroanatomy</i> , 2011 , 41, 234-46	3.2	60
136	Endogenous opiates and behavior: 2010. 2011 , 32, 2522-52		41
135	Raphe serotonin neurons are not homogenous: electrophysiological, morphological and neurochemical evidence. 2011 , 61, 524-43		173
134	Sleep-waking discharge profiles of dorsal raphe nucleus neurons in mice. 2011 , 197, 200-24		41
133	High frequency stimulation of the subthalamic nucleus increases c-fos immunoreactivity in the dorsal raphe nucleus and afferent brain regions. 2011 , 45, 1307-15		22
132	Quantitative analysis of glutamatergic innervation of the mouse dorsal raphe nucleus using array tomography. <i>Journal of Comparative Neurology</i> , 2011 , 519, 3802-14	3.4	30
131	A genetically defined morphologically and functionally unique subset of 5-HT neurons in the mouse raphe nuclei. <i>Journal of Neuroscience</i> , 2011 , 31, 2756-68	6.6	109
130	Repeated stress dysregulates μ opioid receptor signaling in the dorsal raphe through a p38 β MAPK-dependent mechanism. <i>Journal of Neuroscience</i> , 2012 , 32, 12325-36	6.6	44
129	Functional properties of dopamine neurons and co-expression of vasoactive intestinal polypeptide in the dorsal raphe nucleus and ventro-lateral periaqueductal grey. 2012 , 36, 3322-3332		38
128	Serotonin in the modulation of neural plasticity and networks: implications for neurodevelopmental disorders. 2012 , 76, 175-91		244
127	Forebrain GABAergic projections from the dorsal raphe nucleus identified by using GAD67-GFP knock-in mice. <i>Journal of Comparative Neurology</i> , 2012 , 520, 4157-67	3.4	47
126	Involvement of descending serotonergic and noradrenergic pathways in CB1 receptor-mediated antinociception. 2012 , 38, 97-105		35
125	Drug targets: single-cell transcriptomics hastens unbiased discovery. 2012 , 33, 9-16		24
124	Distinct populations of GABAergic neurons in mouse rhombomere 1 express but do not require the homeodomain transcription factor PITX2. 2012 , 49, 32-43		10
123	Distinct neurochemical and functional properties of GAD67-containing 5-HT neurons in the rat dorsal raphe nucleus. <i>Journal of Neuroscience</i> , 2012 , 32, 14415-26	6.6	41
122	Probing the diversity of serotonin neurons. 2012 , 367, 2382-94		121
121	Serotonin and Anxiety. 2012 ,		11

120 Topographic Organization of DRN. **2012**, 87-103

119 Serotonin in the Nervous System of Vertebrates. **2012**, 15-36

4

118 Systemic paracetamol-induced analgesic and antihyperalgesic effects through activation of descending serotonergic pathways involving spinal 5-HT₁ receptors. **2012**, 677, 93-101

59

117 Feeding behaviour after injection of β adrenergic receptor agonists into the median raphe nucleus of food-deprived rats. **2012**, 105, 220-9

7

116 Electrophysiological and pharmacological properties of GABAergic cells in the dorsal raphe nucleus. **2013**, 63, 147-54

36

115 Serotonin neuron diversity in the dorsal raphe. **2013**, 4, 22-5

35

114 Raphe GABAergic neurons mediate the acquisition of avoidance after social defeat. *Journal of Neuroscience*, **2013**, 33, 13978-88, 13988a

6.6 129

113 Large GABAergic neurons form a distinct subclass within the mouse dorsal cortex of the inferior colliculus with respect to intrinsic properties, synaptic inputs, sound responses, and projections. *Journal of Comparative Neurology*, **2013**, 521, 189-202

3.4 33

112 Changes in brainstem serotonergic and dopaminergic cell populations in experimental and clinical Huntington's disease. **2013**, 238, 71-81

21

111 Neurokinin-1 receptor-expressing neurons that contain serotonin and gamma-aminobutyric acid in the rat rostroventromedial medulla are involved in pain processing. **2013**, 14, 778-92

21

110 Development of the serotonergic cells in murine raphe nuclei and their relations with rhombomeric domains. **2013**, 218, 1229-77

80

109 Lmx1b controls peptide phenotypes in serotonergic and dopaminergic neurons. **2013**, 45, 345-52

5

108 Presynaptic gating of excitation in the dorsal raphe nucleus by GABA. *Proceedings of the National Academy of Sciences of the United States of America*, **2013**, 110, 15800-5

11.5 35

107 Distinct features of neurotransmitter systems in the human brain with focus on the galanin system in locus coeruleus and dorsal raphe. *Proceedings of the National Academy of Sciences of the United States of America*, **2013**, 110, E536-45

11.5 48

106 Subset specification of central serotonergic neurons. **2013**, 7, 200

16

105 Modulation of firing and synaptic transmission of serotonergic neurons by intrinsic G protein-coupled receptors and ion channels. **2013**, 7, 40

40

104 Unraveling the architecture of the dorsal raphe synaptic neuropil using high-resolution neuroanatomy. **2014**, 8, 105

27

103 Neurochemical properties of BDNF-containing neurons projecting to rostral ventromedial medulla in the ventrolateral periaqueductal gray. **2014**, 8, 137
