

CITATION REPORT

List of articles citing

Association between polymorphisms in interleukin-17A and interleukin-17F genes and risks of gastric cancer

DOI: 10.1002/ijc.25027

International Journal of Cancer, 2010, 127, 86-92.

Source: <https://exaly.com/paper-pdf/48107735/citation-report.pdf>

Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
108	IL-17A and IL-17F gene expression is strongly induced in the mucosa of <i>H. pylori</i> -infected subjects from Kenya and Germany. 2010 , 72, 522-8		14
107	Aberrant DNA methylation of cancer-associated genes in gastric cancer in the European Prospective Investigation into Cancer and Nutrition (EPIC-EURGAST). 2011 , 311, 85-95		56
106	IL-17F deficiency inhibits small intestinal tumorigenesis in <i>ApcMin/+</i> mice. 2011 , 414, 31-6		39
105	The role of interleukin DNA polymorphisms in gastric cancer. 2011 , 72, 1128-36		54
