#	ARTICLE	IF	CITATIONS
610	Carbon emissions from buildings based on a life cycle analysis: carbon reduction measures and effects of green building standards in China. , 2023, 1, .		1
611	A procedure set to construct the optimal energy saving retrofit strategy for old residential buildings in China. Journal of Renewable and Sustainable Energy, 2023, 15, .	0.8	4
612	A review of approaches and applications in building stock energy and indoor environment modelling. Building Services Engineering Research and Technology, 2023, 44, 333-354.	0.9	10
613	Effect of Block Morphology on Building Energy Consumption of Office Blocks: A Case of Wuhan, China. Buildings, 2023, 13, 768.	1.4	3
614	A review of residential building archetypes and their applications to study building energy consumption. Architectural Science Review, 2023, 66, 187-200.	1.1	1
615	Data-driven urban building energy models for the platform of Toronto. Energy Efficiency, 2023, 16, .	1.3	1
620	Methodology for integrated building energy modeling and impact assessment of urban energy system scenarios. , 2022, , .		0
648	Simulation of EU building stock energy performance through artificial neural networks. , 2023, , .		0
668	Data-Driven Decision-Making Framework for Cost-Efficient Energy Retrofit of Italian Residential Building Stock. Lecture Notes in Networks and Systems, 2024, , 521-541.	0.5	0
