Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
200	Women's views and experiences of a patient preference trial in surgery: a qualitative study of the CARPET1 trial. 2010 , 7, 696-704		25
199	Co-enrollment in multiple HIV prevention trials - experiences from the CAPRISA 004 Tenofovir gel trial. 2011 , 32, 333-8		22
198	Assessing research participants' perceptions of their clinical research experiences. 2011 , 4, 403-13		55
197	Forging convictions: the effects of active participation in a clinical trial. 2011 , 72, 2041-8		32
196	Personal experiences of taking part in clinical trials - a qualitative study. 2011 , 84, 303-9		50
195	Personal benefit, or benefiting others? Deciding whether to take part in clinical trials. 2011 , 8, 85-93		75
194	Appealing to altruism is not enough: motivators for participating in health services research. 2012 , 7, 84-90		21
193	Reasons for non-participation in an international multicenter trial of a new drug for tuberculosis treatment. 2012 , 16, 480-5		5
192	Reply from Authors re: Ricarda M. Bauer. Female Slings: Where Do We Stand? Eur Urol 2012;62:852B: Synthetic Midurethral Slings Stand Firmly on Solid Ground as a Surgical Treatment for Stress Urinary Incontinence in Women. 2012 , 62, 853-854		1
191	Motivators and barriers influencing willingness to participate in candidate HCV vaccine trials: perspectives of people who inject drugs. 2012 , 123, 35-40		16
190	Motivational assessment of non-treatment buprenorphine research participation in heroin dependent individuals. 2012 , 123, 173-9		2
189	Cancer patients' fears related to clinical trial participation: a qualitative study. 2012 , 27, 257-62		26
188	Why don't women participate? A qualitative study on non-participation in a surgical randomised controlled trial. 2013 , 24, 969-75		13
187	Sharing individual level data from observational studies and clinical trials: a perspective from NHLBI. <i>Trials</i> , 2013 , 14, 201	2.8	32
186	Motives for participating in a clinical research trial: a pilot study in Brazil. 2013 , 13, 19		31
185	Why families choose not to participate in research: feedback from non-responders. 2013 , 49, 57-62		22
184	Drivers and barriers to patient participation in RCTs. 2013 , 108, 1402-7		59

- 21 Feasibility Trial of Yoga Programme for Type 2 Diabetes Prevention (YOGA-DP) among High-Risk People in India: A Qualitative Study to Explore Participants' Trial- and Intervention-Related Barriers and Facilitators.. **2022**, 19, ○
- 20 The ethical anatomy of payment for research participants. ○
- 19 Comparing the effects of a patient-designed-and-informed participant information leaflet in comparison with a standard, researcher-designed information leaflet on recruitment, retention and understanding: A study-within-a-trial. **2022**, 100936
- 18 Decision making in a clinical trial for a life-threatening illness: Therapeutic expectation, not misconception. **2022**, 305, 115082 ○
- 17 Studies within a trial priorities to improve the evidence to inform recruitment and retention practice in clinical trials. 263208432211069
- 16 Recruiting and retaining participants in three randomised controlled trials of psychological interventions conducted on acute psychiatric wards: top ten tips for success. **2022**, 8, ○
- 15 Enhancing opportunistic recruitment and retention in primary care trials: lessons learned from a qualitative study embedded in the Cranberry for Urinary Tract Infection (CUTI) feasibility trial. **2022**, 23,
- 14 S1100pioid-free analgesia after outpatient general surgery: A qualitative study focused on the perspectives of patients and clinicians involved in a pilot trial.
- 13 Increasing physician participation as subjects in scientific and quality improvement research. **2022**, 23,
- 12 The Acceptability of Emergency Cervical Cerclage within a Randomised Controlled Trial for cervical dilatation with exposed membranes at 16 27+6 weeks gestation: Findings from a Qualitative Process Evaluation of the C-STICH2 Pilot Trial. **2022**, ○
- 11 Acceptability of integrating smoking cessation treatment into routine care for people with mental illness: A qualitative study. ○
- 10 Photobiomodulation in the management of oral mucositis for adult head and neck cancer patients receiving irradiation: the LiTEFORM RCT. **2022**, 26, 1-172 1
- 9 Informed health choices essays. 3.2: Expected advantages should outweigh expected disadvantages. 014107682211407 ○
- 8 Parental Views of Facilitators and Barriers to Research Participation: Systematic Review. ○
- 7 Can HIV vaccines be shared fairly? Perspectives from Tanzania. **2022**, 23, ○
- 6 Primary care patients' experiences of video consultations for depression and anxiety: a qualitative interview study embedded in a randomized feasibility trial. **2023**, 23, ○
- 5 Factors influencing participation in randomised clinical trials among patients with early Barrett's neoplasia: a multicentre interview study. **2023**, 13, e064117 ○
- 4 Factors related to eczema clinical trial participation among adult patients and caregivers. **2023**, 33, 101138 ○

- 3 Primary and secondary data in emergency medicine health services research: a comparative analysis in a regional research network on multimorbid patients. **2023**, 23,
- 2 Public reporting of clinical trial findings as an ethical responsibility to participants: a qualitative study. **2023**, 13, e068221
- 1 Recruitment to a trial of antipsychotic reduction: impact of an acceptability study. **2023**, 23,
