

CITATION REPORT

List of articles citing

Genome-wide meta-analysis increases to 71 the number of confirmed Crohn's disease susceptibility loci

DOI: 10.1038/ng.717

Nature Genetics, 2010, 42, 1118-25.

Version: 2024-04-09

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
