

CITATION REPORT

List of articles citing

Geostatistical inference under preferential sampling

DOI: 10.1111/j.1467-9876.2009.00701.x

Journal of the Royal Statistical Society Series C:
Applied Statistics, 2010, 59, 191-232.

Source: <https://exaly.com/paper-pdf/48539896/citation-report.pdf>

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
215	Modeling large scale species abundance with latent spatial processes. <i>Annals of Applied Statistics</i> , 2010 , 4,	2.1	36
214	Standardizing blue ling landings per unit effort from industry haul-by-haul data using generalized additive models. 2010 , 67, 1650-1658		16
213	Adaptive Gaussian Predictive Process Models for Large Spatial Datasets. 2011 , 22, 997-1007		30
212	Bayesian geostatistical modelling with informative sampling locations. 2011 , 98, 35-48		52
211	Visualizing Marked Spatial and Origin-Destination Point Patterns With Dynamically Linked Windows. 2012 , 21, 134-154		5
210	A toolbox for fitting complex spatial point process models using integrated nested Laplace approximation (INLA). <i>Annals of Applied Statistics</i> , 2012 , 6,	2.1	91
209	Random Marked Sets. 2012 , 44, 603-616		6
208	Nonparametric Bayesian Segmentation of a Multivariate Inhomogeneous Space-Time Poisson Process. 2012 , 7, 813-840		4
207	On the Effect of Preferential Sampling in Spatial Prediction. 2012 , 23, 565-578		35
206	Spatial statistics [A watery business. <i>Spatial Statistics</i> , 2012 , 1, 121-132	2.2	3
205	Random Marked Sets. 2012 , 44, 603-616		10
204	Confounding and exposure measurement error in air pollution epidemiology. 2012 , 5, 203-216		142
203	Comparative interpretation of count, presence-absence and point methods for species distribution models. <i>Methods in Ecology and Evolution</i> , 2012 , 3, 177-187	7.7	165
202	Detecting and cleaning outliers for robust estimation of variogram models in insect count data. 2012 , 27, 1-13		6
201	Co-simulating Total and Soluble Copper Grades in an Oxide Ore Deposit. 2012 , 44, 27-46		12
200	Bayesian computing with INLA: New features. 2013 , 67, 68-83		273
199	Incorporating spatial variability within epidemiological studies of environmental exposures. 2013 , 22, 65-74		5

198	A nonparametric spatial model for periodontal data with non-random missingness. 2013 , 108,		15
197	Large-scale Bayesian spatial modelling of air pollution for policy support. 2013 , 40, 777-794		10
196	Fitting complex ecological point process models with integrated nested Laplace approximation. <i>Methods in Ecology and Evolution</i> , 2013 , 4, 305-315	7.7	53
195	Space-time modelling of blue ling for fisheries stock management. 2013 , 24, 109-119		45
194	A model-based framework for air quality indices and population risk evaluation, with an application to the analysis of Scottish air quality data. <i>Journal of the Royal Statistical Society Series C: Applied Statistics</i> , 2013 , 62, 287-308	1.5	16
193	Optimized multi-phase sampling for soil remediation surveys. <i>Spatial Statistics</i> , 2013 , 4, 1-13	2.2	15
192	Quantile-based Bayesian maximum entropy approach for spatiotemporal modeling of ambient air quality levels. 2013 , 47, 1416-24		19
191	Testing CPUE-derived spatial occupancy as an indicator for stock abundance: application to deep-sea stocks. 2013 , 26, 319-332		6
190	Water Quality Assessment and European Water Framework Directive. 2013 ,		
189	Geostatistical modeling in the presence of interaction between the measuring instruments, with an application to the estimation of spatial market potentials. <i>Annals of Applied Statistics</i> , 2013 , 7,	2.1	1
188	Spatial models for point and areal data using Markov random fields on a fine grid. 2013 , 7,		13
187	Spatial health effects analysis with uncertain residential locations. 2014 , 23, 156-68		3
186	A spectral method for spatial downscaling. 2014 , 70, 932-42		16
185	A case study in preferential sampling: Long term monitoring of air pollution in the UK. <i>Spatial Statistics</i> , 2014 , 9, 51-65	2.2	24
184	Geographically weighted methods and their use in network re-designs for environmental monitoring. 2014 , 28, 1869-1887		16
183	Experimental Study on Estimation of Global Mean with Preferential Spatial Samples. 2014 , 20, 625-635		
182	The geographic distribution of onchocerciasis in the 20 participating countries of the African Programme for Onchocerciasis Control: (2) pre-control endemicity levels and estimated number infected. 2014 , 7, 326		84
