

CITATION REPORT

List of articles citing

Influence of vitamin E on alcohol-induced changes in antioxidant defenses in mice liver

DOI: 10.3109/15376510903559950

Toxicology Mechanisms and Methods, 2010, 20, 82-9.

Version: 2024-04-25

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
