Version: 2024-04-24

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

- 16 The Physicochemical Analysis and Anthocyanin Level of Malaysian Purple Sweet Potato Cracker. **2022**, 10, 1030-1045 ○
- 15 Highland Barley Starch: Structures, Properties, and Applications. **2023**, 12, 387 ○
- 14 Structure, thermal stability, and in vitro digestibility of rice starch-protein hydrolysate complexes prepared using different hydrothermal treatments. **2023**, 230, 123130 ○
- 13 Protein accessibility level affects macronutrient digestion kinetics of plant-based shakes. **2023**, 137, 108428 1
- 12 A Prospective Review on the Research Progress of Citric Acid Modified Starch. **2023**, 12, 458 1
- 11 Titanium dioxide-based optical sensors for detecting milk adulteration. **2023**, 105335 ○
- 10 Effect of sorbitol on the in vitro starch digestibility in semi-dried black highland barley noodles. **2023**, 236, 123959 ○
- 9 Variation in structural and in vitro starch digestion of pulse cotyledon cells imposed by temperature-pressure-moisture combinations. **2023**, 18, 100625 ○
- 8 Factors affecting starch digestibility rate of maize grain in poultry. **2023**, 79, 43-68 ○
- 7 Dough Rheological Properties and Macronutrient Bioavailability of Cereal Products Fortified through Legume Proteins. **2023**, 11, 417 ○
- 6 Minor millets: a review on nutritional composition, starch extraction/modification, product formulation, and health benefits. ○
- 5 Superheated steam processing of cereals and cereal products: A review. **2023**, 22, 1360-1386 ○
- 4 Yellow Mealworm (*Tenebrio molitor*) Powder Promotes a High Bioaccessible Protein Fraction and Low Glycaemic Index in Biscuits. **2023**, 15, 997 ○
- 3 Effect of variation in starch B-granule content in durum wheat on technological properties and in vitro starch digestion of spaghetti. ○
- 2 Plant-Derived Biomaterials and Their Potential in Cardiac Tissue Repair. ○
- 1 Effects of different starch structures on energy metabolism in pigs. ○
