

CITATION REPORT

List of articles citing

Monocytes in atherosclerosis: subsets and functions

DOI: 10.1038/nrcardio.2009.228

Nature Reviews Cardiology, 2010, 7, 77-86.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
675	Modified phospholipids as anti-inflammatory compounds. 2010 , 21, 525-9		34
674	Association between circulating monocyte subsets and in-stent restenosis after coronary stent implantation in patients with ST-elevation myocardial infarction. 2010 , 74, 2585-91		32
673	The multiple roles of monocyte subsets in steady state and inflammation. 2010 , 67, 2685-93		90
672	The functional expression of calcium-sensing receptor in the differentiated THP-1 cells. 2010 , 342, 233-40		18
671	Eriodictyol decreases very late antigen-4 (VLA-4) expression, cellular adhesion, and migration through an NFB-dependent pathway in monocytes. 2010 , 2, 263-270		2
670	Spatial and temporal coordination of bone marrow-derived cell activity during arteriogenesis: regulation of the endogenous response and therapeutic implications. 2010 , 17, 583-99		43
669	Anti-atherogenic effects of high-density lipoprotein on nitric oxide synthesis in the endothelium. 2010 , 37, 736-42		13
668	The nuclear hormone receptor PPAR α as a therapeutic target in major diseases. 2010 , 10, 2181-97		77
667	Lysosomes, cholesterol and atherosclerosis. 2010 , 5, 853-865		31
666	Toll-like receptor signaling: a potential link among rheumatoid arthritis, systemic lupus, and atherosclerosis. 2010 , 88, 253-62		54
665	Inhibition of collar-induced carotid atherosclerosis by recombinant apoA-I cysteine mutants in apoE-deficient mice. 2010 , 51, 3434-42		13
664	Monocytes: protagonists of infarct inflammation and repair after myocardial infarction. 2010 , 121, 2437-45		546
663	Low-intensity exercise enhances expression of markers of alternative activation in circulating leukocytes: roles of PPAR α and Th2 cytokines. 2010 , 212, 668-73		62
662	The activation of CD14, TLR4, and TLR2 by mmLDL induces IL-1 β , IL-6, and IL-10 secretion in human monocytes and macrophages. 2010 , 9, 117		54
661	Early identification of atherosclerotic disease by noninvasive imaging. <i>Nature Reviews Cardiology</i> , 2010 , 7, 327-33	14.8	29
660	The transcription factor NR4A1 (Nur77) controls bone marrow differentiation and the survival of Ly6C ⁺ monocytes. 2011 , 12, 778-85		417
659	CD14 ^{dim} CD16 ⁺ and CD14 ⁺ CD16 ⁺ monocytes in obesity and during weight loss: relationships with fat mass and subclinical atherosclerosis. 2011 , 31, 2322-30		170

658	Monocyte and macrophage dynamics during atherogenesis. 2011 , 31, 1506-16		390
657	Novel inflammatory mechanisms of accelerated atherosclerosis in kidney disease. 2011 , 80, 453-63		55
656	CD14++CD16+ monocytes and cardiovascular outcome in patients with chronic kidney disease. <i>European Heart Journal</i> , 2011 , 32, 84-92	9.5	228
