Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
284	Alanine aminotransferase as a predictor of adverse perinatal outcomes in women with intrahepatic cholestasis of pregnancy. 2016 , 32, 418-22		2
283	Outcomes of severe pregnancy-related liver disease: refining the role of transplantation. 2010 , 10, 2520-6		62
