Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
450	New robustness theorem with application to adaptive control of nonlinear systems with input/output delays. 2011 ,		7
449	. 2011 ,		11
448	Exponential stability conditions for 2D continuous state-delayed systems. 2011 ,		6
447	Stability and L2 performance analysis of stochastic delayed neural networks. 2011 , 22, 1662-8		25
446	Current results and research trends in networked control systems. 2011 ,		2
445	Event-based control with communication delays. 2011 , 44, 3262-3267		7
444	Responsible eigenvalue concept for the stability of a class of single-delay consensus dynamics with fixed topology. 2011 , 5, 622-629		30
443	Stability and stabilization of 2D continuous state-delayed systems. 2011 ,		4
442	An algebraic approach to design observers for delay-independent stability of systems with single output delay. 2011 ,		2
441	A reduction method of steady-state errors in time-delay systems with communication disturbance observer. 2011 ,		4
440	Robust stability of time-delay systems with structured uncertainties: A \mathcal{H}_∞ analysis based algorithm. 2011 ,		3
439	A design method of time-delay systems with communication disturbance observer by using Padé approximation. 2012 ,		9
438	Partial synchronization in diffusively time-delay coupled oscillator networks. 2012 , 22, 043144		30
437	Rules and limitations of building delay-tolerant topologies for coupled systems. 2012 , 85, 016104		13
436	Network coordination and synchronization in a noisy environment with time delays. 2012 , 86, 056114		21
435	. 2012 ,		8
434	An LMI based approach to passivity analysis and robust passification of uncertain neutral systems with time varying delays. 2012 ,		1

433	Delay-dependent stabilization of a class of nonlinear time-delay systems with time-varying input and state delays. 2012,	
432	Lyapunov-based control of an uncertain Euler-Lagrange system with time-varying input delay. 2012,	18
431	Model-free approach to controlling nonlinear systems with single output delay. 2012,	1
430	RISE-Based Adaptive Control of a Control Affine Uncertain Nonlinear System With Unknown State Delays. 2012, 57, 255-259	43
429	. 2012,	
428	A Review of Some Subtleties of Practical Relevance for Time-Delay Systems of Neutral Type. 2012, 2012, 1-46	41
427	Generalized solutions to hybrid systems with delays. 2012,	9
426	Critical parameters of integral systems with a class of analytic kernels*. 2012, 45, 248-253	
425	On Decomposition Frequency-Sweeping Test for a Class of Time-Delay Systems. Part I: Simple Imaginary Roots Case. 2012, 45, 132-137	3
424	The Lambert W Function Approach to Time Delay Systems and the LambertW_DDE Toolbox. 2012, 45, 114-119	10
423	On the use of the Wirtinger inequalities for time-delay systems. 2012, 45, 260-265	42
422	Analytical Boundaries of Controller Gains for Delay-independent Stability of LTI Systems with Single Output Delay. 2012, 45, 225-230	2
421	Reference governor design with guarantees of detection for delay variation. 2012, 45, 67-72	2
420	On Decomposition Frequency-Sweeping Test for a Class of Time-Delay Systems. Part II: Multiple Roots Case. 2012, 45, 138-143	3
419	Stability Criterion for a Single Decision-Making Node in Decentralized Material Handling Systems. 2012, 45, 320-327	1
418	Stability of interval time-varying delay systems with nonlinear perturbations: An improved result. 2012,	1
417	Configurations and modelling of networked feedforward-feedback control systems. 2012,	
416	Model-Based Control of continuous-time and discrete-time systems with large network induced delays. 2012,	0

415	Dissipativity criterion for linear systems with a coupling delay and asymptotically positive realness constraint. 2012,		
414	Leader-follower string formation using cascade control for mobile robots. 2012,		5
413	RISE-based control of an uncertain nonlinear system with time-varying state delays. 2012,		5
412	A predictive control scheme for systems with variable time-delay. <i>International Journal of Control,</i> 2012, 85, 915-932	1.5	21
411	Delay-Independent Stability Test for Systems With Multiple Time-Delays. 2012, 57, 963-972		56
410	Robust Stability of Time-Varying Delay Systems: The Quadratic Separation Approach. <i>Asian Journal of Control,</i> 2012, 14, 1205-1214	1.7	14
409	Stability switches and double Hopf bifurcation in a two-neural network system with multiple delays. 2013, 7, 505-21		29
408	Saturated control of an uncertain nonlinear system with input delay. 2013, 49, 1741-1747		61
407	Controller design for delay-independent stability of linear time-invariant vibration systems with multiple delays. <i>Journal of Sound and Vibration,</i> 2013, 332, 3589-3604	3.9	16
406	Complete stability of linear time-delay systems: A new frequency-sweeping frequency approach. 2013,		2
405	Delay-induced oscillations in Wilson and Cowan's model: an analysis of the subthalamo-pallidal feedback loop in healthy and parkinsonian subjects. 2013, 107, 289-308		32
404	Pole assignment using state feedback with time delay in friction-induced vibration problems. 2013, 224, 645-656		23
403	A Linear Time-Invariant Consensus Dynamics with Homogeneous Delays: Analytical Study and Synthesis of Rightmost Eigenvalues. 2013, 51, 3971-3992		14
402	Wirtinger-based integral inequality: Application to time-delay systems. 2013, 49, 2860-2866		1344
401	Preliminary results on output tracking control for restricted-feedback linearizable systems with input delay. 2013,		2
400	Emulation of a highway bottleneck using leader-follower formation control. 2013,		3
399	Analysis on robust . 2013, 224, 108-122		53
398	Synchronous states in time-delay coupled periodic oscillators: A stability criterion. 2013, 18, 2142-2152		6

397	Analysis of potential instabilities in agent-based smart grid control systems. 2013,		6
396	Stability radius as a method for comparing the dynamics of neuromechanical systems. 2013, 21, 840-8		13
395	Encyclopedia of Systems and Control. 2013, 1-1		
394	Estimator design for a subsonic rocket car (soft landing) based on state-dependent delay measurement. 2013,		10
393	New synchronization criteria for fuzzy complex dynamical network with time-varying delay. 2013,		1
392	Disturbance-attenuation characteristic of a structure of time-delay system with communication disturbance observer. 2013,		0
391	Bessel inequality for robust stability analysis of time-delay system. 2013,		5
