

# Impacts of selective logging on above-ground forest bio Gabon

Forest Ecology and Management

262, 1799-1806

DOI: [10.1016/j.foreco.2011.07.014](https://doi.org/10.1016/j.foreco.2011.07.014)

Citation Report

#	ARTICLE	IF	CITATIONS
1	Effects of selective logging on tree species diversity and composition of Bornean tropical rain forests at different spatial scales. <i>Plant Ecology</i> , 2012, 213, 1413-1424.	0.7	55
2	Sustaining conservation values in selectively logged tropical forests: the attained and the attainable. <i>Conservation Letters</i> , 2012, 5, 296-303.	2.8	439
3	Helping curb tropical forest degradation by linking REDD+ with other conservation interventions: a view from the forest. <i>Current Opinion in Environmental Sustainability</i> , 2012, 4, 670-677.	3.1	21
4	Cost comparisons of reduced-impact and conventional logging in the tropics. <i>Journal of Forest Economics</i> , 2012, 18, 242-256.	0.1	40
5	Estimating damage from selective logging and implications for tropical forest management. <i>Canadian Journal of Forest Research</i> , 2012, 42, 605-613.	0.8	34
6	Tropical forest recovery from logging: a 24 year silvicultural experiment from Central Africa. <i>Philosophical Transactions of the Royal Society B: Biological Sciences</i> , 2013, 368, 20120302.	1.8	110
7	The State of Research on Effectiveness and Equity (2Es) in Forests Management Regimes in Cameroon and Its Relevance for REDD+. <i>Environment and Natural Resources Research</i> , 2013, 3, .	0.1	1
8	Sustainable Deforestation Evaluation Model and System Dynamics Analysis. <i>Scientific World Journal</i> , The, 2014, 2014, 1-14.	0.8	8
9	Carbon emissions performance of commercial logging in East Kalimantan, Indonesia. <i>Global Change Biology</i> , 2014, 20, 923-937.	4.2	70
10	Natural regeneration of selected timber species in the Republic of Congo. <i>African Journal of Ecology</i> , 2014, 52, 552-563.	0.4	8
11	Carbon emissions from tropical forest degradation caused by logging. <i>Environmental Research Letters</i> , 2014, 9, 034017.	2.2	101
12	Forest biomass recovery after conventional and reduced-impact logging in Amazonian Brazil. <i>Forest Ecology and Management</i> , 2014, 314, 59-63.	1.4	76
13	Assessment and prediction of above-ground biomass in selectively logged forest concessions using field measurements and remote sensing data: Case study in South East Cameroon. <i>Forest Ecology and Management</i> , 2014, 329, 177-185.	1.4	14
14	Opportunity costs of carbon sequestration in a forest concession in central Africa. <i>Carbon Balance and Management</i> , 2014, 9, 4.	1.4	16
15	Effects of elevation and land use on the biomass of trees, shrubs and herbs at Mount Kilimanjaro. <i>Ecosphere</i> , 2015, 6, 1-15.	1.0	106
16	Impacts of tropical selective logging on carbon storage and tree species richness: A meta-analysis. <i>Forest Ecology and Management</i> , 2015, 356, 224-233.	1.4	79
17	Tree-based approach to evaluate size dependence of residual tree damage caused by selective logging: Case study in tropical semi-evergreen forests of Cambodia. <i>Forest Ecology and Management</i> , 2015, 356, 285-292.	1.4	10
18	The impact of selective logging and clearcutting on forest structure, tree diversity and above-ground biomass of African tropical forests. <i>Ecological Research</i> , 2015, 30, 119-132.	0.7	122
