

# CITATION REPORT

List of articles citing

The effect of cesarean delivery rates on the future incidence of placenta previa, placenta accreta, and maternal mortality

DOI: 10.3109/14767058.2011.553695

Journal of Maternal-Fetal and Neonatal Medicine, 2011, 24, 1341-6.

**Source:** <https://exaly.com/paper-pdf/50288524/citation-report.pdf>

**Version:** 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
