Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
313	Delayed neurobehavioral development in children born to pregnant women with mild hypothyroxinemia during the first month of gestation: the importance of early iodine supplementation. 2009 , 19, 511-9		273
312	Potential Risks of Phthalate Esters: Acquisition of Endocrine-disrupting Activity during Environmental and Metabolic Processing. 2011 , 57, 497-503		34
311	Prenatal exposure to bisphenol A and phthalates and infant neurobehavior. 2011 , 33, 558-66		143
310	Impact of early-life bisphenol A exposure on behavior and executive function in children. 2011 , 128, 873-82		421
309	Prenatal exposure to phthalates and infant development at 6 months: prospective Mothers and Children's Environmental Health (MOCEH) study. 2011 , 119, 1495-500		181
308	Prenatal bisphenol a exposure and child behavior in an inner-city cohort. 2012 , 120, 1190-4		244
307	A research strategy to discover the environmental causes of autism and neurodevelopmental disabilities. 2012 , 120, a258-60		163
306	Variability of urinary phthalate metabolite and bisphenol A concentrations before and during pregnancy. 2012 , 120, 739-45		242
305	Maternal prenatal urinary phthalate metabolite concentrations and child mental, psychomotor, and behavioral development at 3 years of age. 2012 , 120, 290-5		206
304	Effects of 4-nonylphenol and/or diisononylphthalate on THP-1 cells: impact of endocrine disruptors on human immune system parameters. 2012 , 25, 365-76		28
303	Di-n-butyl phthalate (DnBP) and diisobutyl phthalate (DiBP) metabolism in a human volunteer after single oral doses. 2012 , 86, 1829-39		161
302	Lifestyle behaviors associated with exposures to endocrine disruptors. <i>NeuroToxicology</i> , 2012 , 33, 1427-1433	4.33	56
301	Predictors of virtual radial arm maze performance in adolescent Italian children. <i>NeuroToxicology</i> , 2012 , 33, 1203-11	4.4	9
300	Endocrine disrupting compounds, gonadal hormones, and autism. 2012 , 54, 1068		11
299	Estimation of contamination of atmosphere of Moscow in winter. 2012 , 67, 1039-1049		24
298	Phthalates: Human Exposure and Related Health Effects. 2012 , 415-443		4
297	Endocrine disruptors: a review of some sources, effects, and mechanisms of actions on behaviour and neuroendocrine systems. 2012 , 24, 144-59		273

296	Biomarkers of endocrine disruption: cluster analysis of effects of plasticisers on Phase 1 and Phase 2 metabolism of steroids. 2012 , 35, 415-23	3
295	Does perinatal exposure to endocrine disruptors induce autism spectrum and attention deficit hyperactivity disorders? Review. 2012 , 101, 811-8	130
294	Estrogenic involvement in social learning, social recognition and pathogen avoidance. 2012 , 33, 140-59	60
