

Is earlier administration of human chorionic gonadotropin
increases the probability of a pregnancy in cycles stimulated with recombinant follicle-stimulating hormone and gonadotropin-releasing hormone (GnRH)
agonist in a randomized trial

Fertility and Sterility

96, 1112-1115

DOI: [10.1016/j.fertnstert.2011.08.029](https://doi.org/10.1016/j.fertnstert.2011.08.029)
