

CITATION REPORT

List of articles citing

The role of gut microbiota (commensal bacteria) and the mucosal barrier in the pathogenesis of inflammatory and autoimmune diseases and cancer: contribution of germ-free and gnotobiotic animal models of human diseases

DOI: 10.1038/cmi.2010.67

Cellular and Molecular Immunology, 2011, 8, 110-20.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
537	Unraveling the ties between celiac disease and intestinal microbiota. 2011 , 30, 207-18		109
536	Contribution of gut microbiota to colonic and extracolonic cancer development. 2011 , 29, 554-61		40
535	Lysate of probiotic <i>Lactobacillus casei</i> DN-114 001 ameliorates colitis by strengthening the gut barrier function and changing the gut microenvironment. 2011 , 6, e27961		127
534	Review article: colorectal neoplasia in patients with primary sclerosing cholangitis and inflammatory bowel disease. 2011 , 34, 497-508		78
533	The role of innate immune-stimulated epithelial apoptosis during gastrointestinal inflammatory diseases. 2011 , 68, 3623-34		38
532	Colonic microbiota alters host susceptibility to infectious colitis by modulating inflammation, redox status, and ion transporter gene expression. 2011 , 301, G39-49		109
531	Epigenetic control of the host gene by commensal bacteria in large intestinal epithelial cells. 2011 , 286, 35755-35762		121
530	Current world literature. 2012 , 19, 142-7		
529	Special issue: gut microbial communities in health and disease. 2012 , 3, 277-8		2
528	Comparative evaluation of establishing a human gut microbial community within rodent models. 2012 , 3, 234-49		78
527	Regulation of immunity and disease resistance by commensal microbes and chromatin modifications during zebrafish development. 2012 , 109, E2605-14		130
526	Gut Microbiomes: Impact on Health in Pediatrics. 2012 , 4, 264-267		
525	Metabolomics view on gut microbiome modulation by polyphenol-rich foods. 2012 , 11, 4781-90		172
524	The intestinal microbiota in the rat model: major breakthroughs from new technologies. 2012 , 13, 54-63		23
523	Use of laboratory studies for the design, explanation, and validation of human micronutrient intervention studies. 2012 , 142, 157S-60S		3
522	The biological role of inflammation in atherosclerosis. 2012 , 28, 631-41		124
521	Composition of the adult digestive tract bacterial microbiome based on seven mouth surfaces, tonsils, throat and stool samples. 2012 , 13, R42		572
