

CITATION REPORT

List of articles citing

MicroRNA let-7a represses chemoresistance and tumourigenicity in head and neck cancer via stem-like properties ablation

DOI: 10.1016/j.oraloncology.2010.12.001
Oral Oncology, 2011, 47, 202-10.

Version: 2024-04-24

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.
