

CITATION REPORT

List of articles citing

The lateral hypothalamus as integrator of metabolic and environmental needs: from electrical self-stimulation to opto-genetics

DOI: 10.1016/j.physbeh.2011.04.051
Physiology and Behavior, 2011, 104, 29-39.

Version: 2024-04-28

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
189	Gene expression analysis in the parvalbumin-immunoreactive PV1 nucleus of the mouse lateral hypothalamus. 2011 , 34, 1934-43		22
188	Neuroanatomy of melanocortin-4 receptor pathway in the lateral hypothalamic area. <i>Journal of Comparative Neurology</i> , 2012 , 520, 4168-83	3.4	55
187	Is compassion a part of the non-specific effects of acupuncture?. 2012 , 1, 10-14		
186	Hindbrain neurons as an essential hub in the neuroanatomically distributed control of energy balance. 2012 , 16, 296-309		297
185	A new control center for dopaminergic systems: pulling the VTA by the tail. 2012 , 35, 681-90		151
184	Modulation of taste responsiveness and food preference by obesity and weight loss. <i>Physiology and Behavior</i> , 2012 , 107, 527-32	3.5	81
183	Contribution of the mesolimbic dopamine system in mediating the effects of leptin and ghrelin on feeding. 2012 , 71, 435-45		50
182	Tuberal hypothalamic neurons secreting the satiety molecule Nesfatin-1 are critically involved in paradoxical (REM) sleep homeostasis. <i>PLoS ONE</i> , 2012 , 7, e52525	3.7	39
181	Brain orexin promotes obesity resistance. 2012 , 1264, 72-86		66
180	The lateral hypothalamic parvalbumin-immunoreactive (PV1) nucleus in rodents. <i>Journal of Comparative Neurology</i> , 2012 , 520, 798-815	3.4	40
179	Mu-opioid stimulation in rat prefrontal cortex engages hypothalamic orexin/hypocretin-containing neurons, and reveals dissociable roles of nucleus accumbens and hypothalamus in cortically driven feeding. 2013 , 33, 18540-52		49
178	Cocaine disinhibits dopamine neurons by potentiation of GABA transmission in the ventral tegmental area. 2013 , 341, 1521-5		205
177	Animal Models and Methods to Study the Relationships Between Brain and Tissues in Metabolic Regulation. 2013 , 569-593		
176	The inhibitory circuit architecture of the lateral hypothalamus orchestrates feeding. 2013 , 341, 1517-21		300
175	Hypothalamic melanin-concentrating hormone projections to the septo-hippocampal complex in the rat. 2013 , 47, 1-14		18
174	Delta-like 1 homologue is a hypothalamus-enriched protein that is present in orexin-containing neurones of the lateral hypothalamic area. <i>Journal of Neuroendocrinology</i> , 2013 , 25, 617-25	3.8	17
173	A unified survival theory of the functioning of the hypocretinergic system. 2013 , 115, 954-71		20

172	Involvements of the lateral hypothalamic area in gastric motility and its regulation by the lateral septum. 2013 , 194, 275-85		21
171	Opioids in the perifornical lateral hypothalamus suppress ethanol drinking. 2013 , 47, 31-8		14
170	The hormonal signature of energy deficit: Increasing the value of food reward. 2013 , 2, 329-36		34
169	The organization of prefrontal-subthalamic inputs in primates provides an anatomical substrate for both functional specificity and integration: implications for Basal Ganglia models and deep brain stimulation. 2013 , 33, 4804-14		334
168	Obesity surgery: happy with less or eternally hungry?. 2013 , 24, 101-8		17
167	Lateral hypothalamus contains two types of palatability-related taste responses with distinct dynamics. 2013 , 33, 9462-73		40
166	Leptin receptor neurons in the mouse hypothalamus are colocalized with the neuropeptide galanin and mediate anorexigenic leptin action. 2013 , 304, E999-1011		69
165	Controlling feeding behavior by chemical or gene-directed targeting in the brain: what's so spatial about our methods?. <i>Frontiers in Neuroscience</i> , 2013 , 7, 182	5.1	16
164	A relationship between reduced nucleus accumbens shell and enhanced lateral hypothalamic orexin neuronal activation in long-term fructose bingeing behavior. <i>PLoS ONE</i> , 2014 , 9, e95019	3.7	19
163	Enhanced slow-wave EEG activity and thermoregulatory impairment following the inhibition of the lateral hypothalamus in the rat. <i>PLoS ONE</i> , 2014 , 9, e112849	3.7	18
162	LGR4 and its ligands, R-spondin 1 and R-spondin 3, regulate food intake in the hypothalamus of male rats. <i>Endocrinology</i> , 2014 , 155, 429-40	4.8	15
161	TDP-43 pathology in the basal forebrain and hypothalamus of patients with amyotrophic lateral sclerosis. 2014 , 2, 171		51
