Version: 2024-04-10

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
317	Importance of adherence and the role of nonfinancial barriers. <i>Clinical Therapeutics</i> , 2011 , 33, 1222-4	3.5	1
316	Methodological issues in the assessment of diabetes treatment adherence. 2011 , 11, 472-9		39
315	Coverage of insulin delivery devices and basal insulin analogs by US managed care organizations. 2011 , 14, 720-8		4
314	Diabetes's 'health shock' to schooling and earnings: increased dropout rates and lower wages and employment in young adults. 2012 , 31, 27-34		41
313	Pharmacy effect on adherence to antidiabetic medications. 2012 , 50, 685-91		16
312	Food insecurity, processes of care, and self-reported medication underuse in patients with type 2 diabetes: results from the California Health Interview Survey. 2012 , 47, 2159-68		44
311	Pharmacologic issues in management of chronic disease. 2012 , 39, 345-62		10
310	El incumplimiento en el tratamiento de la diabetes mellitus tipo 2 en España. 2012 , 29, 8-13		0
309	Adherence patterns in patients with type 2 diabetes on basal insulin analogues: missed, mistimed and reduced doses. 2012 , 28, 1933-46		46
308	Variability in hemoglobin A1c predicts all-cause mortality in patients with type 2 diabetes. 2012 , 26, 296-300		41
307	Analysis of Treatment Compliance of Patients with Diabetes. 2012 , 108-116		1
306	Associations between Joblessness and Oral Anti-diabetic Medication Adherence in US Diabetic Working-age Adults. 2012 , 3, e139-e151		3
305	Predictors of medication adherence in an urban Latino community with healthcare disparities. 2012 , 14, 589-95		13
304	Treatment of type 2 diabetes in the elderly. 2012 , 12, 239-45		10
303	The economic and clinical benefits of adequate insulin initiation and intensification in people with type 2 diabetes mellitus. 2012 , 14, 47-57		26
302	Lazy sunday afternoons: the negative impact of interruptions in patients' daily routine on adherence to oral antidiabetic medication. A multilevel analysis of electronic monitoring data. 2013 , 69, 1599-606		12
301	Real-world comparative outcomes of US type 2 diabetes patients initiating analog basal insulin therapy. 2013 , 29, 1083-91		30

300	Differences in rates of hypoglycemia and health care costs in patients treated with insulin aspart in pens versus vials. 2013 , 29, 1287-96	13
299	I. 2013 , 347-369	
298	Evidence that periodontal treatment improves diabetes outcomes: a systematic review and meta-analysis. 2013 , 84, S153-69	77
297	Effects of amyloid precursor protein 17 peptide on the protection of diabetic encephalopathy and improvement of glycol metabolism in the diabetic rat. 2013 , 2013, 689841	5
296	Hypoglycemia: The neglected complication. 2013 , 17, 819-34	121
295	Managed problem solving for antiretroviral therapy adherence: a randomized trial. 2013 , 173, 300-6	52
294	Longitudinal association between medication adherence and glycaemic control in Type 2 diabetes. 2013 , 30, 338-44	81
293	Non-adherence in type 2 diabetes: practical considerations for interpreting the literature. 2013 , 7, 183-9	50
292	Evidence that periodontal treatment improves diabetes outcomes: a systematic review and meta-analysis. 2013 , 40 Suppl 14, S153-63	74
291	Reliability and validity of a self-reported measure of medication adherence in patients with type 2 diabetes mellitus in Korea. 2013 , 41, 1098-110	38
290	The impact of diabetes mellitus and its control on the development of tuberculosis: a nationwide longitudinal study in Taiwan. 2013 , 22, 995-1003	5
289	Barriers to the delivery of diabetes care in the Middle East and South Africa: a survey of 1,082 practising physicians in five countries. 2013 , 67, 1144-50	12
288	Predictors of medication adherence in patients with type 2 diabetes mellitus. 2013 , 29, 1275-86	84
287	Real-world outcomes of US employees with type 2 diabetes mellitus treated with insulin glargine or neutral protamine Hagedorn insulin: a comparative retrospective database study. 2013 , 3,	32
286	Continuity of care, medication adherence, and health care outcomes among patients with newly diagnosed type 2 diabetes: a longitudinal analysis. 2013 , 51, 231-7	94
285	Adherence decision making in the everyday lives of emerging adults with type 1 diabetes. 2013 , 7, 709-18	32
284	Medication adherence issues in patients: focus on cost. 2013 , 33	5
283	Adherence in adults with type 1 diabetes mellitus correlates with treatment satisfaction but not with adverse events. 2013 , 7, 867-76	15

282	Cross-cultural adaptation of The Beliefs about Medicines Questionnaire into Portuguese. 2013 , 131, 88-94	26
281	Is adherence a relevant issue in the self-management education of diabetes? A mixed narrative review. 2014 , 7, 357-67	14
280	Impact of adherence and weight loss on glycemic control in patients with type 2 diabetes: cohort analyses of integrated medical record, pharmacy claims, and patient-reported data. 2014 , 20, 691-700	21
279	Impact of hypoglycemia on patients with type 2 diabetes mellitus and their quality of life, work productivity, and medication adherence. 2014 , 8, 683-92	59
278	Defining the role of medication adherence in poor glycemic control among a general adult population with diabetes. 2014 , 9, e108145	45
277	Clinical utility in the treatment of type 2 diabetes with the saxagliptin/metformin fixed combination. 2014 , 8, 227-36	4
276	Fixed-dose combination therapy in type 2 diabetes mellitus. 2014 , 20, 1322-32	18
275	Impact of symptomatic hypoglycemia on medication adherence, patient satisfaction with treatment, and glycemic control in patients with type 2 diabetes. 2014 , 8, 593-601	48
274	Meta-analysis of Telemonitoring to Improve HbA1c Levels: Promises for Stroke Survivors. 2014 , 01,	
273	Characteristics and practicalities of a new basal insulin. 2014 , 23, 16-20	2
272	Retrospective study of adherence to glucagon-like peptide-1 receptor agonist therapy in patients with type 2 diabetes mellitus in the United States. 2014 , 31, 1119-33	56
271	Improving medication adherence among patients with type 2 diabetes. 2014 , 27, 187-94	12
270	Impact of compliance to oral hypoglycemic agents on short-term disability costs in an employer population. 2014 , 17, 35-41	10
269	Medication adherence part one: understanding and assessing the problem. 2014 , 26, 49-55	13
268	Healthcare costs of the combination of metformin/dipeptidyl peptidase-4 inhibitors compared with metformin/other oral antidiabetes agents in patients with type 2 diabetes and metabolic syndrome. 2014 , 16, 722-7	4
267	Short- and long-term effects of real-time medication monitoring with short message service (SMS) reminders for missed doses on the refill adherence of people with Type 2 diabetes: evidence from a randomized controlled trial. 2014 , 31, 821-8	42
266	Retrospective analysis of long-term adherence to and persistence with DPP-4 inhibitors in US adults with type 2 diabetes mellitus. 2014 , 31, 1287-305	51
265	Factors affecting medication adherence: patient perspectives from five veterans affairs facilities. 2014 , 14, 533	24

264	Medication supply, healthcare outcomes and healthcare expenses: longitudinal analyses of patients with type 2 diabetes and hypertension. 2014 , 117, 374-81	7
263	Novel ultrasensitive non-enzymatic glucose sensors based on controlled flower-like CuO hierarchical films. 2014 , 199, 175-182	105
262	Polypharmacy in people with Type 1 and Type 2 diabetes is justified by current guidelines--a comprehensive assessment of drug prescriptions in patients needing inpatient treatment for diabetes-associated problems. 2014 , 31, 1078-85	36
261	Barriers to the delivery of optimal antidiabetic therapy in the Middle East and Africa. 2014 , 68, 503-11	7
260	Depression, Self-efficacy, and Adherence in Patients With Type 2 Diabetes. 2014 , 10, 646-652	29
