Version: 2024-04-26

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
620	A new starting method for 12/8-pole doubly salient permanent-magnet motors without position sensor. 2011 ,		4
619	Minimum copper loss fault-tolerant control of redundant flux-switching permanent-magnet motors. 2011 ,		2
618	Electrical generators for maritime application. 2011 ,		1
617	A Linear Doubly Salient Permanent-Magnet Motor With Modular and Complementary Structure. 2011 , 47, 4809-4821		41
616	Design and analysis of new fault-tolerant permanent magnet motors for four-wheel-driving electric vehicles. 2012 , 111, 07E713		13
615	High reliability linear drive device for artificial hearts. 2012 , 111, 07E729		10
614	A new tubular fault-tolerant permanent-magnet motor for active vehicle suspension. 2012 ,		5
613	Static characteristic of a novel stator surface-mounted permanent magnet machine for brushless DC drives. 2012 ,		0
612	Comparison Of Two Interior Permanent-Magnet Motors With Improved Fault-Tolerance. 2012 ,		2
611	Investigation of a New Topology of Hybrid Excitation Doubly Salient Brushless DC Generator. <i>IEEE Transactions on Industrial Electronics</i> , 2012 , 59, 2550-2556	8.9	66
610	Hybrid Excitation Topologies and Control Strategies of Stator Permanent Magnet Machines for DC Power System. <i>IEEE Transactions on Industrial Electronics</i> , 2012 , 59, 4601-4616	8.9	83
609	Control and operation of fault-tolerant flux-switching permanent-magnet motor drive with second harmonic current injection. 2012 , 6, 707		33
608	Comprehensive comparison of novel stator surface-mounted permanent magnet machines. 2012 ,		1
607	Performance Evaluation of a Vector-Control Fault-Tolerant Flux-Switching Motor Drive. <i>IEEE Transactions on Industrial Electronics</i> , 2012 , 1-1	8.9	33
606	Novel Modular-Rotor Switched-Flux Permanent Magnet Machines. 2012 , 48, 2249-2258		22
605	Design of a spoke-type permanent-magnet motor with optimal winding configuration for electric vehicle applications. 2012 , 111, 07E710		9
604	Modeling of a Complementary and Modular Linear Flux-Switching Permanent Magnet Motor for Urban Rail Transit Applications. 2012 , 27, 489-497		102

603	Design and Analysis of a New Fault-Tolerant Linear Permanent-Magnet Motor for Maglev Transportation Applications. 2012 , 22, 5200204-5200204		20
602	. 2012 , 48, 2374-2384		222
601	Comparison of five topologies rotor permanent magnet motors with improved fault-tolerance. 2013 ,		4
600	Design of Five-Phase Modular Flux-Switching Permanent-Magnet Machines for High Reliability Applications. 2013 , 49, 3941-3944		48
599	FPGA based speed control of Brushless DC Motors using IOPT Petri Net models. 2013 ,		5
598	Design and Analysis of a HTS Flux-Switching Machine for Wind Energy Conversion. 2013 , 23, 5000904-5000904	18	
597	Multi-phase fault-tolerant switched-flux permanent magnet motors having odd rotor pole number. 2013 ,		
596	Investigation and General Design Principle of a New Series of Complementary and Modular Linear FSPM Motors. <i>IEEE Transactions on Industrial Electronics</i> , 2013 , 60, 5436-5446	8.9	77
595	. 2013 , 49, 1493-1504		34
594	Simulation of the Linear Primary Permanent Magnet Vernier machine system for wave energy conversion. 2013 ,		1
593	. <i>IEEE Transactions on Industrial Electronics</i> , 2013 , 60, 2988-2996	8.9	30
592	Decoupling model based predictive torque control algorithm with low switching frequency for flux-switching permanent magnet synchronous machines. 2013 ,		0
591	Internal Model Control of Permanent Magnet Synchronous Motor Using Support Vector Machine Generalized Inverse. 2013 , 9, 890-898		59
590	Remedial Injected-Harmonic-Current Operation of Redundant Flux-Switching Permanent-Magnet Motor Drives. <i>IEEE Transactions on Industrial Electronics</i> , 2013 , 60, 151-159	8.9	95
589	High-Torque-Density High-Efficiency Flux-Switching PM Machine for Aerospace Applications. 2013 , 1, 327-336		30
588	A New Linear Double Salient Permanent Magnet Motor with Complementary Winding. 2013 , 416-417, 115-120		
587	Improved Model Based Predictive Torque Control Strategy with Fast Dynamic Response for Flux-Switching Permanent Magnet Machines. 2013 , 416-417, 704-710		1
586	Analytical-numerical hybrid model for flux-switching permanent magnet machines. 2013 ,		3

585	New model based predictive torque control algorithm in combination with duty ratio modulation strategy for flux-switching permanent magnet synchronous machines. 2013,	
584	Permanent magnet flux switching machines □Topologies, analysis and optimization. 2013,	17
583	Design and Analysis of a New Linear Fault-Tolerant Flux-Reversal Permanent-Magnet Machine. 2013, 416-417, 3-8	1
582	Design and analysis of linear fault-tolerant permanent-magnet vernier machines. 2014, 2014, 483080	3
581	Electromagnetic performances analysis of flux-intensifying permanent magnet synchronous machine with modular fractional slot concentrated windings. 2014,	
580	Novel external rotor switched flux memory motor with hybrid magnets. 2014,	
579	Design and modeling of three-phase tubular linear flux-switching permanent magnet motor. 2014,	2
578	Overview of recent advances in innovative electrical machines □With particular reference to magnetically geared switched flux machines. 2014,	23
577	Optimization and performance analysis of E-core and C-core flux-switching permanent-magnet machines for electric vehicle applications. 2014,	2
576	A compensation method for sequential current sampling in multi-phase AC motor control. 2014,	0
575	Design of a twelve-phase flux-switching permanent magnet machine for wind power generation. 2014,	5
574	Analysis of Linear Flux-Switching Permanent Magnet Motor Using Response Surface Methodology. 2014, 50, 1-4	18
573	The electromagnetic performance calculation and comparison of flux reversal machine with different winding topologies. 2014,	3
572	A novel space vector modulation strategy for a five-phase flux-switching permanent magnet motor drive system. 2014,	2
571	A Magnetless Axial-Flux Machine for Range-Extended Electric Vehicles. 2014, 7, 1483-1499	26
570	DC excited flux-switching motor: Rotor structural optimization. 2014,	2
569	A C-core linear flux-switching permanent magnet machine with positive additional teeth. 2014,	6
568	Improved model-based predictive torque control algorithm with modified modulation index for doubly salient permanent magnet synchronous machines. 2014,	1

567	Fault tolerant control of harmonic injected nine-phase flux switching permanent magnet motor drive system. 2014,		5
566	. 2014,		3
565	Control of a hybrid excitation machine with open-winding structure for hybrid electric vehicles. 2014,		2
564	Modeling and control of a novel dual-stator brushless doubly-fed wind power generation system. 2014,		3
563	Alternative stator for new brushless dual-rotor flux-switching permanent magnet motor for extended range electric vehicles. 2014,		4
562	Minimization the torque ripple of flux-switching permanent magnet motor based on iterative learning control. 2014,		3
561	Finite element analysis of a novel bearingless flux-switching permanent magnet motor with the single winding. 2014,		6
560	Analytical calculation of magnetic field and electromagnetic performance of flux reversal machines. 2014, 8, 178-188		16
559	Comparison of Flux Regulation Ability of the Hybrid Excitation Doubly Salient Machines. <i>IEEE Transactions on Industrial Electronics</i> , 2014, 61, 3155-3166	8.9	54
558	Design and Analysis of a New Linear Hybrid Excited Flux Reversal Motor With Inset Permanent Magnets. 2014, 50, 1-4		31
557	Control method of dual-channel hybrid excitation doubly salient starter/generator. 2014,		1
556	A dual-stator brushless doubly-fed induction motor for EV/HEV applications. 2014,		4
555	Analysis and experimental verification of fault-tolerant performance of a mutually coupled dual-channel SRM drive under open-circuits. 2014,		2
554	Comparison of double-stator flux-switching permanent magnet machine and double-stator permanent magnet synchronous machine for electric vehicle applications. 2014,		5
553	Comparative study of novel biased flux permanent magnet machine with doubly salient permanent magnet machine. 2014,		19
552	Design of a new magnetic-planetary-gear outer-rotor permanent-magnet brushless motor for electric vehicles. 2014,		5
551	Investigation and development of a new brushless DC generator system for extended-range electric vehicle application. 2014,		3
550	Mechanical Offset for Torque Ripple Reduction for Magnetless Double-Stator Doubly Salient Machine. 2014, 50, 1-4		16

549	A Fault-Tolerant Permanent-Magnet Traction Module for Subway Applications. 2014 , 29, 1646-1658		101
548	A Novel Energy Management Strategy of Onboard Supercapacitor for Subway Applications With Permanent-Magnet Traction System. 2014 , 63, 2578-2588		41
547	Performance evaluation of a fault-tolerant decoupled dual-channel switched reluctance motor drive under open-circuits. 2014 , 8, 117-130		24
546	Design and Analysis of a New Modular Linear Flux-Reversal Permanent-Magnet Motor. 2014 , 24, 1-5		21
545	Core Loss Analysis and Calculation of Stator Permanent-Magnet Machine Considering DC-Biased Magnetic Induction. <i>IEEE Transactions on Industrial Electronics</i> , 2014 , 61, 5203-5212	8.9	83
544	A Hybrid-Excited Flux-Switching Machine for High-Speed DC-Alternator Applications. <i>IEEE Transactions on Industrial Electronics</i> , 2014 , 61, 2976-2989	8.9	77
543	. <i>IEEE Transactions on Industrial Electronics</i> , 2014 , 61, 6655-6663	8.9	66
542	The state of the art of wind energy conversion systems and technologies: A review. 2014 , 88, 332-347		339
541	Design and Comparison of Two Fault-Tolerant Interior-Permanent-Magnet Motors. <i>IEEE Transactions on Industrial Electronics</i> , 2014 , 61, 6615-6623	8.9	51
540	Regenerative Braking System of Electric Vehicle Driven by Brushless DC Motor. <i>IEEE Transactions on Industrial Electronics</i> , 2014 , 61, 5798-5808	8.9	141
539	. <i>IEEE Transactions on Industrial Electronics</i> , 2014 , 61, 2165-2175	8.9	76
538	General Requirement of Traction Motor Drives. 2014 , 1-18		7
537	Influence of flux focusing on electromagnetic torque of novel biased flux PM machines. 2014 ,		10
536	Comparison of variable flux reluctance, switched flux and fractional slot PM12-stator slots machines having 10- and 14-rotor poles. 2014 ,		2
535	Comparative study of novel synchronous machines having permanent magnets in stator poles. 2014 ,		9
534	Design and electromagnetic performance analysis of a new stator-permanent magnet bearingless machine. 2014 ,		3
533	Fault diagnosis of high-resistance connection in nine-phase flux-switching permanent magnet machine. 2015 ,		1
532	Design and analysis of a flux-switching permanent magnet linear machine with high thrust density. 2015 ,		

531	A new fault-tolerant flux-reversal doubly-salient magnetless motor drive with four-phase topology. 2015,	1
530	Comparison of doubly salient permanent magnet machines with E-shaped and Bshaped stator iron core segments. 2015,	5
529	Stator-Permanent Magnet Motor Drives. 2015, 147-194	2
528	A new single-phase flux reversal motor with the cores made of soft magnetic composite materials. 2015,	1
527	Presentation and analysis of a novel hybrid stepping motor with stator-permanent-magnet structure. 2015,	0
526	A new 12/11-pole dual three-phase flux-switching permanent magnet machine. 2015,	1
525	Permanent-Magnet Machines. 2015, 1-20	
524	Thermal analysis and cooling system design of flux switching permanent magnet machine. 2015,	2
523	The influence of permanent magnet length on electromagnetic performance in flux switching machine. 2015,	2
522	Research on the rotor suspension force of bearingless flux-switching machine. 2015,	4
521	Design and manufacturing considerations of flux-switching permanent magnet motors for mass productions used in EVs and HEVs. 2015,	2
520	Hybrid stepping motor with permanent magnets in stator-presentation, parameter calculation and design. 2015,	
519	Comparative analysis of parasitic losses in partitioned stator switched flux PM machines with double- and single-layer windings. 2015,	1
518	Flux-Switching Machines. 2015, 1-15	2
517	Control and Performance Evaluation of Multiphase FSPM Motor in Low-Speed Region for Hybrid Electric Vehicles. 2015, 8, 10335-10353	7
516	Advanced Electrical Machines and Machine-Based Systems for Electric and Hybrid Vehicles. 2015, 8, 9541-9564	62
515	A double-sided linear primary permanent magnet vernier machine. 2015, 2015, 596091	3
514	Steady-State Characteristics Analysis of Hybrid-Excited Flux-Switching Machines with Identical Iron Laminations. 2015, 8, 12898-12916	6

513	Novel Doubly Salient Permanent Magnet Machines With Partitioned Stator and Iron Pieces Rotor. 2015 , 51, 1-12	39
512	Analysis, design and experimental verification of a field-modulated permanent-magnet machine for direct-drive wind turbines. 2015 , 9, 150-159	35
511	Comparison of partitioned stator machines with different PM excitation stator topologies. 2015 ,	2
510	Fault tolerant control of triple star-winding flux switching permanent magnet motor drive due to open phase. 2015 ,	2
509	A simple initial rotor position identification method for PMSM. 2015 ,	
508	Performance improvement of brushless DC machine by zero-sequence current injection. 2015 ,	2
507	Hybrid flux-switching linear machine with fault-tolerant capability. 2015 ,	4
506	Research on a 4-phase wound-field doubly salient generator with compensation capacitors. 2015 ,	0
505	. 2015 , 30, 1472-1482	71
504	Investigation on phase shift between multiple-winding sets in multiphase flux-switching permanent magnet machines. 2015 ,	5
503	A six-phase transverse-flux-reversal linear machine for low-speed reciprocating power generation. 2015 ,	0
502	Comparison of a novel modular and complementary linear flux-switching permanent magnet motor with different phase arrangements. 2015 ,	
501	Mathematical Model of Radial Suspending Force for a New Stator-Permanent Magnet Bearingless Machine. 2015 , 51, 1-4	12
500	Magnet Arrangement in Novel Flux-Modulating Synchronous Machines With Permanent Magnet Excitation. 2015 , 51, 1-4	6
499	Numerical consideration of symmetrical structure linear permanent magnet vernier machine. 2015 ,	
498	Design and analysis of a dual-mode flux-switching doubly salient DC-field magnetless machine for wind power harvesting. 2015 , 9, 908-915	12
497	2D-FEA Based Design Study of Salient Rotor Three-Phase Permanent Magnet Flux Switching Machine with Concentrated Winding. 2015 , 785, 274-279	3
496	Unity power factor control of dual permanent magnet synchronous motors fed by five-leg inverter system. 2015 ,	

495	Dual airgap stator- and rotor- permanent magnet machines with spoke-type configurations using phase-group concentrated-coil windings. 2015,		2
494	Design and analysis of two six-phase hybrid-excitation flux-switching machines for electric vehicles. 2015,		
493	Analysis of Air-Gap Field Modulation and Magnetic Gearing Effects in Switched Flux Permanent Magnet Machines. 2015, 51, 1-12		162
492	Speed Control of Complementary and Modular Linear Flux-Switching Permanent-Magnet Motor. <i>IEEE Transactions on Industrial Electronics,</i> 2015, 62, 4056-4064	8.9	51
491	Flux-Regulation Theories and Principles of Hybrid-Excited Flux-Switching Machines. <i>IEEE Transactions on Industrial Electronics,</i> 2015, 62, 5359-5369	8.9	80
490	Novel Electrical Machines Having Separate PM Excitation Stator. 2015, 51, 1-9		11
489	Harmonic Analysis of Low-Stator-Slot and Rotor-Pole Combination FSPM Machine Topology for High Speed. 2015, 51, 1-4		18
488	Comparative Study of a Fault-Tolerant Multiphase Wound-Field Doubly Salient Machine for Electrical Actuators. 2015, 8, 3640-3660		4
487	. 2015,		2
486	Investigation and Design of a High-Power Flux-Switching Permanent Magnet Machine for Hybrid Electric Vehicles. 2015, 51, 1-5		13
485	Novel Dual-Layer and Triple-Layer Permanent-Magnet-Excited Synchronous Motors. 2015, 51, 1-4		1
484	Analysis of a Novel Magnetic-Geared Dual-Rotor Motor With Complementary Structure. <i>IEEE Transactions on Industrial Electronics,</i> 2015, 62, 6737-6747	8.9	73
483	Optimization and Analysis of a Yokeless Linear Flux-Switching Permanent Magnet Machine With High Thrust Density. 2015, 51, 1-4		17
482	A novel double-sided flux-switching permanent magnet linear motor. 2015, 117, 17B530		9
481	Design and analysis of permanent magnet induction generator for grid-connected direct-driven wind power application. 2015,		1
480	Design and Optimization of a Voice Coil Motor With a Rotary Actuator for an Ultrasound Scanner. <i>IEEE Transactions on Industrial Electronics,</i> 2015, 62, 7073-7078	8.9	25
479	A Novel Dual-Rotor, Axial Field, Fault-Tolerant Flux-Switching Permanent Magnet Machine With High-Torque Performance. 2015, 51, 1-4		39
478	Design of a lightweight toroidal flux-switching permanent magnet machine with large air-gap. 2015		

477	Comparative study of alternative modular switched flux permanent magnet machines. 2015 ,		2
476	Winding configuration design of flux-switching PM motors based on magnetic gearing principle. 2015 ,		1
475	Harmonic analysis of low stator slot and rotor pole combination FSPM machine topology for high speed. 2015 ,		1
474	Investigation of a novel rotor permanent magnet flux switching machine for EV and HEV applications. 2015 ,		
473	A new general design method of segmented-rotor wound field flux-switching motors with complementary magnet circuit. 2015 ,		0
472	Investigation of an Improved Hybrid-Excitation Flux-Switching Brushless Machine for HEV/EV Applications. 2015 , 51, 3791-3799		46
471	Finite Element Analysis of Flux-Switching PM Machine Considering Oversaturation and Irreversible Demagnetization. 2015 , 51, 1-4		25
470	. 2015 , 30, 772-783		49
469	High-performance partitioned-stator switched flux memory machines with hybrid magnets on external stator for traction applications. 2016 ,		3
468	Novel High-Performance Switched Flux Hybrid Magnet Memory Machines With Reduced Rare-Earth Magnets. 2016 , 52, 3901-3915		22
467	Design and Analysis of an Electronic-Geared Magnetless Machine for Electric Vehicles. <i>IEEE Transactions on Industrial Electronics</i> , 2016 , 63, 6705-6714	8.9	24
466	Investigation of field to armature slot area ratio on torque ripple in HEFS machine. 2016 ,		2
465	Novel Partitioned Stator Hybrid Magnet Memory Machines for EV/HEV Applications. 2016 ,		
464	. 2016 ,		0
463	Cogging torque minimization in flux-switching permanent magnet machines by tooth chamfering. 2016 ,		9
462	A novel flux-switching permanent magnet motor-compressor with integrated airfoil-shaped rotor design. 2016 ,		1
461	Active voltage regulation of partitioned stator switched flux permanent magnet generator supplying isolated passive load. 2016 ,		
460	Brushless DC motor drive with regenerative braking using adaptive neuro based fuzzy inference system. 2016 ,		6

459	Design and Comparison of Direct-Drive Stator-PM Machines for Electric Power Generation. 2016,		2
458	Electromagnetic Performance Analysis of a Partitioned Rotor Hybrid-Excited Flux-Switching Permanent Magnet Machine. 2016,		1
457	A High Torque Density Vernier PM Machines for Hybrid Electric Vehicle Applications. 2016,		1
456	A modular and fault-tolerant linear flux-switching permanent magnet machine with thin yoke. 2016		1
455	A novel outer-rotor-permanent magnet flux-switching machine for in-wheel light traction. 2016,		
454	Dynamic Performance Evaluation of a Nine-Phase Flux-Switching Permanent-Magnet Motor Drive With Model Predictive Control. <i>IEEE Transactions on Industrial Electronics</i> , 2016 , 63, 4539-4549	8.9	49
453	A Full-Pitched Flux-Switching Permanent-Magnet Motor. 2016 , 26, 1-5		9
452	Analysis of Magnetic Gearing Effect in Partitioned Stator Switched Flux PM Machines. 2016 , 31, 1239-1249		35
451	A novel fault-tolerant permanent-magnet synchronous machine drive considering open-phase faults. 2016,		
450	Comparative study of biased flux permanent magnet machines with doubly salient permanent magnet machines considering with influence of flux focusing. 2016 , 141, 281-289		4
449	Analysis of a new five-phase fault-tolerant doubly salient brushless DC generator. 2016 , 10, 633-640		19
448	Novel Synchronous Machine With Permanent Magnet in Stator Yoke. 2016 , 26, 1-5		9
447	A Flux-Modulating Synchronous Machine with Permanent Magnet Excitation. 2016 , 197, 36-43		1
446	Investigation of the effect of eccentricity in Flux Switching Permanent Magnet machines. 2016,		
445	Research on control strategy for a double-winding bearingless flux-switching machine with alternating excited orthogonal suspension windings. 2016,		2
444	Torque Density Improvement of Doubly Salient Electromagnetic Machine With Asymmetric Current Control. <i>IEEE Transactions on Industrial Electronics</i> , 2016 , 63, 7434-7443	8.9	27
