

# Dextran hydrogel scaffolds enhance angiogenic response and tissue regeneration during burn wound healing

Proceedings of the National Academy of Sciences of the United States of America  
108, 20976-20981

DOI: [10.1073/pnas.1115973108](https://doi.org/10.1073/pnas.1115973108)
