Version: 2024-04-27

This report has been generated based on the citations recorded by exaly.com for the above article. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
331	Recent Literature in Cartography and Geographic Information Science. 2011 , 38, 398-409		1
330	Delineation of Groundwater Potential Zones in Arid Region of India A Remote Sensing and GIS Approach. <i>Water Resources Management</i> , 2012 , 26, 2643-2672	3.7	115
329	Impact of Tanning Industries on Groundwater Quality near a Metropolitan City in India. <i>Water Resources Management</i> , 2012 , 26, 1747-1761	3.7	43
328	A Prioritization Model for Rehabilitation of Water Distribution Networks Using GIS. <i>Water Resources Management</i> , 2012 , 26, 225-241	3.7	20
327	Integration of hydrological factors and demarcation of groundwater prospect zones: insights from remote sensing and GIS techniques. 2013 , 70, 1319-1338		54
326	Delineation of groundwater potential zone: An AHP/ANP approach. 2013 , 122, 887-898		126
325	Characterizing rainfall-groundwater dynamics in a hard-rock aquifer system using time series, geographic information system and geostatistical modelling. 2014 , 28, 2824-2843		36
324	Development and Integration of a Groundwater Simulation Model to an Open Geographic Information System. 2014 , 50, 101-110		7
323	Delineation of groundwater potential zones in the crystalline basement terrain of SW-Nigeria: an integrated GIS and remote sensing approach. 2014 , 4, 19-38		148
322	Rainwater harvesting planning using geospatial techniques and multicriteria decision analysis. 2014 , 83, 96-111		78
321	A Spatial Multi-Criteria Analysis Approach for Locating Suitable Sites for Construction of Subsurface Dams in Northern Pakistan. <i>Water Resources Management</i> , 2014 , 28, 5157-5174	3.7	46
320	A review of multi-criteria decision-making methods for infrastructure management. 2014 , 10, 1176-1210		215
319	Appraising the accuracy of GIS-based Multi-criteria decision making technique for delineation of Groundwater potential zones. <i>Water Resources Management</i> , 2014 , 28, 4449-4466	3.7	88
318	GIS and SBF for estimating groundwater recharge of a mountainous basin in the Wu River watershed, Taiwan. 2014 , 123, 503-516		16
317	Identification of potential groundwater recharge zones in Vaigai upper basin, Tamil Nadu, using GIS-based analytical hierarchical process (AHP) technique. 2014 , 7, 1385-1401		166
316	Comparative advantage for the areas irrigated with underground blue water in North China Plain. 2015 , 17, 1033-1044		4
315	Operational applications of remote sensing in groundwater mapping across sub-Saharan Africa. 2015 , 70, 173-179		4

314	Research on quantitative evaluation technique to the shallow pore water based on the remote sensing information: a case in western Liaoning. 2015,		
313	Weighting Methods and their Effects on Multi-Criteria Decision Making Model Outcomes in Water Resources Management. 2015,		93
312	Using Remote Sensing to Map and Monitor Water Resources in Arid and Semiarid Regions. 2015, 33-60		13
311	Identifying sources of groundwater contamination in a hard-rock aquifer system using multivariate statistical analyses and GIS-based geostatistical modeling techniques. 2015, 4, 80-110		109
310	Spatial analysis of groundwater potential using remote sensing and GIS-based multi-criteria evaluation in Raya Valley, northern Ethiopia. 2015, 23, 195-206		89
309	Identification of potential artificial groundwater recharge zones in Northwestern Saudi Arabia using GIS and Boolean logic. 2015, 111, 156-169		58
308	Evaluation of GIS-based multicriteria decision analysis and probabilistic modeling for exploring groundwater prospects. 2015, 74, 2223-2246		27
307	Application of analytical hierarchy process, frequency ratio, and certainty factor models for groundwater potential mapping using GIS. 2015, 8, 867-883		258
306	Comparing GIS-based multi-criteria decision-making and Boolean logic modelling approaches for delineating groundwater recharge zones. 2015, 8, 10675-10691		28
305	A comparison between index of entropy and catastrophe theory methods for mapping groundwater potential in an arid region. 2015, 187, 576		42
304	Geospatial and geostatistical approach for groundwater potential zone delineation. 2015, 29, 395-418		82
303	Delineation of groundwater potential zone in hard rock terrain of India using remote sensing, geographical information system (GIS) and analytic hierarchy process (AHP) techniques. 2015, 30, 402-421		126
302	Groundwater potential mapping at Kurdistan region of Iran using analytic hierarchy process and GIS. 2015, 8, 7059-7071		256
301	Multi-Criteria Analysis Framework for Potential Flood Prone Areas Mapping. <i>Water Resources Management,</i> 2015, 29, 399-418	3.7	151
300	Integrated knowledge- and data-driven approaches for groundwater potential zoning using GIS and multi-criteria decision making techniques on hard-rock terrain of Ahar catchment, Rajasthan, India. 2015, 73, 1871-1892		33
299	Regional prediction of groundwater potential mapping in a multifaceted geology terrain using GIS-based DempsterBhafer model. 2015, 8, 3235-3258		88
298	Assessment of Groundwater Potential Based on Multicriteria Decision Making Model and Decision Tree Algorithms. 2016, 2016, 1-11		38
297	Delineation of Groundwater Potential Zones of Coastal Groundwater Basin Using Multi-Criteria Decision Making Technique. <i>Water Resources Management,</i> 2016, 30, 4293-4310	3.7	52

296	Classification of groundwater potential in Chaoyang area based on QUEST algorithm. 2016,		4
295	Group decision-making in land evaluation for irrigation: a case study from Serbia. 2016, 18, 579-598		6
294	Groundwater resource exploration in Salem district, Tamil Nadu using GIS and remote sensing. 2016, 125, 311-328		12
293	Mapping groundwater recharge potential zone using a GIS approach in Hualian River, Taiwan. 2016, 26, 33-43		156
292	Multi-criteria decision analysis for planning and management of groundwater resources in Balod District, India. 2016, 75, 1		20
291	Estimation the Physical Variables of Rainwater Harvesting System Using Integrated GIS-Based Remote Sensing Approach. <i>Water Resources Management</i> , 2016, 30, 3299-3313	3-7	47
290	MULTI-CRITERIA DECISION MAKING IN CIVIL ENGINEERING. PART II [APPLICATIONS]. 2016, 7, 151-167		32
289	Groundwater potential mapping using remote sensing and GIS-based, in Halabja City, Kurdistan, Iraq. 2016, 9, 1		10
288	Prediction of groundwater flowing well zone at An-Najif Province, central Iraq using evidential belief functions model and GIS. 2015, 188, 549		6
287	Combination of a geographical information system and remote sensing data to map groundwater recharge potential in arid to semi-arid areas: the Haouz Plain, Morocco. 2016, 9, 465-479		18
286	Diagnosis and Prognosis of Salt-Affected Soils and Poor-Quality Waters Using Remote Sensing and Proximal Techniques. 2016, 55-82		3
285	Testing the ability of an empirical hydrological model to verify a knowledge-based groundwater potential zone mapping methodology. 2016, 2, 1-17		24
284	Earthquake hazard assessment in the Momase region of Papua New Guinea. 2016, 24, 617-637		5
283	Remote Sensing and GIS based groundwater potential mapping for sustainable water resource management of Lidder catchment in Kashmir Valley, India. 2016, 87, 716-726		8
282	Modeling groundwater probability index in Ponnaiyar River basin of South India using analytic hierarchy process. 2016, 2, 1		41
281	Spatial multi-criteria analysis for selecting potential sites for aquifer recharge via harvesting and infiltration of surface runoff in north Jordan. 2016, 24, 1753-1774		13
280	Spatial mapping of artesian zone at Iraqi southern desert using a GIS-based random forest machine learning model. 2016, 2, 1		18
279	Geospatial-based soil variability and hydrological zones of Abha semi-arid mountainous watershed, Saudi Arabia. 2016, 9, 1		12

278	Assessment of groundwater vulnerability mapping using AHP method in coastal watershed of shrimp farming area. 2016 , 9, 1		16
277	Identifying priority watersheds to mitigate flood and drought impacts by novel conjunctive water use management. 2016 , 75, 1		6
276	Spatial analysis of groundwater potential using weights-of-evidence and evidential belief function models and remote sensing. 2016 , 9, 1		104
275	Application of Integrated Shannon's Entropy and VIKOR Techniques in Prioritization of Flood Risk in the Shemshak Watershed, Iran. <i>Water Resources Management</i> , 2016 , 30, 409-425	3-7	34
274	Application of GIS-based data driven random forest and maximum entropy models for groundwater potential mapping: A case study at Mehran Region, Iran. 2016 , 137, 360-372		293
273	Delineation of groundwater potential zones in the Comoro watershed, Timor Leste using GIS, remote sensing and analytic hierarchy process (AHP) technique. 2017 , 7, 503-519		124
272	Modeling of groundwater productivity in northeastern Wasit Governorate, Iraq using frequency ratio and Shannon's entropy models. 2017 , 7, 699-716		38
271	Geological and geomorphological controls on groundwater occurrence in a hard rock region. 2017 , 7, 1377-1389		85
270	Evaluating persistence and identifying trends and abrupt changes in monthly and annual rainfalls of a semi-arid region in Western India. 2017 , 128, 689-708		19
269	Grey analytic hierarchy process applied to effectiveness evaluation for groundwater potential zone delineation. 2017 , 32, 1188-1205		26
268	Application of Remotely-Sensed Data to Estimate a Water Budget for Data-Scarce Endorheic Basins: A Case Study of Lake Urmia basin, Iran. 2017 , 45, 101-112		4
267	Extracting of prospective groundwater potential zones using remote sensing data, GIS, and a probabilistic approach in Bojnourd basin, NE of Iran. 2017 , 10, 1		14
266	Assessment of groundwater potential zones using multi-influencing factor (MIF) and GIS: a case study from Birbhum district, West Bengal. 2017 , 7, 4117-4131		116
265	Geospatial and MCDM tool mix for identification of potential groundwater prospects in a tropical river basin, Kerala. 2017 , 76, 1		18
264	Integrating Spatial Multi Criteria Decision Making (SMCDM) with Geographic Information Systems (GIS) for delineation of the most suitable areas for aquifer storage and recovery (ASR). 2017 , 551, 577-595		29
263	Flowing well potential zoning at Iraqi southern and western deserts using frequency ratio and geographic information system. 2017 , 14, 2249-2268		2
262	Spatial mapping of groundwater potential in Ponnaiyar River basin using probabilistic-based frequency ratio model. 2017 , 3, 1		15
261	Identification of artificial groundwater recharging zone using a GIS-based fuzzy logic approach: a case study in a coal mine area of the Damodar Valley, India. 2017 , 7, 4513-4524		29

260	Modeling of geoelectric parameters for assessing groundwater potentiality in a multifaceted geologic terrain, Ipinsa Southwest, Nigeria [A GIS-based GODT approachPeer review under responsibility of National Research Institute of Astronomy and Geophysics.View all notes. 2017 , 6, 434-451	8
259	Delineation of groundwater potential zones using remote sensing, GIS, and AHP technique in TehranKaraj plain, Iran. 2017 , 76, 1	23
258	Estimating aquifer properties and distributed groundwater recharge in a hard-rock catchment of Udaipur, India. 2017 , 7, 3157-3172	7
257	Application of geospatial modelling technique in delineation of fluoride contamination zones within Dwarka Basin, Birbhum, India. 2017 , 8, 1105-1114	38
256	Delineation of potential fluoride contamination zones in Birbhum, West Bengal, India, using remote sensing and GIS techniques. 2017 , 10, 1	22
255	Assessing the accuracy of GIS-based Multi-Criteria Decision Analysis approaches for mapping groundwater potential. 2018 , 91, 24-37	79
254	Mapping groundwater recharge potential zones in arid region using GIS and Landsat approaches, southeast Tunisia. 2018 , 63, 251-268	44
253	Delineation of Groundwater Potential Zones in Jaisamand Basin of Udaipur District. 2018 , 3-20	2
252	Assessment of groundwater potential of Gandhinagar region, Gujarat. 2018 , 91, 91-98	8
251	Assessment of manganese contamination in groundwater using frequency ratio (FR) modeling and GIS: a case study on Burdwan district, West Bengal, India. 2018 , 4, 161-174	9
250	Integrated Multi-criteria Evaluation and Weighted Overlay Analysis in Assessment of Groundwater Potentiality in Segui Region, Southern Tunisia. 2018 , 631-632	2
249	Use of geospatial technology for delineating groundwater potential zones with an emphasis on water-table analysis in Dwarka River basin, Birbhum, India. 2018 , 26, 899-922	33
248	Developing a non-compensatory approach to identify suitable zones for intensive tourism in an environmentally sensitive landscape. 2018 , 87, 152-166	13
247	Mapping groundwater recharge potential using GIS approach in Darwha block. 2018 , 11, 1	4
246	GIS-Based Method for Estimating Surficial Groundwater Levels in Coastal Virginia Using Limited Information. 2018 , 144, 05018004	1
245	Application of remote sensing, GIS and MCA techniques for delineating groundwater prospect zones in Kashipur block, Purulia district, West Bengal. 2018 , 8, 1	19
244	Assessment of groundwater potential zones in coal mining impacted hard-rock terrain of India by integrating geospatial and analytic hierarchy process (AHP) approach. 2018 , 33, 105-129	69
243	Delineation of groundwater potential zone for sustainable development: A case study from Ganga Alluvial Plain covering Hooghly district of India using remote sensing, geographic information system and analytic hierarchy process. 2018 , 172, 2485-2502	109

242	Rapid Delineation of Groundwater Enrichment Area in Arid Region of Xinjiang Based on GRSFAI. 2018 , 392, 042034	
241	Groundwater suitability zonation with synchronized GIS and MCDM approach for urban and peri-urban phreatic aquifer ensemble of southern India. 2018 , 15, 801-811	5
240	GISwaps. 2018 , 10, 57-78	5
239	Mapping groundwater prospect zones in an intermontane basin of the Outer Himalaya in India using GIS and remote sensing techniques. 2018 , 77, 1	9
238	The dual use of drainage characteristics in groundwater potential modelling using remote sensing and GIS: an example from Dengi Area, Northcentral Nigeria. 2018 , 4, 1105-1115	1
